Deering New Ideal The Binder for Your Fields

TO say, "The binder for your fields," means that the Deering New Ideal will give you the best possible results at harvest time.

The main frame of the Deering New Ideal binder is made of tough, strong steel bars, hot-riveted together, forming a unit which the hardest usage cannot twist out of shape. Ball and roller bearings make the machine light running. The reel is strongly braced and can always be held parallel with the cutter bar whether working high or low.

A special Z-shaped cutter bar, almost level with top of platform, allows short grain to pass freely, without lodging on the cutter bar. Either smooth section or serrated knives fit the cutter bar. The famous Deering knotter works as nearly perfect as possible.

Cut down your harvest troubles with a Deering binder. Cut them still further by using Deering twine. See the Deering machines at the Deering local agent's place of business. Get catalogues from him, or, write the nearest branch house.
