TWELVE HOURS FOR FIREMEN. (Continued from page 1.)

cer, "and I quickly answered the question." It is foolish, Mr. Barrow thinks, to suppose that the engineers would not have known anything about the city not doing anything to comply with the order unless a city official told them. It would be one of the first things the company would tell the engineers, Mr. Barrow thinks. As a matter of fact, the gist of Mr. Heddie's report was published in the city papers several weeks ago. This is the report which was prepared for the Board of Works, but which was elided because it was thought to be too favorable to the company. Mr. Heddie refused to back down on it, declaring that, to the best of his knowledge, it was a perfectly fair and impartial report. Mr. Barrow says he thinks it was, too. The Railway Board's engineers did not see the report on the cars. This has been "lost."

Chairman Sweeney of the Board of Works says that his committee, at its next meeting, will take up the matter of the Railway Board's order and report to the Council that it has no money to proceed with the repairs to the pavement ordered. Some of the city officials think that the board may be prevailed upon to alter this order, in case the negotiations in progress now are not successful. City Engineer Barrow says that if the city must do the work it will be almost ruinous, as the asphalt pavement in many places will have to be torn up right down to the concrete and entire new stretches of road built. It might cost \$100,000, he says. Other officials think that the price would be \$60,000. It would be useless, declares the engineer, to do any of this work with the company's trucks in the present shape.

The Board of Works at its meeting next week will take up the question of local improvement. A majority of the committee is said to be opposed to it, but Chairman Sweeney says something must be done at once. The course he favors is submitting a by-law to the people asking for money for permanent road work and if it is voted down he thinks the aldermen will be justified in resorting to local improvement.

The American Street Lamp & Supply Company, which has the contract for the gas lights on residential streets, is at war again with the Ontario Pipe Line Company. It is alleged that the latter has refused to supply gas to a number of extra lights and the city has been informed that the American concern, through Toronto solicitors, has issued a writ for damages.

There will be a meeting to-morrow of the power committee when the matter of appointing an engineer to draw up specifications will be settled. A number of the aldermen think that Engineer Sotbman of the Hydro-Electric Commission, has done so much work gratis for the city that he is entitled to the job.

Although the work of printing the annual reports of the City Engineer and Chief of the fire department is well under way now there is talk of stopping it to avoid the expenditure.

Dun's Review. Further slight improvement is noted in the volume of trade, and confidence in the future is also greater, but progress is slow. Bradstreet's says a good-sized aggregate of small orders for immediate or near shipment reported at leading markets. Gibson says: The good rails offer the best opportunities with the greatest degree of safety. Penna. and Aech. look particularly attractive, and Steel company is much the best of the Industrial group.

at Toronto is smaller than a year ago and remittances are only fair. Snow blockades at London retarded business and delayed the delivery of goods, but conditions in this respect are improving and payments are fairly prompt. Trade continues very dull at Hamilton, the number of unemployed being large, and collections are slow. In the small towns in that vicinity factories are fairly busy. Montreal reports shoe manufacturers busy on spring deliveries, but travelling men in all lines report that buyers are still conservative.

Failures Last Week. Feb. 22.—Commercial failures this week in the United States, as reported by R. G. Dun & Co., are 294, against 336 last week, 356 the preceding week and 171 the corresponding week last year. Failures in Canada number 36, against 38 last week, 48 the preceding week and 27 last year. New York, Feb. 25.—The opening stock market showed a dull, sagging tendency on a light volume of transactions. A decline in Canadian Pacific of 1/4 and American Smelting and Anaconda of large fractions were the only notable changes. Pittsburgh, Feb. 25.—Oil opened \$1.78. NEW YORK STOCK EXCHANGE. NOON STOCK LETTER. New York, Feb. 25.—The market during the morning met London offerings in C. P. R. and elsewhere, with local selling of good character in St. P., Reading and copper. Bear attack was resumed against Gould issues and in connection with the Oklahoma attempt to force segregation of the Rock Island and Frisco lines in that State. Traders hear of a plan to reopen some of the American mines in near future. It is said that Judge Gary has favored some reduction of Steel prices to stimulate business, but that other interests in Steel corporation opposed any change. There are reports of price cutting by outside steel concerns, and reports of further increase in active capacity by various plants. A representative of Utah Copper looks for initial dividend in July at rate 20 per cent on the stock which is \$10 par. The company is able to produce copper at about 8 cents and sales at 13 cents on estimated output of at least 50,000,000 pounds would be over \$2,000,000 applicable to annual dividends on the \$5,000,000 stock outstanding. It is expected that Erie dividends will be passed to-morrow and that the Smelters' dividend will be made 4 per cent or at best 5 per cent, next Tuesday. The recall of Treasury funds should operate to further delay gold exports. The market does not respond to unfavorable news as it has in past months.—Emsis & Steppani.

A MARKED MAN. PRIEST MURDERED AT ALTAR WAS TRACKED TO DENVER.

Came From Paterson, N. J.—Was Doomed Man—Woman Tells Strange Story—Body Will Lie in State. Denver, Colo., Feb. 25.—Most of the priests of the Roman Catholic Church in this city believe that Father Leo Heinrichs, who was murdered by Giuseppe Altobelli, an Italian anarchist, while giving communion in St. Elizabeth's Church here, on Sunday last, was a marked man from the time he arrived in town last August or even before. The dead priest was stationed previously at Paterson, N. J., and it is believed that he may have incurred the enmity of the anarchists there and that a plot was laid to kill him, perhaps prior to his leaving Paterson, but that the machinery of the "Reds" failed to get into working order until Altobelli carried out orders.

A woman who witnessed the tragedy told a prominent Catholic priest yesterday that two weeks ago, during an early mass, she saw two evil-looking men, one of whom she believes was the assassin, standing in the aisle of St. Elizabeth's Church. The men were conversing in a low tone, but she saw one of the men point to two priests who were in the sanctuary. The priests, one of whom was Father Leo, were separated several feet, and the man who did the pointing directed his finger toward Father Leo and remarked in a low tone, "That is the man." The woman thought it odd that the two men should hold a conversation in the church-like appearance, made a deep impression upon her. When she saw the assassin running down the aisle suddenly, she knew the man whom she had recognized him as the man whom Father Leo had been pointed out.

The police are working out the conspiracy theory and suspect that the two strange men to have been accomplices of Altobelli. Although the authorities have found nothing to indicate that Michael Brunetti, room mate of the anarchist, knew anything of the murderer's intention, he is being held. The body of the murdered priest will lie in state in the sanctuary of St. Elizabeth's from 10 o'clock this morning until midnight, when all will be given an opportunity to view the body. The final public services will be held on Wednesday. Interment will take place in the private cemetery of the Franciscan Brotherhood at Paterson, N. J.
