

SUPERIOR SINGLE DISC DRILLS

# SUPERIOR SINGLE DISC DRILLS

SUPERIOR SINGLE DISC DRILLS

We manufacture Plain Hoe and Disc Drills, Fertilizer Hoe and Disc Drills, One-Horse Drills and Disc Harrows on Wheels.

Never Clogs in Foul Ground. Steel Wheels and Steel Seat on Special Order. Spiral Wire Grain Tubes. Furrow is opened by one disc being placed at an angle which will make a correct width of trench for the reception of the seed. The angle is non-adjustable, hence always correct. Each disc and draw bar is perfectly free and independent in action, each disc being free to work on high places or ridges, while the adjacent disc will be working satisfactorily in the furrow or low places. Especially recommended for use in hard ground; also in trashy ground, weeds, grass, corn stubble, etc. Will work where no Hoe Drill can. Drag chains are furnished with all Disc Drills without extra cost.

Don't broadcast Oats. Sow them with a Superior Single Disc Drill, and save Seed, Labor, Time and Money.
