

Get filled up with dirt and become a nest for vermin. The use of hard wall plaster and wood fibre plaster has come as a great boon to country builders. With these plasters the long delay and trouble caused by mixing lime mortar is avoided, for this special plaster can be mixed in a small box, and used just as wanted, and when properly put on gives a lasting wall.

The Manitoba Gypsum Company have done more than anyone else in Canada to popularize these hard wall plasters, and their Empire Cement Plaster and Empire Wood Fibre Plaster are now found in every town from Port Arthur to Victoria. At the last Winnipeg Exhibition this company showed among their fine exhibits of plaster materials, the Roberts' Plaster Board, which can be nailed on the wall by anyone and simply wants a light coat plastered on top to make a complete, fire-proof plaster wall. The Manitoba Gypsum company can also supply a preparation to fill up the joints and the wall can then be prepared without further plastering.

The Manitoba Gypsum Company have spent a lot of money developing their gypsum deposit on Lake Manitoba, and, in spite of many pioneering difficulties, are now firmly established and able to take care of the trade. Their mill in Winnipeg is the largest plaster mill in Canada and will compare favorably with any of the large mills for a similar purpose in the United States.

DOMINION CARTRIDGE CO.—The advantages claimed by many makers of firearms and cartridges are misleading but the Dominion Cartridges are tested thoroughly in all arms for which they are adapted, a complete armory being kept for this purpose and this firm's ammunition is guaranteed to work perfectly in most of the standard maker's weapons. The Dominion ammunition of to-day is the result of nearly twenty-five years' constant endeavor to attain perfection, endeavor on the part of the company's experts and those of leading manufacturers on this continent and in Europe, and the result attained is certainly close to the goal aimed at—accuracy, uniform high velocity, penetration and cleanliness. At every stage during manufacture the greatest care and the most rigid inspection are used. During 1908 this Company will place on the market a new twenty gauge Sovereign Smokeless Shell which has been designed to meet the large demand for this class of goods and the attention of the trade is also called to the fact that they are now not only packing primers in the old metal boxes of 250 each, but in addition are packing them in divisional explosive proof boxes of 100 primers each, which will be a great convenience, for many people do not wish to purchase more than 100 primers at a time and the new method of packing is of the safest yet adopted. The catalog for 1908 is very artistically designed and should prove especially interesting to all handling these goods, including, as it does, several new sizes.

DAIRYING THAT PAYS.—A few farmers make a handsome income from their dairy—many, achieve a moderate success—some do not begin to make as much money out of their cows as they should.

There is a good profit in milk, the farmer must know, first of all, what this profit is—and second, how to get the profit out of the milk. The man who wants to have his cows pay a good profit, and pay this profit all the year round, cannot study the problem too carefully. One of the most helpful books we have ever seen on the subject of profitable dairying, has just been received from the Vermont Farm Machine Company, of Bellows Falls, Vermont, U. S. A. In condensed form it gives facts and figures that will prove wonderfully interesting to those who are ambitious to find the right way of running a dairy farm. In sending us this book, the Vermont Farm Machine Company mentioned the fact that they would send free copies to those of our readers who were interested in the subject.

In order to insure prompt receipt, those who write the Vermont Farm Machine Company might mention this paper.

INTERNATIONAL STOCK FOOD COSTS ONLY

This Beautiful Picture in 6 Brilliant Colors Mailed to You FREE

A Marvellous Picture of 2 World Champions Dan Patch, 1:55, The Pacing King Cresceus 2:02 1/4, The Trotting King

We have large colored lithographs of our World Famous Champion Stallions, Dan Patch 1:55 and Cresceus 2:02 1/4, in an exciting speed contest. It is 16 by 21 in. and shows both horses as life-like as if you saw them racing. You can have one of these Large and Beautiful Colored Pictures of the Two Most Valuable Harness Horse Stallions and Champions of the World, Absolutely Free. We Prepay Postage. This cut is a reduced engraving of the large Colored Lithograph we will send you free.

WRITE AT ONCE

1st, Name the Paper in which you saw this offer.

2nd, State how much live stock you own.
