The Evening Chit-Chat

By RUTH CAMERON

What kind of a man does a woman like best?
Some weeks ago I put that question to my readers, promising them that some day we should have their opinions on the subject.
"Some day" has come.
Attention, swains who desire to know how to please the fairer sex. Here is a chance to get some honest unaffected opinions on the subject.
I have received many more than I could possibly print, but many repeat the same story, so I'm just going to try to give you the widest variety possible.
It may be interesting to know first what masculine characteristics received the most votes.
"Cleanliness of person and strength, both mental and physical, I should say topped the list."
Ambition, a sufficient degree of generosity to make a wife sure of enough pocket money, reverence for God, chivalry for women, and an affectionate disposition, were also much in demand.
One lady who ought to know something about the matter, having had three trials, says that an affectionate disposition is by all odds the "thing" that counts the most. "I've had three husbands," runs her sad tale. "One and two rest in the graveyard. The third is what the world calls a good man but he is not a bit soft. The second was soft, and I would rather be with him in spirit than where I am. I was happy with the second. Give me a soft, loving man every time. I have tried three kinds."
Here is what some more women think about this matter:
"The kind of a man a woman can love must be strong, yet tender, true, honest and kindly, sympathetic. If the gods have added to this a sense of humour, believe me, it will make no difference if his hair is red and his eyes are green, he will not have any trouble in convincing the lady of his choice that he will be a pretty comfortable fellow to pull in double harness with along the road of life."
"The man a woman likes best? One who is strong, honorable and fearless, chivalrous and truthful. A man of few words but many deeds, of strength to withstand temptation, of grace to grow by suffering, of tender heart and unswerving devotion; a man in brief who reverences the test of the "Table Round" to reverence his king as if he were his conscience and his conscience as his king."
"Of course I don't pretend to know anything about men for I am only a college freshman, but even that manner of girl may have an ideal—so here goes, here's mine in two words—an unselfish man and a clean one."
"What sort of a man do all women love? Why, the sort of one who was born with the gift, or has acquired the art of conveying the impression, 'You are different from other women and I'm glad of it.' Such a man, whether consciously or unconsciously, gives the impression, 'You are what I've been looking for, what I've doubted the existence of, a woman who can understand and appreciate and inspire. With such a woman a man could do his best in the world, and as we women do want a mission, a reason for our being, naturally we fall in love with the man who offers it to us.'"
"It is only necessary to go back to the Garden of Eden to establish the fact that women like best the man who is thoroughly imbued with Devil. A good, straightforward, moral man is not 'in it' in comparison with the other kind. Adam did not dominate the heart of Eve. She was dissatisfied and therefore went out of her way to find something to relieve her dissatisfaction. She ran up against the Devil and listened to him to her own undoing and that of the whole world. And still the daughters of Eve like best the man who has the most 'original Devil' in his make-up." (Need we interpolate that this break in the symposium was contributed by a man?)
(To be continued in our next.)

Ruth Cameron

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy or known concoction. Ask your druggists. They must know of every cure made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

When a boiled egg is the usual breakfast dish, vary it by breaking it into the egg cup and cooking in hot water to the desired consistency. The yolk is quite different than when cooked in the shell.

Save the narrow paper that bolts of ribbon come on. When stitching on thin materials, use these papers to place under the goods to avoid puckering. They are much easier to use than strips of newspaper torn up.

Household Notes.

Pierce each end of an egg and blow contents out. Fill with plaster paris (warmed); let harden and you have a nest egg which will last for years. Moreover this is far better than the white china egg generally used.

Old, worn out muslin nightgowns make excellent covers to put over nice dresses, when hanging them away in the clothes-dress. They are long enough to keep the dust off the bottom of the skirt as well as the whole dress.

To prevent accidents with bottles of poison brought into the house tie a bell to the neck. Even in the dark the bell will tinkle its warning and save many serious accidents.

When laundering a fringed bedspread do not put through the wringer after the last rinsing water. Hang on the line dripping wet. It will dry without a crease or wrinkle, will not require ironing, and the fringe will be as fluffy as when new.

A cotton flannel bag made with a shirt-string at the top, and large enough to cover the lower end of the broom, is excellent for sweeping hard wood or painted floors. This saves scratching the floor. Moisten the bag before sweeping.

If you have a dark cellar, paint the last of the steps leading to it white. This will save many a fall, which might prove serious. If you prefer, an old piece of carpet, double thickness, may be placed here to distinguish the lower step from the others.

While in Florida I learned an easy and most satisfactory way of removing the top of a pineapple. Hold the pineapple with the left hand, and with the right, give the top a twist, as if you were "to wring its neck." Out comes the top and part of the core.

Not many people know that cracker meal is more tempting to a mouse than the time-honored cheese. Simply shake a little in the trap, leaving a bit outside by way of a trail. I'm always sorry for a mouse, but if they have to be caught—

Make a staple four inches long out of wire. Common fence wire will do. Place this staple astride the door-knob, on the inside. Thus the staple through eyelet in door-key after locking door, and no burglar can open the door from the outside.

When my cake or bread burns, while it is still hot, I take a clean cloth and dampen the burned places with water. Then with a knife I remove the entire burned portions, which are now soft. If one application does not suffice, apply more water and continue as at first.

Old macaroons and sponge cakes that have grown stale form the basis of a nice dessert by soaking in sherry. Spread with alternate layers of straw-berry jam, pour in a custard when almost cold, heap with whipped cream dotted with some of the largest berries from the jam.

Every housekeeper knows the tedious task of sorting stockings in pairs when they come from the laundry. This is very easily remedied by sewing a small tape at the bottom of each stocking and tying a pair together when they are taken off and put into the hamper or clothes basket.

If the ice box is small, more room may be secured by having several sheets cut a trifle larger than the top of the box or receptacles which you use for storing away the food. These may be used as covers, and a plate or other article put on top almost doubling the capacity of the box.

I make my pillow-cases of pillow-case tubing. When they begin to get thin in the middle I rip the closed end and sew again, changing them to the creased edge of the pillow-case will now be the middle of the flat side. This brings the thin places to the outer edges, where there is little or no wear.

Jack Johnson in Whitewash Squad

San Francisco, March 30. — Jack Johnson, champion heavyweight pugilist of the world, this morning began his duties on the white wash squad of Sheriff Finn's county jail at Ingleside. Jack was aroused by the eight bells system at five o'clock. After the scullery work in his cell he was given a banquet consisting of porridge, bread armed with a white wash brush, then started in. The only oasis in Johnson's desert of woe is probably the fact that the Policeman Center, who was his nemesis in the racing game, was arrested for grafting. Center is charged with letting his speed off on the presentation of a \$5 note.

The Duke of Connaught now and then can tell a good story against himself. On one occasion a young subaltern, putting a company of infantry through their drill, managed to get into a terrible muddle. The Duke, who was watching the effort, called the subaltern and asked, smiling, "Have you any idea what your men are supposed to be doing?" The boy saluted, and replied, "No, sir." Then, with a rough giggle in his eye, he added, "Not the slightest. Have you, sir?"

Bay de Verde Railway.

Editor Evening Telegram,
Mr. Editor.—The people of Lower Island Cove are very much interested in the branch line to be constructed, and were enthusiastically discussing the problem before, or while Rev. C. Lench was writing that letter published in your columns on April 1st.

That letter voiced the sentiments of this populous town and we believe the entire district. We acquiesce in all the rev. gentleman wrote on the subject. We consider it our legitimate right to have a branch of railway constructed down the north shore of Conception Bay before Trinity Bay gets two branches.

It is no use representatives to prove what sort of material they are made of, and whether they are equal to the occasion, and will show themselves the influential, zealous and attentive members they are said to be. A railway down the north shore would mean the greatest blessing and benefit that could be given to the district. It would double the value of the agricultural products of the shore and give an impetus to the cultivation of the land and raising of stock, which is so profitable and for which there is at present so much demand. There are cellars full of vegetables and barns full of hay now that might be utilized in making meat for the market if we only had a means of conveyance always available. Further, what an impetus it would be to the fishery if every day fishermen could get a supply of bait from any or every part of the Bay. Why, it would mean thousands of quintals of fish more every year if from Harbor Vale to Bay de Verde one could have daily traffic in bait fishes and the benefit of cold storage. Then marketable produce could be sold to great advantage and at top prices. Now we have to wait and wait for weather conditions, and often not get there at all. Is it any wonder, Mr. Editor, that this is a live question with us, and that we are looking to Messrs. Crosbie and Whiteway to champion our cause? Party politics are too insignificant to blind the eyes of the electorate in this great question. The Government have it in their power to erect an everlasting monument to their memory by running the road from Carbonar, touching the places mentioned in Rev. Mr. Lench's letter, and joining on to the 7 miles of road already made from Lower Island Cove to Old Perlican, which touches Caplin Cove and Low Point on its way.

I have surveyed the shore from Small Point to Grate Cove, and also from New Melbourne to Old Perlican, and it appears that nature designed the north shore for a railway, while it has fitted the south side of Trinity Bay for traffic by water.

We are looking to the Government to consider the plea of the 12,000 people of Bay de Verde-District to first construct the 30 miles of railway to connect this shore with St. John's, and after, if needs be, give Trinity Bay the second branch. The contractor will see that it is to his own interest to operate the Conception Bay branch line, since it is short and thickly populated and without competitors. The bulk of the traffic, which is large, would undoubtedly be done by rail.

Thanking you for space for publication, I am,

Yours respectfully,
A. G. H.

Lower Island Cove, Con Bay,
April 7th, 1911.

Electric Restorer for Men

Phosphorus restores every nerve in the body to its proper tension; restores strength and vitality; restores all the weakness avoided at once. Phosphorus will take you a new man. Price 25¢ a box, or two for 50¢. Write for address. The Seaboard Drug Co., St. Charles, Ont.

AT BELL ISLAND.—The first of the steamers to take away iron ore is expected at Bell Island about the 20th inst. There is a large quantity of ore now ready for shipment. Both companies are now getting ready for extensive operations during the coming summer. There are over 1,000 men now employed there and this number, it is expected, will be increased by 50 per cent. in May.

Eczema's Tortures

All treatments failed for three long years—Cure complete with DR. CHASE'S OINTMENT.

Mrs. Link, 12 Walker St., Halifax, N. S., writes: "After three years of miserable torture and sleepless nights with terrible eczema, and after trying over a dozen remedies without obtaining anything but slight temporary relief, I have been perfectly and entirely cured by Dr. Chase's Ointment. After the third or fourth application of this grand ointment I obtained relief, and a few boxes were sufficient to make a thorough cure. It is six months since I was freed of this wretched skin disease, and as there has been no return of the trouble I consider the cure a permanent one."

Such cures are not brought about by lotions and substitutes for Dr. Chase's Ointment. It is therefore necessary for you to be certain that the portrait and signature of A. W. Chase, M. D., the famous Eczeim Book author, are the box you buy. 60¢ a box, at all dealers or Riddiman, Bates & Co., Toronto. Write for a free copy of Dr. Chase's Recipe.

Evening Telegram

Fashion Plates.

The Home Dressmaker should keep a Catalogue Scrap Book of our Pattern Cuts. These will be found very useful to refer to from time to time.

8895.—A COOL AND COMFORTABLE FROCK FOR THE LITTLE GIRL.

8895

Simplicity and comfort combine to make this garment attractive and pleasing. It will not take long to develop this neat little dress, which may be made with or without the flounce portion. A shaped facing trims sleeves and round yoke edge. The pattern is cut in 4 sizes: 2, 3, 4, 6 years. It requires 3 yards of 36 inch material for the 4 year size.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

Suitable materials for any of these patterns can be procured from AYRE & SONS, Ltd. Samples on request. Mention pattern number. Mail orders promptly attended to.

8890.—A SIMPLE EASILY MADE PETTICOAT.

8890

Ladies' Petticoat with Seven Gore Upper Portion, Lengthened by a Straight Gathered Flounce.

This design is suitable for nainsook, long cloth, muslin, crossbar dimity, or gingham, satin or dannellette. The upper portion is cut on fitted lines, and the necessary fullness at the bottom is gained by a gathered flounce or ruffle. The pattern is cut in 5 sizes: 22, 24, 26, 28, 30 inches waist measure. It requires 2 1/2 yards of 36 inch material for the 36 inch size.

A pattern of this illustration mailed to any address on receipt of 10c. in silver or stamps.

Please send the above-mentioned pattern as per directions given below.
