THE NORMAL EYE.
 Note how the rays focus exactly on the retina, giving perfect vision.

THE NEAR-SIGHTED EYE.
 Note how the rays focus and cross before reaching the retina, causing myopia or nearsight.

THE FAR-SIGHTED EYE.
 Note how the rays focus beyond the retina, causing imperfect vision.

EYEGLOSS experience is gained only by years of study and practice. To be able to fit eyes with proper glasses requires a distinct knowledge—a knowledge that is possessed by very few. Besides being a graduate of two First-Class Optical Colleges, I have had nearly twenty years experience fitting all kinds of eyes. I employ only the most modern and best methods of examination, objective and subjective, shutting out the possibility of mistakes. I carry the largest stock of Spectacles, Eyeglasses and material ever brought to Newfoundland, besides having the finest machinery for grinding special lenses. No charge made for examining your eyes.

HOW CAN WE COUNTER-ACT THE INCREASED COST OF LIVING?
 A second's reasoning will supply the answer. Beef and pork are dear and getting dearer all the time, and the cost is out of proportion with their food-value.
EAT MORE BREAD.
 There is more nourishment in a shilling's worth of bread than a shilling's worth of beef or pork. But the problem is not done with yet. The shilling's worth of bread is not always the same value. Breadmade from
ROYAL HOUSEHOLD FLOUR
 contains more nourishment than any other, because it contains the greatest amount of gluten, the health-giving nutriment of wheat.
