THE REDISTRIBUTION BILL. Postponed to Wait For a Tory

Talker. SCRIP FOR THE HALF-BREEDS.

SCRIP FOR THE HALF-BREEDS. Ottawa, July 3. - As Sir Charles Tup-per entered the House this alternoon he was greeted with enthusiastic ap-piause by the occupants of the Oppo-siton benches, and was presented with a handsome bouquet of ross. The de-monstration was in recognition of the fact that Sir Charles celebrated his 78th birthday yesterday, and the age leader of the Opposition acknowledged the kindly tribute from his colleagues with a courtily bow. To a question by Mr. Bergeron, whe-ther the Government intended indem-mifying every city or town in Canada where there are Dominion public publings, as it was intended to do in the case of Ottawa, Sir Wilfrid Lau-rier replied that the hon. member who had put the question was overseal-ously inquisitive. No other city or town has claimed the same privileges as are claimed by the city of Ottawa. In rejly to a question by Mr. E. T. Clarke, Sir Wilfrid Laurier stated that men of the officials of the Kingston penitentiary have been recommended for supergamuation, but twelve have been retired with gratuities on the ground of physical incapacity, after varying periods of service, on the re-commendation of the jail surgeon act-ing under instructions from the in-spector. Before the orders of the day were Mr. McMullen predicted that to adopt such a course as this might cause another rebellion to break out. The proper way was to give them the land and place them on the same footing as their predeces Mr. McGregor, speaking from a long acquaintance with the half-breede, said that they were quite able to take care of themselves and able to take care of lienterves and drive a good bargain. BILLS PASSED. Mr. Silton's bill to amend the land titles act and a bill to amend the unorganized territories game pre-servation act was passed through committee

mervation act was passed through committee. Mr. Paterson's bill to amend the customs act was passed through committee. It provides that the ten days during which corrections in en-tries may be made shall be calculat-ed from the date of landing instead of the date of entry. A clause giving the Governor in Council power to frame regulations permitting the export of deer, and to appoint certain points at which ex-port could take place was objected to by Dr. Montague, Mr. Clancy, Mr. Henderson and Mr. Quinn, on the ground that it would lead to an in-crease in the number of deer de-stroyed. Before the orders of the day were called, Col. Prior called attention to a report in the Vancouver World, in which it was stated that the member for Burrard (Rev. Mr. Maxwell) would for Burrard (kev. Mr. maxwell volution be appointed postmaster of Vancouver before the end of the session. He asked if such was true, as the practice of members sitting in the House with commissions in their pockets was to deprecated.

commissions in their pockets the tec-be deprecated. The Premier, in reply, assured Col. Prior that he could set his mind at rest upon the question and need have no fear, as the member for Burrard had no commission in his pocket and there had been no suggestion of ap-pointing him to any office whatever. While on the floor, Sir Wilfrid Laur-ier took occasion to offer his con-gratulations to the leader of the Opposition upon attaining his eigh-tieth birthday. crease in the number of deer de-stroyed. " Mr. Paterson explained that the object of the bill was simply to en-able American sportsmen who shot deer under provincial licenses to take their spoils home with them. The re-gulations would be very strict upon this point, and the number would be limited to two, as under the Ontario law.

limited to two, as under the Onvaria-law. A long discussion on the probable effect of the bill followed. Dr. Mon-tague, having looked up the Ontario statutes in the meantime, admitted that he had been mistaken and that Mr. Paterson's explanation that the bill was in accordance with the pro-visions of the Ontario law was cor-rect. gratulations to the leader of the Opposition upon attaining his eigh-tieth birthday. Sir Charles Tupper-Seventy-eighth. Sir Wilfrid Laurier cheerfully ac-cepted the correction, and expressed the hope that Sir Charles might live long to occupy the position of leader of the Opposition, which he now so ably filled. Bir Charles said he desired in the briefest possible manner to tender his hearty thanks to the Premier for the very kind manner in which he had referred to the Tact that he yester-day reached. his seventy-eighth birth-day, not the eightleth, as the right hon, gentleman at first stated. "I am afraid at my time of life I cannot allow even the smallest possible addi-tion to my age," said Sir Charles in conclusion.

rect. The bill was then reported and the House adjourned at 12.20. G, T. R. CHANGES.

Trainmasters and Dispatchers Advanced a Step.

The House then went into concur-rence, and a number of items were

The House then went into concur-rence, and a number of items were passed. By 4.30 o'clock all of the supple-mentary estimates for the pastyear, and those items in the main estimates which have been passed, had been concurred in, subject to further dis-cussion of a couple of items in the main estimates, and the House went into committee on the new insurance bill, which was passed through with very little discussion. During the discussion in committee upon the bill to further amend the Dominion hands act, Mr. Silton, in reply to Mr. Foster, said that the farmers of Manitoba and the North-west haveprety well paid up their indebtedness upon school lands. He also stated in further explanation that the bill enabled the Govern-ment to give the children born to halfored parents in the Northwest who did not receive scrip when the distribution was made to their par-ents in 1895 scrip of the value of \$240 each, thus placing them dipo-the Same footing as the children of the Manitoba halforeeds were placed in 1870. There are about 1,000 half-breeds in Athabasca and 3,000 in the Northwest. Mr. Foster urged that the sys-tem of paying halforeeds in scrip be abo/Shed. He halforeeds in scrip be abo/Shed. He halforeeds the indical ad-vantage from the scrip. Why could not the Government, he asked, either give the halforeeds the indical or cash? Or a dozen other methods be get greater advantage from ther

buying halfbreed claims for \$40 to \$46 and paying \$5 down. Mr. Foster urged that the moment it was known this sorip was to be is-sued the brokdre would be around the halfbreeds like a swarm of warms around honey. The Danger Season. WOMEN AND AGRICULTURE. An Appeal to the Suffering and Diseased.

side the brokers would be around the half-breeds like a swarm of wasps around honey. Mr. Slifton, in reply, said that if the late Government had never is-sued scrip he would not now suggest-issuing it, but the half-breeds to which this bill applied might claim the same rights as their brothers. Of course, if they would accept land or implements and stock the Govern-ment would be quite agreeable. Mr. LaRiviere suggested that the scrip should only be issued direct to parties entitled to receive it, and if not required by the recipient for the purchase of land, that it be negotia-ble at the banks at face value. Mr. Henderson suggested that the scrip should be made not transfer-able. Paine's Celery Compound The Great Deliverer and Rescuer Cures Even at the Eleventh Hour.

London, July 3.-The London So-clety of American Women gave a luncheon at the Hotel Cecil at 12.45 o'clock this afternoon, in honor of the American delegates to the Wo-men's International Congress. Mrs. Hughes Griffin, the President of the society, occupied the chair, flanked by Lady Aberdeen, President of the Women's International Council, on the right, and Mrs. Choate, wife of the United States Ambassador, on the left. There were 250 nersons the left. At this time we desire earnestly to appeal to men and women who are alling and in a low condition of health. There are thousands of sick people –disappointed and now almost hope-less—who have ceased to think of their danger, imagining they are incurable because their doctors have failed and the vast varieties of medicines they have used have produced no good re-sults. present. Mrs. Hughes Griffin delivered an

Mrs. Hughes Griffin delivered an address of welcome to the American delegates, and Lady Aberdeen, on be-half of the Women's International Council, thanked the American wo-men for the help and inspiration they had given to women in general. Mrs. Mary Wright Sewall, Vice-President of the Council, said that America was becoming a country that, by the necessity of its institu-tions and relationalism. Mrs. Charlotte Stetson and Mrs. Converses ON AGRICULTURE. sults. Courage once more, suffering bro-thers and sisters. Rekindle the almost dead embers of hope, ye sadly deceived and disappoint-ed once!

hop., ye sadiy deceived and unsapponed of onesi. Freedom from disease and suffering, and a new and happy life, will be your portical if you have faith enough to make trial of that life giver and dis-case banisher. Pane's Celery Com-yound, that has in the past rescued so many from the grave. If Providence and our advice should inspire you that there is life in Pane's Celery Compound, your efforts must be prompt and honest. During the

CONGRESS ON AGRICULTURE. Agriculture was the most interest-ing subject occupying the attention of to-day's sittings of the Women's International Congress, Mrs. Alexan-der Tweedle presiding. Prof. Robertson, of Canada, made an address in which he said he consid-ered agriculture a most suitable occu-pation for women. Lady Vernon said that dairying was pre-eminently woman's work. She urged that attention be given by wo-men to butter-making in the winter and the making of cheese in the sum-mer. In Providence and our advice should inspire you that there is life in Palue's Celery Compound, your efforts must be prompt and honest. During the present heated term of summer, it is perflows to neglect your aches, palus and sufferings. Inaction and wilful neglect for one day may result in thath. If you suffer from pervous prostra-tion, liver disease, kidney complaint, headache, impure blood and, digestive troubles, you should derive instant in-spiration from the army of men and women of the best families of Canada who have given their written testi-

Mrs. Virginia C. Meredith, of the University School of Agriculture, of Minnesota, advocated the work of stock breeding for women, and gave an interesting description of the an interesting description of the procedure. Mme. Dilen, of Bruges, spoke on the subject of women's work in agricul-ture in Belgium. Mrs. Margaret A. Caine, of the United States, gave an interesting exposition of silk culture as a suitable occupation for women, and Mrs. Alex-ander described the work of ostrich farming by women in New Zealand. women of the best families of Canada who have given their written testi-encay in favor of Palne's Celery Com-ound, and be further encouraged by the recommendations of the most emi-nent medical men, who prescribe Palne's Celery Compound regularly. With such testimony and the in-dorsation of medical men, is it wise or prud-at to neglect the use of earth's best medicine? He or she who refuses (if a and health is surely worse than a and health is surely worse than a otic. Bear in mine that Paine's

A Horrible Story of Cannibal-

ism From Alaska.

Quebec Village. Sherbrooke, Que., July 3.—By the fire which occurred Saturday at the village of Garthby, over 400 people were rendered homeless, and many of them are destitute, the whole of their belongings having been swept away. Many took refuge in the church, and the few houses that re-mained opened their doors to the homeless. There were many heart-rending scenes, and as the sun went down, and night settled over all, amid the piles of furniture scattered here and there in the fields around, families were gathered, no roof or food within their reach. The total monetary loss amounts to about 5100 000 DEVOURED BY WILD BEASTS. Portland, Ore., July 3.—The recent story of cannibalism which came from the Atlin district of Alaska is con-firmed, and horrible details added by a letter received here by Capt. Hans Svenson, from Majonino, in the Kot-zebue Sound country. The total monetary loss amounts to about \$100,000. Brave Men Fail Victims to stomach, liver and kid-ney troubles as well as women, and all feel the results in loss of appetite, poisons in the blood, backache, ner-vousness, headache and tired, list-less, run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Kiaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and good appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 crents, at Richard Brierley's King street west Drug Store. Every bottle guaranteed. TORONTO FARMERS' MARKET. The writer was Olof Jorgenson, who, with two other Swedish sallors.

devised, so that the halfbreeds would get greater advantage from their scrip than under the present system. of THE REDISTRIBUTION BILL.

scrip than under the present system. THE REDISTRIBUTION BILL. Just before recess Sir Charles Tuo-per requested that the debate upon the redistribution bill be not pro-ceeded with to-hight, owing to the absence of the member of the oppo-sition who was to continue the de-bate, The Premier compiled with the redust, and agreed to take up the redust. The Premier coullined the his-tors. Sir Wilfrid Laurier outlined the his-tors, Ele said that there was a smouldering discontent among the halfbreeds, who filt that the Govern-ment had not kept faith with them, to objection, it was difficult to see how it could be amended, but he was ready to receive suggestions. It was, how-ever, better to settle these claims ra-ther than to leave them open, even if the halfbreeds did squander the bounty of Parliament. Sir Charles Tupper spoke of the manner in which the halfbreeds had been imposed upon by speculators. He suggested that it was well worthy of the consideration of the Govern-ment how far it would be desirable to substitute money paymenis, even for a smaller amount than the value of the serip. Mr. Davin strongly opposed the pay-

Mr. Davin strongly opposed the pay-

Mr. Davin strongly opposed the pay-ment in scrip. Dr. Montague, as an illustration of the evils of the scrip system, quoted a case where a friend off his informed him that he had liquidated an in-debtedness of \$1,250 to the Govern-ment with \$50 cash and \$1,200 worth of scrip, which he had bought from the halfbreeds for \$90. Mr. Davin read a letter from Mr. J. Guernsey, of Qu'Appelle, stating that in anticipation of the issue of the scrip speculators were already.

the groom responded on behalf himself and bride. His Business Booming

His Business Booming. Trobably no one thing has caused such a general revival of trade at Richard Brierley's drug store as his giving away to his many custo-mers of so many free trial bottles of Dr. King's New Discovery for Consumption. His trade is simply enormous in this very valuable rem-edy, from the fact that it always cures and never disappoints. Coughs, Colds. Asthma, Bronchitis, Croug and all throat and lung diseases are quickly cured. You ean test it be-fore buying by getting a trial bot-tle free, large size 50c. and \$1.00. Every bottle warranted.

A Great Change A Great Change Has taken place in the manner of conducting all classes of business, more especially in the undertaking business. The high cost of funerals has been a serious matter to many people. Mr. A. H. Dodsworth is the only undertaker in the city who man-ufactures his own caskets. This en-ables him to conduct funerals at half the former prices. 'Phone 96.

A ten-year-old boy named Robinson, whose home is in Golerich, was drowned at Seaforth yesterday while bathing with some other small loys in the dam on the Bayfield River, just outside the town. He waded out in the dam beyoid his depth and sank. He was dead when taken out.

The First Presbyterian Church at Brockville has extended a call to Rev. R. Laird, of Campbellford.

sufferings myself and mates have un-dergone." After explaining how he and part of his party separated from the rest and began prospecting on their own hook with dogs and sledges, he told how they got lost in December. The great-er partof their provisions was devour-ed by wild beasts, and by January they had nothing left but a few sides of bacon. "Hunger soon stalked among us," continued Jorgen-son, "and you have not even a faint idea what that means among a gang of hopeless men, desperate in the ex-treme. A dozen of my party died in thirty days, and we then began to draw lots for healthy human flesh. There are only four of us alive, but all too weak to travel, excepting Martin, who will try to mail this letter and obtain relief. But I suppose the letter will be too late." As a melancholy incident, the writ-er says that only a few days before he discovered a lot of nuggets peeping out of the firozen ground in his tent, but he turned from the gold in dis-gust. ity
