For some time past the Board has had under serious consideration the ne-cessity for the enlargement of our Head Office premises, which have become quite inedequate to meet the present needs of the Bank, without having regard to the ordinary expansion of our business which may be expected in the future. Endeavors were made to secure adjoining lots, but without success. In 1910 an opportunity arose for the acquisition of the land and buildings at the north-east corner of King and Yonge streats—81 feet on King street by 112 feet on Yonge street—and after due deliberation the purchase was completed. It is not the purpose to hold both properties any longer than is necessary, and, when a policy for building is decided on, your Directors have every reason to believe that our present premises can be disposed of for an amount which will prac-tically offset the recent outlay: graph poles, wood staves not further 1.000 feet bumber planed on one side, ton- great impetus to the live-stock ininal our present premises can be deposed of the last year for Edmonton, Moose it addition, suitable buildings were erected last year for Edmonton, Moose Jaw, and Notre Dame avenue, Winnipeg, branches. These various disbursements have caused a considerable increase in Bank Premises Account, but, following the usual policy, a substantial amount has ing than anything else and will give a anufactured than listed or jointed. gued and grooved or planed on two dustry here.
