

30 PERCHERONS

Also Shires, Hackneys and Clydes, have just arrived with our new importation from Scotland, England and France, of high-class stallions and mares. Many of them prizewinners in their native lands. Bred by the best breeders. Percherons, blacks and grays, weighing 1,600 to 2,000 pounds. Shires at two years old weighing 1,700 pounds. Clydes, bays and blacks, 4 and 5 years old, weighing 1,800 to 2,000 pounds, bred by the best in Scotland. Our Hackneys are bays and chestnuts, combining size, quality and breeding that cannot be beaten. We have a few first-class young stallions that we will sell at cost, to make room for our next importation; and all for sale at reasonable prices.

GOSSIP

Messrs. Mac Campbell & Sons, Harwich, Ont., write: "We have had a very prosperous year with our Duroc-Jersey hogs; have sold everything we could spare, and refused several orders. Our George D. Campbell is at present visiting some of the leading herds of the United States, in search of some of their best boars, and sows in farrow."

Mr. W. H. Simmons, New Durham, Ont., writes: "Among my sales of Holsteins, since January 1st, 1907, are the following: To Mr. William Slaughter, Bealton, Ont., three grand cows; Jemima Cubanna gave, in official test, '65 lbs. of milk in one day, and 62 lbs. average for fourteen days; Lizzie Pietertje De Kol, 19.50 lbs. butter in seven days; Little Katie Kent 3rd, also an excellent R. of M. cow. The sires of these cows are also in R. of M. To Mr. R. W. Walker, Utica, Ont., a grand show bull, to head his fine herd of pure-breds. This bull's dam is imported, and gave 59 lbs. of milk in one day. Our stock bull, Isco Mechthilde, went to Mr. M. B. Traves, Latimer, Ont. He won first prize at Toronto, 1905. His dam and two sisters averaged 20.50 lbs. of butter in seven days. To Wm. T. Bell, Willets-holme, a bull calf, whose dam is in R. of M. This is the second bull that Mr. Bell has purchased from this herd. A son of Lizzie Pietertje De Kol (official record 15.50 lbs. in seven days) went to H. A. Lester, Burford, Ont. A bull calf to A. Cornell; his dam gave, in official test, 62 lbs. of milk in one day in official test from three teats. His grandsire is a brother to Algie Posh, 27 lbs. of butter in seven days, world's champion for age; also Mercena 3rd, 27.65 lbs. of butter in seven days, 113 lbs. in 30 days. These three bulls were sired by Prince Pauline De Kol 4th, third-prize bull at Toronto, and second at London, 1905. He has ten sisters in R. of M., and his dam has ten sisters in A. R., with records as high as 24 lbs. of butter in one week. An imported bull went to Mr. Albert Wells, Teviotdale, Ont.; a son of the second-prize yearling heifer at Toronto to Mr. John H. Tuttle, Oriel, Ont. His dam is sister to Liola, the champion heifer in Canada last year under three and a half years; a son of the first-prize bull at London to Mr. Wallace Tuttle. This bull's dam is full sister to the dam of the first-prize bull calf at London, 1904. Tidy Abbekerk Mercena Posch, now at the head of the herd, is the richest butter-bred bull calf in Canada, and unsurpassed in America; three nearest dams averaged 26.64 lbs. butter in seven days, three nearest dams' dam's sisters and grandsire's full sister averaged 27.66 lbs. butter in seven days."

QUESTIONS AND ANSWERS. Veterinary.

MISCELLANEOUS.

1. Give treatment for diarrhoea in a horse.
 2. Where can Angora goats be purchased, and on what kind of land will they thrive best? Where can their hair be sold?
 3. Can a bitch 5 years old be spayed without danger?
 4. At what age should Angora goats be castrated? G. R.
- Ans.—1. Remove the cause. If due to an irritant in the intestines, give a pint of raw linseed oil and follow up with astringents as 2 ozs. tincture of opium, 4 drams each of catechu and prepared chalk in a pint of cold water as a drench every four hours until diarrhoea ceases. If the case be acute and the horse becoming weak, omit the oil and commence with the astringents at once.
2. I do not know where they can be purchased or where there is a market for the hair. Probably some readers of this journal may have them for sale. They, like other goats, will thrive best on high, dry land.
3. There is always danger of untoward results following this operation. The danger is greater in a five-year-old than in a younger animal, at the same time the risk is not great if the operation be skillfully performed.
4. From 2 to 4 weeks old.
