Senator Lodge Introduces the New Canal Treaty.

WASHINGTON, Dec. 10 .- The opening session of the senate today was devoted to routine business, such as the presentation of petitions, memorials and bills. The senate then went into executive session, on motion of Senator Lodge, who has charge of the Hay-

Speaker Henderson at the session of the house today announced the appointment of committees. Usually the committees are not appointed until after the had the situation well in hand when congress met, and having completed the pointment of the committees should ator Kyle, and as a mark of respect the

In the senate after a number of nominations had been confirmed Senator Lodge called up the Hay-Pauncefote treaty and made a brief statement regarding that convention. The senate then adjourned in order to give the Democratic caucus committee an opportunity to hold a meeting. Mr. Lodge contended that the new treaty does away with all the objectionable features

gress, and enumerated the particulars in which the revised agreement conforms to the action of the senate in the last congress, when the old treaty was before it. He analyzed the new treaty from beginning to end, showing that in specific terms it abrogated the Clayton-Bulwer treaty of 1850, which he said had stood constantly in the way of the construction of an Isthmian canal. The abrogation of this treaty, he contended, was a most important achievement, and he did not believe that the United

States should or would lose an opportunity to make secure that concer nator Lodge said further that practically Great Britain had agreed to turn over the management of the canal to the United States, not only in time of peace but in time of war. It is understood that the treaty will be called up

Senator Morgan introduced a bill providing for the construction of the Nicaraguan canal. The bill provides an certain that the B. C. mine owners aggregate of \$180,000,000, of which \$5,-600,000 is immediately available, and of cannot expect help from that quar-

which aggregate sum such amounts as are necessary are to be appropriated by congress from time to time. The control of the canal, and of the canal belt, is vested in a board of eight citizens of the United States in addition to the do something for themselves and place themselves outside of the sphere of the members of the board are to be all of whom have harty refused to the themselves outside of the American sider the proposition in any form, de-the sinister influence of the American paid a salary of \$8,000 a year each, and head trust. There is only one way to offered to deposit \$1,000 to do this, erect the lead refinery of a tical affiliation. There is a provision ausufficient capacity to refine the lead thorizing the establishment of a regiment from the regular army on canad belt to guard it properly, and courts are also authorized conformable to the powers granted by the governments of Nicaragua and Costa Rica. There also is a provision making three divisions of the canal during the construction, and there is to be a chief engineer and two assisant engineers on each division, the chief to receive a The Tribune advises the editor of the Herald to pay a visit to Halcyon salary of \$6,000 and the assistants \$3,000. Representative Sibley introduced in redistribution question. Of course, the house a bill authorizing the struction of a railroad across Alaska thought up a redistribution scheme from Cook Inlet to Behring Straits, a which looked all right on paper it was distance of 850 miles by trans-Alaskan railroad. The bill grants a right of way men and woodchoppers in North 100 feet on each side of the track, and Kootenay to venture to think that provides for the cession of each alter-they had any say in the matter. But nate section of land for a distance of we are slightly outside of the Houston ten miles on each side of the track. Representive Ryan (New York) scrap with him as anybody else.
