### MANY NEWSPAPERS SUSPEND

This is the "open season" for publications, and many of them are being shot to pieces.

Last week the Canadian Courier made an assignment, and will cease publication.

It was a Mackenzie & Mann publication, run very largely by Mr. Wm. Moore, an associate of the railway magnates. A few weeks ago the Canadian Farm, another of their publications, was sold to the owners of the Toronto Saturday Night.

Last week also saw the suspension of the Hamilton Morning Times after a short career of three days.

The cost of publication is extremely high and a great many papers throughout the country are passing out of existence.

### Would Not Be Without Baby's Own Tablets

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. They are the ideal home remedy for the baby; being guaranteed to be absolutely free from opiates or other harmful drugs. They are a gentle but thorough laxative and have been proved of the greatest aid in cases of constipation, indigestion, colic, colds and simple fevers. Concerning them Mrs. Ernest Gagne, Beausejour, Que., writes: "I have used Baby's Own Tablets for constipation and colic and have found them so successful that I would not be without them. I would strongly recommend every mother to keep a box in the house." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

A man may use a wart on the back of his neck for a collar button; ride on the back of a railroad train to save interest on his money until the conductor comes around; stop his watch nights to save the wear and tear; leave his "i" and "t" without a dot or cross to save ink; pasture his mother-in-law's grave to save corn; but a man of this kind is a gentleman and a scholar compared to a fellow who will take a newspaper, and when asked to pay for it puts it in the office and has it marked "refused."

### CHARGE COLLEGES IN THE MARATIMES BADLY TREATED

Toronto, Nov. 11.—The suggestion to extend the sphere of the Intercollegiate Athletic Association's activities to the prairie provinces is being well received here. Newspapers commenting this morning on the proposed expansion of the association, while admitting it is a laudable task, say that it does not do far enough. The Canadian Intercollegiate Athletic Association they say is a misnomer, and the inclusion of the prairie provinces will not make it truly national.

"Canada extends beyond the prairie provinces on the west and beyond the province of Quebec on the east," says the Globe. "There are well-established institutions of learning in British Columbia and in the Maritime Provinces wherein athletics are on a firm and well organized basis, while the University of New Brunswick, Dalhousie, St. Francis Xavier, and other colleges with large enrollments are engaged in hockey, track and field athletics, etc. Until a plan of truly national intercollegiate competition is evolved, and it can be done without much difficulty, the Canadian Intercollegiate Athletic Association will continue to be a misnomer. Championships in football, basketball, hockey, boxing, swimming, track and field and other sporting activities which play a large part in the lives and training of the students could be quite easily arranged."

### 30 YEARS AGO

The following items were taken from the files of THE ACADIAN of 30 years ago:

The first real winter weather of the season was experienced during the first days of this week. On Sunday quite a snow-storm occurred in some parts of the county, although only a flurry was had in Wolfville. Monday was as cold as an average winter day, but since then the weather has been mild and warm.

It is authoritatively stated that the bridge on the Digby and Annapolis section of the western counties railway are approaching completion and that in all probability freight cars will run over the new line by Christmas. The opening of a through line from Halifax to Yarmouth will be a most notable event in the history of the western counties.

Among the advertisements: eggs 22 cents a dozen, tea 15 cents a pound.

### HE KNEW

"Doctor," said the convalescent, smiling weakly, "you may send in your bill any day now."

"Tut, tut!" replied the M.D., silencing his patient with a wave of his hand. "You're not strong enough yet."

The Bride: "Oh, how I hate to let you go, darling. I sha'n't see you again until lunch time."

The Groom: "You must be brave, little woman. No matter what happens, I swear to telephone at 11."

### KIND TO ANIMALS

"He is the most tender-hearted man I ever saw."

"Kind to animals?"

"I should say so. Why, when he found the family cat insisted on sleeping in the coal bin, he immediately ordered a ton of soft coal."

Friend (viewing picture)—How realistic! It fairly makes my mouth water.

Artist—A sunset makes your mouth water?

Friend—Bless me! I thought it was a fried egg.

Minard's Liniment Co., Limited, 101 St. James Street, Montreal, P. Q.

Gentlemen,—In July 1915 I was thrown from a road machine, injuring my hip and back badly and was obliged to use a crutch for 14 months. In Sept., 1916, Mr. Wm. Cottridge of Lachute urged me to try MINARD'S LINIMENT, which I did with the most satisfactory results and today I am as well as ever in my life.

Yours sincerely,
