

COUNTY COUNCIL SETS ASIDE \$1000 TO THE HOSPITAL

Visit to Institution is Made—
Find it Worthy of High-
est Praise

SOME WARDS PAYING

Public Ward Not Maintained by
Grants from Public
Funds.

Belleville Hospital gets a grant of \$1,000 from Hastings County Council. The special committee who inspected the institution brought back a very favorable report, having been deeply impressed with the efficiency of the institution.

Reeve Clark in supporting the grant, thought the fees commensurate with the cost of maintenance should be charged. He was glad to see that the maternity ward was on a self-sustaining basis. The cost of upkeep of the public ward is far above the charges of one dollar and fifty cents per day allowed by the law against the municipalities. Even government allowance of fifty cents per day does not make up the deficit.

Grant For Fairs

The usual grant of one hundred dollars to each of the fair falls in the county were made.

Reeve Clark called a halt in expenditures. Prices are falling, he said and financial conditions are bad. Less money should be spent on roads this year.

Teams can be got at \$5.00 per day while the cities are paying \$7.00. "In our opinion the bridge at Bancroft, the Merwin bridge over the Moira and the Trudeau bridge are not county bridges owing to their not being of sufficient length," said County Engineer Aylsworth.

\$17,050 was spent on purchase of machinery, Mr. C. W. Thompson stated.

MEDICINE HAT RIDING SIZE OF YOUNG EMPIRE

Conservative and U. F. A. Candidates Fighting it out on June 27—Both Confident

MEDICINE HAT, Alta., June 18.—In the huge federal constituency of Medicine Hat, which measures 192 miles by 77 miles, an important by-election is being contested by Col. Nelson Spencer, candidate of the National Liberal and Conservative party, and Robt. Gardiner, candidate of the United Farmers of Alberta. Polling is on June 27. It is estimated that there are about 15,000 voters in the constituency, of whom about one third are in Medicine Hat City, and the population is somewhat cosmopolitan, with a considerable number of Scandinavians and Russians.

There is a good deal of speculation concerning the outcome, and both candidates are confident of success. The Liberal and Labor parties are not putting representatives in the field. The candidates are carrying on energetic campaigns, addressing public meetings and building up organizations as complete as is possible under the circumstances.

OCEAN MAIL SERVICE

Str. Empress of France from Quebec on June 21, for U.K.

LABORERS' PICNIC ON WEDNESDAY NEXT IS PROMISING EVENT

The committee having the picnic of Federal Labor Union No. 17314 in charge have all in readiness for Wednesday, June 22nd at Victoria Park. A big prize list is offered for a series of games and races. Prominent among the features of the day will be the tug of war and the boxing contest between Swede Marakas and Kid Seely.

Mothers can easily know when their children are troubled with worms, and they lose no time in applying a reliable remedy—Mother Graves' Worm Exterminator.

FIRE DESTROYS FARM HOME AND WITH IT CENSUS RETURNS

Bad luck waited until Enumerator George McGie, of Stirling had almost completed his compilation of statistics for the 1921 census and then sent him a fire which destroyed his home and with it his furnishings, besides all his farm enumeration lists except the last day's work. Mr. McGie has had a rather

heavy section of territory to cover and had wound up all but ten farms. When he returned home yesterday he found the place in ruins. The origin of the fire is unknown. The loss on house and contents is partially covered by insurance. Mr. McGie intends going over the enumeration again.

GUNNER UNITS LEAVE CAMP

Ninth Artillery Brigade Completes Training at Barrfield Camp.

HUSSARS STAY ON
Major Mooney, 3rd Battery, Kicked by Horse—Men Were Keen, Busy.

KINGSTON, June 18.—The Barrfield camp has almost completed its first week and today sees the artillery brigade leave to disband for another year. The men of both the 4th Hussars who came in on Tuesday and the gunner units have all seen hard work. They were up at 5.30 a.m. and kept going until evening, all displaying intense interest in the work.

The duties of the artillery were driving in battery drill, and gun laying. There was no physical training, as the work was about all that any of them required and when it was finished they were ready to seek a well-earned rest. Sports were provided for through the energy of George Young, secretary of the Y.M.C.A. Mr. Young furnished complete equipment for both baseball and football, and he opened a recreation room on the grounds.

Lt.-Col. H. Van Luven was camp commandant. Lt.-Col. Rierdon, officer commanding the 9th brigade C.F.A., Major Garnet Greer, R.A.M.C., camp medical officer, Rev. A. E. Runnells, camp chaplain.

Major Mooney Recovering. Major Mooney of the 3rd (Gananoque) Battery, who was kicked by a horse is again in charge of the battery at camp, and it is expected no serious results will ensue from the accident. He was kicked on the right hand and at first it was thought that some of the bones had been broken, but such proved to be not the case.

MADOC JCT.

The delegates from West Huntingdon circuit to the Branch meeting of the W.M.S. at Napanee last week were Mrs. Albert Welsh, Mrs. Arthur Andrews, Miss S. Wilson, Miss Eva Ross, attended as delegates from Halloway.

Rev. G. C. McQuade is in Whitby this week attending conference. Mr. and Mrs. Fitchett and Mr. and Mrs. Andrews were in Tweed on Sunday attending the I.O.O.F. services, and decoration.

Mr. Nathan Eggleton is visiting his friends in Sidney and taking the census.

Mrs. E. G. Clarke of Peterboro, is visiting friends here this week.

Miss Ruby Eggleton spent Sunday in Shannonville.

Mrs. Susan Juby has returned to Shannonville after spending a couple of weeks with her family here.

A number from here attended the circus in Belleville on Monday and report a great crowd and wonderful sights.

MISS ARMSTRONG PRESENTED WITH SILVER CUP BY PUPILS

Campbellford—At the close of the High School term, a number of pupils belonging to the Ladies Hockey team, gathered with the principal in the teachers' room of the school, and presented Miss G. Winifred Armstrong with a beautiful mounted silver cup, suitable engraved. The presentation was made as a token of the activity Miss Armstrong showed as captain and instructor of the Hockey team, the degree of proficiency to which they attained, and the success in the games played, being largely due to her efforts. The presentation was made by the principal on behalf of the Ladies' Hockey Club and other friends. Miss Armstrong, who was taken entirely by surprise, thanked the girls of the club, the principal and the other friends for that the pleasant memories in connection with the organization would never be effaced from her memory.

Month Ahead With Potatoes.

Milton—J. C. Eagleson holds the record for early potatoes in this district, having dug the first lot on Saturday last. He also beat the record last year when he furnished the Orangemen here with potatoes for their dinner on July 12th. This year he is one month ahead of the 1920 record.

34TH BATTERY TO TRAIN HERE

Local Unit Will go into Camp on Marshall Road Just West of City

100 MEN; 57 HORSES

Major R. J. E. Graham is O. C.—Guns Are Improved Model of 15-Ps.

The 34th Battery, Major R. J. E. Graham, O.C., of which Lt.-Col. Marshall Road, of the western edge of the city on Monday next, to remain there for six days.

This conforms with the policy of the Department of Militia and Defence this year in providing home training for units as far as possible in order to cut down the cost.

The 34th Battery forms part of the 8th Brigade, F.A., of which Lt.-Col. Rierdon, D.S.O., of Madoc, is commanding officer. Lieut. Granville Sinclair is Adjutant of the brigade and these two officers were in Kingston all this week where the other two units of the brigade, the 3rd (Gananoque) battery under Major Mooney and the Kingston Battery under Lt.-Col. Morgan were undergoing training at Barrfield camp. They will visit the 34th in camp next week. On Friday next Brig.-Gen. King, C. M. G., D. S. O., will inspect the battery.

The battery goes into camp with a strength of just under 100 men and 57 horses. The guns are 18 pd. Q. F., and were shipped from England following the distribution of guns after the armistice. They have never been used in action, but in two weeks of training and gun crews go to Barrfield firing practice.

Helped All Three in the One Family

QUEBEC MAN GIVES HIGH PRAISE TO DODD'S KIDNEY PILLS

Absolom Duchesneau Gives Three Reasons Why He Advises Everybody to Use Dodd's Kidney Pills for Kidney Ills.

St. George, Beauce Co., Que., June 20.—(Special.)—Just how much good Dodd's Kidney Pills have done in one family is told by Mr. Absolom Duchesneau, a well-known and highly respected resident here.

"My health is very much better since taking Dodd's Kidney Pills," Mr. Duchesneau states. "For two years I was in pain, but since taking Dodd's Kidney Pills the pain is gone."

"I also induced my mother to use Dodd's Kidney Pills for sleeplessness and the results were very satisfactory."

"My sister, too, took Dodd's Kidney Pills for backache, and she is better."

"Do you wonder that I advise everyone to use Dodd's Kidney Pills?"

The reason Dodd's Kidney Pills have come to occupy such a prominent place in the family medicine chest is that so many of the ordinary every-day ills came from sick kidneys. Rheumatism, urinary troubles, backache, diabetes and heart disease can all be traced directly or indirectly to sick kidneys.

Ask your neighbors if Dodd's Kidney Pills are not the best remedy for sick kidneys.

Secures Optometry Degree.

Kingston—The many friends of E. W. Pearson, son of Mr. and Mrs. J. Pearson, Toronto, formerly of Kingston, will be pleased to learn that he passed in his recent examination winning highest honors. This popular young man went overseas at the age of sixteen, with the Canadian army service corps, and later served with the French army. After three years of service he came home to Kingston and attended Reginald College for a year. It was then that he went to Toronto to study optometry. On Tuesday of this week he was handed his degree in convocation hall, Varsity.

The Oil of Power.—It is not cheap, but it will cure every ill that uses are so various that it may be looked upon as a general pain killer. It has achieved that greatness for itself and its excellence is known to all who have tested its virtues and learned by experience.

SCHOOL RECORD IS MAINTAINED; PRIZES AWARDED

Leadership of this Institution in Drill, Shooting and Baseball is Shown

SCHOOL BOARD THERE

List of Trophies and Prizes Won—John Reeves Wins Principal's Prize

That Queen Mary School is still keeping up her splendid record in cadet drill, rifle shooting, baseball and physical drill, was evidenced on the afternoon of Friday, when in the presence of many visitors and members of the School Board, the prizes won during the year were presented.

The proceedings opened by the singing of O. Canada, after which came a short address by the principal.

The trophies and prizes were as follows:

The cup donated by Lieut.-Col. Marsh to a team of eight members making the highest aggregate score in rifle shooting, the team being composed of cadets W. Woodley, C. Doolittle, B. Brown, J. Reeves, C. Hicks, L. Brown, N. Reid and G. Woodley, each member also receiving a silver medal; the gold medal for making the highest score in this competition being won by cadet C. Doolittle; the cup given by Dr. Yeomans in 1912, for competition among baseball teams from the various public schools, this making the seventh time that the cup has been won by a team from Queen Mary School. The merchants' cup, donated by the merchants to the public school cadet corps for annual competition by teams, representing twenty-five per cent of the strength of the corps, a shield presented by the Y.M.C.A. for competition among teams in basketball from the public schools; a cup donated by Lieut.-Col. Marsh for annual competition among the public school cadet corps in military drill.

Of the Strathcona prizes in rifle shooting the gold medal was won by cadet John Reeves, the other prizes going to cadets W. Woodley, B. Brown, C. Hicks, L. Brown, N. Reid, W. Day and P. Grant.

A special prize given by the principal to the cadet making the highest average score during the year went to cadet John Reeves.

The Strathcona prize for competition in physical drill among the various classes of the school was won by Miss Harold's class.

Short addresses were given, and the presentations made by Mr. A. McGie, chairman of the Board of Education, Mr. G. T. Woodley, chairman of the school, Lieut.-Col. W. N. Fenton, Mr. A. R. Symons, Mr. R. C. Woodley and the principal.

Proceedings were closed by the singing of the National Anthem.

BRAKEMAN HURT IN FALL FROM TENDER OF ENGINE

Brookville—While switching was in progress at Kingston Junction at 12.45 o'clock, Robert B. Anderson, Grand Trunk brakeman, 118 Perth street, fell from the tender of a locomotive and striking his shoulder bone, Anderson had cut the engine off eastbound train No. 494 and had given the signal to proceed ahead. As he was riding on the back side step of the tender, he slipped and fell, striking his left shoulder on the rail, and breaking the bone. Dr. Morrison, Kingston, set the fracture, after which Anderson came to his home here.

Kingston Full of Poultry.

Kingston—The census enumerators in the city state that they thought only those in the country would have to record live stock but from their experience thus far there is more poultry in the city than in the rural districts. Chickens of every known breed are reared and while many are of the utility variety, the fancy breeds are strongly represented. There are also pigs and rabbits. In one place a boy wanted his mud turtle that was kept in a wash tub in the back yard entered on the census sheet.

Campbellford Teachers.

Campbellford—The Campbellford school board has adopted the recommendation of the committee appointed to select teachers, providing that Miss Helen Mackay, B.A., of Toronto, be engaged as Latin teacher of mathematics and book-keeping. The town council will be asked to pass a by-law providing for the raising of \$100,000 instead of \$75,000 for the erection of a new high school.

Str. Empress of Asia from Vancouver on June 23, for China and Japan.

BAY OF QUINTE COMMUNITY FAVOR ONE BREED OF CATTLE

South Hastings and Prince Edward Section Offer Excellent Example of Community Breeding—Stick With Dairying—Cheese Output Increasing—A Prosperous Part of Ontario.

(By "Ahmik" in The Toronto Globe).

IF HON. SYDNEY FISHER, who was a consistent and persistent preacher of the doctrine of community breeding, could visit Prince Edward county and the front of Hastings, in the flesh, he would be delighted with the completeness with which his preaching has been carried into practice. In a trip covering a large part of the two counties last week, I saw herds of cattle rearing in luscious pasture everywhere, and these cattle were practically all of one kind of breeding. Perhaps half a dozen Jerseys and as many cows with some Ayrshire markings were seen all told in the two counties in the course of a journey occupying the greater part of two days; the rest were all black and white, and excellent specimens they were, too. There was hardly a considerable herd out of which one could not pick half a dozen head that could be taken into the show-ring with credit to the exhibitor. Further evidence of the extent to which there has been concentration along one line was afforded by a statement of Agricultural Representative MacVannell of Prince Edward, concerning his calf club operations. Within the past week Mr. MacVannell has distributed 48 pure-bred heifers among the members of this club and in 46 cases Holstein heifers were, by choice of the recipients, so distributed.

Where Dairying Flourishes.

Dairying has for several years past been one of the principal branches of agriculture in the counties of Prince Edward and Hastings. In these counties, at all events, despite the recent slump in prices, dairying has not gone back. "Indeed," Mr. MacVannell of Prince Edward said, "I believe the volume of production this year will be greater than ever before," a statement Agricultural Representative McIntosh of Hastings endorsed so far as his county is concerned as well.

Such statistical information as is available bears out the opinions expressed. There are three or four fewer cheese factories in Prince Edward than there were a year or two ago, but the loss of one of these is directly traceable to diversion due to the demand for whole milk in Belleville. The closing of the others is considerably more than offset by the opening of two condensers in the county.

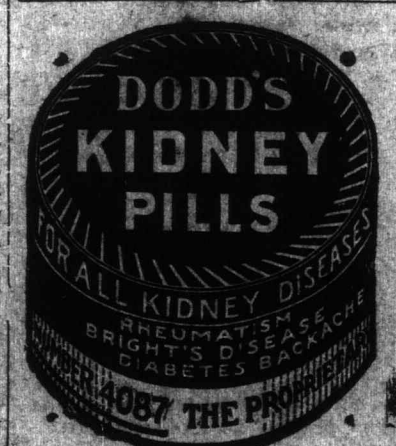

Cheese Output Increasing.

Over in the front of Hastings county the number of cheese factories has not been reduced at all, and the output of practically all of these shows an increase over last year. A typical illustration is afforded in the case of Evergreen factory, that is making 15 cheese per day now as compared with 12 at the corresponding date last season. Mr. John Sagar, Secretary of Stirling Cheese Board, a board on which the make of seven factories is boarded, says that all these factories show an increase in make as compared with 1920.

That this increase is not a mere spurt, either, but due to settled policy, is shown by the fact that more dairy heifer calves are being raised in the two counties this year than in any previous season. Perhaps it is only fair to add, however, that part of the increase in calves is due to the reduction in the price of weaners last spring. What is most satisfactory is that the class of calves being raised in the two counties promises to keep up the standard in breeding already attained.

A Wise Decision.

And after all, are not eastern Ontario dairymen wise in staying with the dairy cow? While cheese is only about half the price realized when prices were at the peak, concentrates have fallen to something like a corresponding degree, and pastures were never in better condition.

tion than they are right now. Besides, in comparison with beef producers, the lot of dairymen is a fortunate one. Beef producers who bought feeders last fall paid war prices for these; they also paid war prices for winter feed; then when they sold the finished bullock last spring pre-war prices ruled. The result was that many feeders of beef cattle lost the entire cost of the concentrates used in winter feeding. Dairymen, on the other hand, did not have to gamble, at least to the same extent, on returns six months ahead. They, or at least those in winter dairying, had a product to sell week in and week out, and while the cost of making that product remained high the selling price of the product remained high as well. When the market for the product dropped the cost of making that product, so far as feed is concerned, dropped in some proportion as well.

Of course, a considerable percentage of the dairymen of Hastings and Prince Edward do not carry on dairying the year round. Most of them, in fact, turn out the bulk of their product in the cheese-factory season. But, and this is an important point, their feed cost is comparatively light in the season of limited milk production, while the feeding cost of those making beef last winter was at the peak at the same time. It may be further remarked that dairymen find their permanent stock—their milch cows—would not sell today for a price within 40 per cent of what they would have sold for a year ago, but their net returns from this stock, aside from the cost of utensils, implements, building repairs and labor, are not much different from what they were a year ago. The man whose return are coming in all the time, or nearly all the time, is always in a much safer line than the man who has to meet the expense of creating something to be marketed six months ahead, and this is exactly the conditions that exist as between dairy and beef production.

Prosperity Founded on Dairying.

But the best proof of all of the value of dairying as the basis of permanent agricultural industry is seen in the class of farm buildings on every concession-line along the front of Hastings county. Hastings is a rather rough country, farmers living in some of the western counties would call it decidedly so. Lieut.-Col. P. J. Montague, C.M.G., D.S.O., M.C., is colonel of the reorganized regiment and Hon. Robert Rogers, who has taken a deep interest in the success and welfare of the unit, retains his post of honorary colonel of the regiment.

General organization for camp is being carried out now, and camp will be held at Sturgeon Creek, a short distance from this city, early in July. When complete the regiment will consist of three squadrons of 100 men each.

An Oil without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.

WELCOME RELIEF FROM ECZEMA

Complete Treatment That Gives Gratifying Results

WASHINGTON, D.C.

"I had an attack of Weeping Eczema so bad that my clothes would be wet through at times. For four months, I suffered terribly. I could get no relief until I tried 'Fruit-a-tives' and 'Sootha-Salva'."

Altogether, I have used three boxes of 'Sootha-Salva' and two of 'Fruit-a-tives', and am entirely well."

G. W. HALL.

Both these favorite remedies are sold by dealers at 50c. a box, 6 for \$2.50, or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

"Fruit-a-tives" is also put up in a small size which sells for 25c.

Fort Garry Horse

BEING RE-ORGANIZED

Cavalry Unit With Noted War Career Has One V. C. Among Officers.

WINNIPEG, Man., June 18.—The Fort Garry Horse, Winnipeg's crack cavalry regiment, and one of the three permanent militia cavalry regiments of Canada, is in process of reorganization. In the reorganization of this regiment Canada perpetuates a regimental name which became synonymous for gallantry and dash during the war, and also affords an opportunity of training younger men in the best form of discipline and active sports. The regiment served with distinction in France as part of the Canadian Cavalry Brigade.

At the battle of Cambrai, 1917, when the Canadian Cavalry Brigade was chosen to lead the attack of the whole British cavalry, the Fort Garry Horse was chosen to lead the Canadian brigade. It was at this time that Major Marcus Strachan, V.C., won the Victoria Cross in his gallant dash on Mezières.

Lieut.-Col. P. J. Montague, C.M.G., D.S.O., M.C., is colonel of the reorganized regiment and Hon. Robert Rogers, who has taken a deep interest in the success and welfare of the unit, retains his post of honorary colonel of the regiment.

General organization for camp is being carried out now, and camp will be held at Sturgeon Creek, a short distance from this city, early in July. When complete the regiment will consist of three squadrons of 100 men each.

An Oil without Alcohol.—Some oils and many medicines have alcohol as a prominent ingredient. A judicious mingling of six essential oils compose Dr. Thomas' Electric Oil, and there is no alcohol in it, so that its effects are lasting.
