## Buy a Deering Binder and Avoid Waste

THE Deering binder has proved itself master of the grain field. The Deering knottor, for three decades the mechanical wonder of the age, still twists the twine into that ingenious knot which the human hand has never been able to equal. Deering harvesting and haying machines have established a world-wide standard. The sun never sets on the Deering binder, and every day of the year and every hour of the day its click can be heard in some harvest field.

Deering quality has a name the world over; it never varies, but the machine itself is changed to suit the demands of different countries. The Deering New Ideal binder is made especially to do the work of Ontario and Eastern Canadian farmers. It is manufactured at Hamilton, Ontario, within easy reach of all. Using a Deering binder means easy pulling for your horses, quick, light work on hilly fields, and good work even on rough ground. Your harvest troubles cease when you use a Deering binder. See the Deering local agent, and have him show you the good points of the harvesting and haying tools and binder twine. Get catalogues from him, or, write the nearest branch house.
