A Girl Turtie.

There is a little negro girl about five years old in Kaufman, Texas, bearing, in many respects, a striking resemblance to a loggerhead turtle. The nose is hardly more than an idea, while the eyes have that peculiar and unintelligible stare as if looking every where of the neck downward an impression is a favor by sending in their names and breast bone of a turtle. The Ageing Flirt.

She was supreme five years ago. But five years have told upon her complexion and her beauty, while the young men who adored her were young still and woo her little chit of a sister, who seems to her only fit for the governess and the children's dinner. The res trospect is not pleasant. She thinks of time wasted, of honest hearts toyed with, imbittered, rejected. She has seen, one by one, pretty girls of not half pleasant. But how about the prospect? It is sadder still. There is the gay writing with which Time autographs her brow.
