LOCAL MATTERS.

THIS IS THE FIFTY-THIRD DAY FOR HIM.

Accident.
A young man named McLean belonging to Black Brook, received serious injuries the other day in the woods up river by a log rolling on him. He was in the employ of Mr. John Murray.

To Correspondents.
Correspondents from Allowick, Gloucester and other parts shall have attention soon as possible.

Census Commissioners.
Mr. John Malby has been appointed Census Commissioner for Northumberland, Mr. John Siveright for Gloucester, and Mr. John Black for York County.

Diphtheria.
This fearful malady is said to be making sad havoc among many of the children here. At week Mr. John Hayden lost two, and has another little one now at the point of death.

Mr. John Wallace lost a little boy last week, and another of his children lies very low. Diphtheria is said to have been the cause in all these cases.

Yanors Latest Predictions.
We take only such as refers to what is to come; his predictions as to what weather will be very much general interest. At the beginning of the last week of the month, brilliant, mild, spring-like weather will again appear, melting the snow, and rendering sleighing impossible in some localities. A few days before the close of the month high winds are likely to prevail, with gales around New York, Long Island Sound, and other points, with blustering weather in Canada and northern United States. The last two days, however, are likely to be fair, and the month will end with little snow on the ground.

The Appraiser.
By the death of Mr. Miller of Douglastown the appraiser for the port of Newcastle has been made vacant, and there is some speculation as to whether the Government will or ought to fill it again or not, and in case they should not fill it whether the Chatham appraiser, whoever he might be, would get an increase of salary, whether the present incumbent in Chatham would be the person, et cetera, et cetera: To all of which our reply is, that it is the right, and no more than the right of Newcastle to have an appraiser of its own; that if ever there was any necessity for an appraiser in Newcastle; the necessity is greatest now, because under the new tariff the appraisement of goods is than it was ever before. The Government might see the wisdom of promoting the assistant of the late Mr. Miller to the post, or they might make a new appointment. To throw the duties, with the corresponding increase of salary upon the Chatham incumbent would be unfair to Newcastle, and would not, nor ought it, to be tolerated by the Conservative throughout the County. Should such an injustice be done, be assured, the Strae shall utter its protest, and treat the case as a gross injustice to the people of Newcastle, and to the loyal and honorable Conservatives of the County. So long as Mr. Shirreff does his duty, and engages in no employment that the terms of his appointment forbid, we should be sorry to see him disturbed, even though he happen to be an active opponent of the Government: for every man in every position, who is possessed of the franchise, has the right without pains or penalties to exercise that as he sees fit. But the man who persistently and consistently does all in his power, openly and in secret—going even so far as to give the little Government printing falling in his way to a publication whose mission is to traduce, malign and belite the Government—cannot expect any favors from that Government, and more than this, would have no just grounds for hoping to be retained in office, when going beyond the limits fixed by the terms of his appointment.

As to the working of the "course of instruction," Dr. Ross and the Board of Education ought to know that until compulsory education is established it never can work without jar and injustice. For in some, in a very great many districts, there is no school in summer, and in some no school in winter. This happens in poor districts (not the technically poor districts alone) and it is these poor people who have to bear the brunt of the friction and jar of the system. Then in almost the entire remainder of the country districts, little children can't go to school in the winter, and thus the school falls under the ban of the regulations, which in summer send larger children work on the farms, and the little ones only attend—and the school is again under the ban. A very large proportion of the children leave school at 15 or 16, and instead of carrying along all the branches prescribed, would prefer a special course in directly utilitarian branches. In such cases, certainly, the discretion of the teacher to suit the subjects to the locality would be better than the prescribed course from which there is no deviation; but this we suppose Dr. Ross would contend would break up the one general system, and establish a thousand petty systems in its general prescribed course and methods to what the people demands. The former can only be made perfect by compulsory education, the latter poly-system can never be made perfect according to the idea of educational headquarters.

The Government ought to pay no attention to such writers as the Strae's editor and others who know nothing about their own good time and methods to make a change, if change be necessary. Let them not throw the Inspector's system and "course of instruction" overboard till they see what fruit they will bear. A year or two more will suffice in a measure to show all that. If it shall then have proved itself a failure, overboard with it by all means, and leave discretion to the Inspectors.

PERSONAL.—Mr. H. P. Marquis of your town is in the village today. He leaves for Bathurst tomorrow.

Yours,
J. E. JONES.

Carquet, Feb. 17, 1881.

THE EDUCATIONAL REPORT.

We take from Inspector Cox's Report the following with respect to our CHATHAM SCHOOLS.

The Departments in District No. 9, Chatham were very much disorganized at the time of inspection, April 1880, but the Trustees went vigorously to work, employed two new Teachers, re-graded the schools, and at present have them in very fair running order. There were strong reasons for immediate action, in the case of the schools ranked low, and I did not get a pupil for Superior School Allowance in the whole District. District No. 8 also had its Departments somewhat irregular, and although the educational tone of these was an improvement on the above schools, still they fell short of what is expected to find. In District No. 8 no pupils were passed for participation in superior allowance. It is to be hoped that the people of Chatham Town will not permit the present division of their town into three Districts to continue. Such an arrangement cripples their energies prevents the grouping of children so as to secure properly graded schools, and precludes a just share of the superior allowance. This is a serious matter, and one that should be of great concern to the people of the middle District No. 1, the schools of which are in a very satisfactory condition, as they receive the Grammar School Grant of \$400 per year, and even here, the difficulty of grading, the loss of teaching force where a school contains three grades, the small number of children to grade from, and the frequent mere expellence of the transfers to preserve a numerical balance, are drawbacks more or less serious; and, as the Grammar School Grant is of uncertain duration, District No. 1 would find it to its advantage to unite with the other two districts, and to have the whole of the town under one management. In various cases these Departments have been subjected to the consequences of a too precipitate grading, whereby children were in many instances hurried into studies their minds could not intelligently grasp—a step that tends to surface education, and is a serious drawback to the progress of the mind. I am pleased to report that this practice, arising sometimes from necessity, some from the desire to get the children through, and that merit hereafter will be made the stepping stone to preferment.

DOUGLASTOWN SCHOOLS.
The graded schools in Douglastown, were certainly a great improvement on the ungraded schools of the Department, but also in the location of school houses. A new one was built last year, and the entire upper part of the District, about a mile and a half from the Town proper, where the population is sparse, and the children are scattered, was in erecting a building where it could be of no use in accommodating the pupils of the upper and more struggling portions of the town. I know not at all events, if the erection was a great mistake. As a consequence of this, and the closing of a school in the winter, the result would not have been a teaching force that under such an arrangement one half the children's time was absolutely wasted. Had the mismanagement been less, the result would not have been so serious, but Grade IV. was put into the advanced department contrary to law, that is, in the Department of the District. By such a course a first class teacher was compelled to do primary work that could have been done by a third class teacher, and his efforts were so crippled that advanced education was rendered impossible. As a natural consequence, the result would not have been so serious, but Grade IV. was put into the advanced department contrary to law, that is, in the Department of the District. By such a course a first class teacher was compelled to do primary work that could have been done by a third class teacher, and his efforts were so crippled that advanced education was rendered impossible.
