

AROUSE, MY FRIENDS.

Arouse, my friends! and happy be—
Though troubles now perplex you,
A brighter day we yet shall see;

VARIETIES.

HAIR.—A writer in a late number of the London Quarterly Review furnishes the following information on this subject:
"London imports about five tons of human hair annually. Black hair comes mainly from Brittany and the south of France, where it is collected principally by one hair merchant, who travels from fair to fair, and buys up, and shears the crop of the neighbouring damsels. A traveller in Brittany describes the peasant girls as attending at the fairs with their beautiful treasures, perfectly willing to sell them. He saw several girls sheared, one after another, like sheep, and as many more standing ready for the shears, with their caps in their hands, and their long hair combed out and hanging to their waists. By the side of the dealer was placed a large basket, into which the successive crops of hair were thrown; and each tied up in a wisp by itself. For a head of hair about twenty sous in money is given, or a gaudy handkerchief. The hair is the finest and most silken that can be produced. Light hair comes from Germany, where it is collected by a company of Dutch farmers, who go over to England for orders once a year. And, who know from what comes those pendant tresses, gleaming in the gale, with which our blooming Eves, aptly entangling their snaky coil with their own, tempt our eligible Adams."

IMPORTANCE OF THE ONION.—The onion is worthy of notice as an extensive article of consumption in this country. It is largely cultivated at home, and is imported, to the extent of seven or eight hundred tons a year, from Spain to Portugal. But it rises in importance when we consider these latter countries it forms one of the common and universal supports of life. It is interesting, therefore, to know that, in addition to the peculiar flavour which first recommends it, the onion is remarkably nutritious. According to my analyses, the dried onion root contains from twenty-five to thirty per cent. of gluten. It ranks in this respect with the nutritious pea and the grain of the east. It is not merely as a relish; therefore, that that the wayfaring Spaniard eats his onion with his humble crust of bread, as he sits by the refreshing spring; it is because experience has proved that, like the cheese of the English labourer, it helps to sustain his strength also, and adds, beyond what its bulk would suggest, to the amount of nourishment which his simple meal supplies.

Somebody says the Mississippi "has raised one foot." When it raises the other, it will probably run.

Somebody advertises to "sit up" with the sick for \$1, 50 per night, delirium tremens double price.

Whole years glide unperceived away, while sorrow counts the Minutes as they pass.

Good resolutions are like fainting ladies, they want to be carried out.

R. R. R.

What do the Sick Require?
To those who think—if sick, if suffering the tortures of pain, or afflicted with long illness, the invalid's constant hope and most fervent desire is to be relieved and cured of the suffering ailment, and thus, on this principle the R. R. R. REMEDIES are founded. Instant Relief from Pain, Quick Cure of Diseases, Speedy Restoration to Health, is the great platform on which the R. R. R. Theory is predicated.

The R. R. R. REMEDIES are worthy of the age. They instantly relieve the bed-ridden from the most excruciating pains, and quickly free the afflicted from the most obstinate and serious maladies, infusing new life and vigor in the shattered and bruised body, and renew each member and organ of the human system with strength and power.

Radway's Ready Relief is the most safe and powerful diaphoretic in the world—as such, it is a most effective and positive preventative of FEVER AND AGUE.

Radway's Ready Relief is the most safe and powerful diaphoretic in the world—as such, it is a most effective and positive preventative of FEVER AND AGUE. So with other fevers and all malarious diseases, Ten or twenty drops, taken internally, in a little water will protect the system against any attacks from infectious and malarious poisons.

THE LAWS OF PRINCE EDWARD ISLAND

FROM 1770 to 1861, both years inclusive: a volume of 800 pages, with a copious Index; published under an Act of the Colonial Legislature, and carefully revised and consolidated, by Commissioners appointed for the purpose, may be had at the Bookstore of G. T. HASZARD.

LAW BOOKS.

CHITTY on Pleading, Clarity on Contracts; Bristow's Commercial Digest and Shipmaster's Assistant English Common Law Reports, for sale at Geo. T. HASZARD'S Book Store.

PAPIER MACHE GODDS.

JUST RECEIVED at George T. Haszard's Book Store, a handsome variety of Fancy Goods consisting of—

Paper Machie Writing Desks Work Boxes Portfolios Tortoise Shell Card Cases, Parian Statuettes, Wax Baskets, Bronze Figures, Mantel Stands, do and Papier Machie Watch Stands, with a variety of useful articles.

Twelvrees Brothers' Soap Powder

(An entirely new invention.) IS the cheapest, safest, best, and most effective article for all washing purposes, a packet of which is equal to ten Pennyworth of Soap! The saving of Time and Labour is so astonishingly great, that a WEEK'S WASHING can be accomplished BEFORE BREAKFAST—no rubbing being required.

It will not injure the hands, or the most delicate material; but while it is incomparable for permanently whitening Linens, &c., after they have become discoloured by age, or injured by bad washing, it is also unsurpassable for improving the colors of FLANNELS, BLANKETS, WOOLLENS, COLORED PRINTS, MUSLIN and LACE.

AYER'S PILLS.

A new and simple remedy recently for the cure of all Biliousness—Constipation, Indigestion, Headache, Dropsy, Rheumatism, Fever, Gout, Hoarseness, Nervousness, Irritability, Intermittents, Headache, Pains in the Breast, Side, Back, and Limbs, Female complaints, &c., &c. Indeed, very few are the diseases in which a Purgative Medicine is not more or less required, and such sickness and suffering might be prevented, if a harmless but effective Cathartic were more freely used. No person can feel well while a convalescent habit of body prevails; besides it soon generates serious and often fatal diseases, which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Cold, Febrile symptoms, and all Bilious Complaints. They all tend to become or produce the deep seated and formidable disorders which lead the leaves all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors, and Patients, has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief, were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth. Among the eminent gentlemen to whom or are allowed to refer for these facts, are: PROF. VALENTINE MOTT, the distinguished Surgeon of New York City. DOCT. A. A. HAYM, Practical Chemist of the State of Boston, and Geologist for the State of Massachusetts. IRA L. MOORE, M. D., an eminent Surgeon and Physician, of the City of Lowell, who has long resided in his extensive practice. H. C. SOUTHWICK, Esq., one of the first merchants in New York City. C. A. DAVIS, M. D., Surgeon and Surgeon of the United States Marine Hospital, at Chelsea, Mass. Did space permit, we could give many hundred names, from all parts where the Pills have been used, but evidence even more convincing than the certificates of these eminent public men is shown in their effects upon trial.
