Gentlemen,—Enclosed find check for \$5, for which please send me one bottle "Save-the-Horse," with the written guarantee. My trotting stallion is curbed rather badly, and as he is making two stands per week I don't want to blister him and lay him up. I saw your ad. in The Farmer's Advocate, and as you claim your remedy removes these blisters without laying up the horse, I decided it is just what I want. Your prompt attention will greatly oblige.

Yours very truly,

L. A. BURSON.

Troy Chemical Co., Binghamton, N. Y.

Gentlemen,—Enclosed find my draft for \$5, for which kindly send at once one bottle of "Save-the-Horse." The bottle I purchased of you in May did all you claimed for it. I gave the horse a long season, drove him every day, and sold him this fall sound as a dollar. He had quit going lame before half of the bottle was used on him; but I kept it up for a month or six weeks longer till the enlargement was all gone. I unhesitatingly recommend this remedy to all my friends who need anything of the kind, and the fact that you have since received orders from this locality is sufficient proof of this. With compliments of the season, I am,

Yours truly,

L. A. BURSON.

Why does "Save-the-Horse" so distinctly dominate over firing, blistering and every remedy and method known to veterinary practice? Why, because on any and every case of any account, the kind where all other methods fail, it proves to be the only remedy that has the potential properties and power to consummate the desired result. Nearly everything made will cure some cases; but what are they compared with the cases "Save-the-Horse" cures? Whether the case is an old, a new, or a serious complicated case considered beyond hope, in using "Save-the-Horse" you are not frittering away time and money.

"SAVE-THE-HORSE" Will Permanently Cure Under Any Test

Bone and Bog Spavin, Ringbone (except Low Ringbone), Curb, Thoroughpin, Splint, Shoeboil, Wind-puff, Injured Tendons, and all lameness, without scar or loss of hair. Horse may work as usual. \$5.00 per bottle, with a written guarantee, as binding to protect you as the best legal talent could make it. Send for a copy and booklet.

MAGNET Cream Separator

There has always been a desire on the part of "men and women who care" for something better than the average—a machine better than the ordinary, and these people are prepared to buy when they see it, and expect to pay the manufacturers a reasonable profit, knowing by experience that the superior article pays better than the inferior if the first cost is a little more. Large catalogue, giving description of the DOUBLE SUPPORTED BOWL, SQUARE GEAR CONSTRUCTION and PERFECT OPERATION, free. Address:

He Bought Her a 1900 Washer

One of Our Readers Tells How Her Husband Learned

What Washday Means to a Woman.

Dear Editor:—Most men have no realization of what "wash-day" means to a woman. My husband is one of the best men that ever lived, but he laughed when I asked him one day to get me a 1900 Gravity Washer. I told him it would wash a tubful of clothes in six minutes. "Why, wife," said he, "a washing machine is a luxury. And, besides, there's no better exercise than rubbing clothes on a washboard. It's good for the back. I think we had better wait till we get the farm paid for before fooling away money on such new-fangled things as washing machines."

John's Busy Day.

Two weeks, I suggested to John that he had better do the washing. We couldn't hire a girl for love or money, and the situation was desperate.

So one morning he started in. My! what a commotion there was in the kitchen. From my bedroom I occasionally caught glimpses of poor John struggling with that mountain of dirty clothes.

If ever a man had all the "exercise" he wanted, my husband was that man! Couldn't help feeling sorry for him, and yet it made me laugh, for I remembered how he made fun of me when I hinted so strongly for a 1900 Gravity Washer. When he finally got the clothes done and on the line he was just about "all in."

That evening John came to my room and said kind of sheepishly: "What's the name of the firm that makes those Washers you were telling me about?" I looked up their advertisement and found the following address:

That settled it. I gave up the idea and kept right on washing in the same old way. I confess I felt hurt, but I knew John had no notion how hard it was to do the washing for a family of five—three of them little tots.

I am not very strong and the washing, with all my other work, finally got the better of me. I had quite a sick spell, and after things had gone at sixes and sevens for nearly two weeks, I suggested to John that he had better do the washing. We couldn't hire a girl for love or money, and the situation was desperate.

If women knew what a wonderful help the 1900 Gravity Washer is, not one would be without it. It saves work and worry and doctors' bills. Takes away all the dread of wash-day. I feel like a different woman since I have quit the use of the washboard. If any woman's husband objects to buying one of these labor-saving machines, let him do just one big washing by hand-rubbing on the old-fashioned washboard, and he will be only too glad to get you a 1900 Gravity Washer.

Anybody can get one on free trial by first writing for the Washer Book.

Don't be talked into buying any other machine—there are many imitations, but none "just as good" as the 1900 Gravity Washer.

Excuse me for writing such a long letter, but I hope, Mr. Editor, you will print it for the benefit of the women readers of your valuable paper.

Sincerely yours, MRS. J. H. SMITH.

The secret of the easy operation of the 1900 Washer is in the peculiar "S" shaped links, which no other washer can have; then it has no iron to come in contact with the clothes, and also has a removable tub, which is a great convenience.
