

You Need This Dollar-Earning Knowledge!

2000 Farmer Students

Last season nearly 2000 students were enrolled in our Correspondence Course in Traction Farming and Engineering. Over 900 attended the Hart-Parr Practice Schools. The cut shows a group of them in session at Regina, Sask., Canada, February 20th to 29th, 1912.

Practical Course of Home Study

This Correspondence Course is the only practical course ever offered to practical farmers. It comprises 15 lessons in bound booklet form. Lessons that teach you—right in your own home—all about the detail construction, operation and care of gas tractors, and how to do power farming better and cheaper. Text written in simple language, by acknowledged experts. Technical terms explained in a way that everyone can understand.

Get This Money-Making Knowledge

Each lesson brimful of helpful, money-making, money-saving information and pointers. Entire course worth many dollars to prospective buyers, tractor owners and wage earners.

Take this course. It teaches you how to select the best tractor. How to regulate the fuel, operate levers, control speed, make proper adjustments and repairs without the help of experts. Shows you how to lay out fields, make all kinds of hitches. Teaches the wage earner how to become an expert traction engineer, and so fit himself for a good paying position.

Students Free Practice Schools

Then the practice school instructions help students to apply their knowledge. Here you get a chance to actually run a tractor. With the engine right before you, you can examine all constructive details and all the other things you have learned in the lessons. Expert instructors are on hand to answer your questions, correct your errors, and make everything clear, step by step.

These practice schools are absolutely Free to Hart-Parr Correspondence Course students.

Location of Schools

This season, practice schools will be held at the following centrally-located points.

In United States

Aberdeen, S.D. Great Falls, Mont.
 Fargo, N.D. Houston, Tex.
