THOMAS, of Philadelphia, stated before the New Jersey Dental Society, that he had examined the teeth of over TEN MILLIONS and a half persons have had their teeth extracted without pain. It is a fact that the teeth of the world are being extracted without pain. Dr. J. White stated before the Medical Congress in Berlin, that not less than 750,000 persons had their teeth extracted without pain. Dr. V. Beckrook has been making and using the best of about thirty years without an accident. From five to twenty-five teeth and all dentures can be extracted with one administration.

Hear what patrons say who have taken gas from him:

"I was in paradise. Twenty-one teeth and roots out and never felt one of them. Ever since then I have had a photograph taken. The first time I ever laughed at having a tooth pulled. They will not fool me again. I'll know where to go to avoid pain after this."

"Thank the Lord for this discovery. I was perfectly unconscious. I would give anything to remember my dream, delightful. Why do they try to frighten us from taking gas? It is a shame. They won't do it with me again. I was told that only to or three should be pulled at once with the gas, and you are taken out fifteen. I never knew it. NOTE—Never have a tooth pulled out that can be saved."

D. V. BECKROOK, Dental Surgeon, 20 Main St., Brockville.
