Ladies' Patent Colt, one eyelet, Ankle Strap, Pump, goodyear welted, ribbon bow, and usually retail at \$3.50. For this snappy line our price is only \$2.75.

Geo. KNOWLING.

Report of the Board of Trade.

The quarter just ended is the principal period of the year for catching fish. At the moment it looks as if the results of the Labrador would be satisfactory, considering the number of people engaged in it. The prices abroad are of a fairly satisfactory character.

The shore fishery has been fairly successful, as has also the Bank fishery.

The Council have long been impressed with the fact that a certain supply of bait would be of invaluable service to the fishermen and Colony, and they are now making enquiries with a view of obtaining particulars on which to base recommendations to the Government, or others, for the purpose of establishing bait stations to be worked on commercial principles. It is, however, regrettable that the fishermen themselves have, in several instances where efforts have been made to construct bait stations, been very indifferent to the

matter; and they have not only failed to supply bait fishes when they have been in abundance, but even when they have been offered them, they have refused to purchase them at cost price, although the obtaining of them would have resulted in very large profits to the buyers.

The advent of buyers of green fish is hailed with satisfaction and may be regarded as a sign of the times pointing to a near change in the method of marketing fish. It affords the Council much pleasure to note that the vintage as well as the crops of olives and cereals in Spain and Italy are very satisfactory, and will doubtless be beneficial to Newfoundland by increasing the purchasing powers of the consumers of fish.

It is with regret that they note the state of unrest which prevails in Spain and Portugal and which militates against satisfactory business.

It is earnestly hoped that the war just declared by Italy against Turkey, may not involve any other nations, for if it does it might prove to be very harmful to Newfoundland interests generally.

The average quality of Shore fish this year is, up to present, extremely satisfactory.

Efforts have been made by many of the merchants in the early part of this season to establish a cull of fish, but their efforts have been unsuccessful, because unanimity in the trade could not be obtained. The Council feel the realization of this is fraught with very great possibilities for the welfare of the Colony. The Talqual system does not offer to the man who cures his fish well any relative compensation for his efforts, as it is almost an invariable rule that the man with the inferior fish obtains the same price as the one with the good. If this system continues it must of course lead to a continuance of an inferior cure of fish in the future; and the Council view the same with great anxiety, and strongly urge all those interested in this matter to support them in their efforts to obtain a satisfactory settlement of this much vexed question.

The Council have again urged on the Government the necessity of having the harbor dredged, and it is with

sincere pleasure that they learn that the Government expect to have the dredger in operation in Newfoundland before April next.

The Hotel has been considered and efforts have been made to bring about a satisfactory arrangement for its construction, and negotiations are still going on with that end in view.

The Telephone system is more and more in disfavor. The Government have, however, assured the Council that they are carefully inquiring into the merits of several systems with a view to a new installation in the city and a connection with the Postal Telegraphs, so as to reach places of sufficient importance outside of St. John's and to connect them with the city.

The question of watering steamers has been taken up with the Municipal Council, and there is reason to believe

Dr. Bovel's Iron Tonic Pills Last Resource They Succeed Where Others Fail.

20 St. Andrew St., Ottawa.

Dear Sirs:—
"I had completely lost my appetite and was growing very thin. I tried various medicines but everything failed to do me the slightest good. I was tired trying various medicines when I heard of your Dr. Bovel's Iron Tonic Pills, and thought I would give them a trial, as a last resource.

I procured a supply and commenced with the treatment. After a very short time Dr. Bovel's Iron Tonic Pills effected what several others had failed to do, a complete cure. My appetite has returned to me and I have gained seven pounds."

Yours truly,

DORA MOUSSEAU.

Dr. Bovel's Iron Tonic Pills create rich, red blood and reinforce the whole organism, restoring appetite and ensuring a good digestion.

Dr. Bovel's Home Remedies are sold by all dealers. Ask for them. If not obtainable through your dealer within a reasonable time, send 25c (in stamps) to us for any article you require. Bovel Mfg. Co.'s, St. John's, Nfld.

that a more satisfactory service will be obtained in the future than in the past.

The inspection of fish by the Board of Trade the past year having proved very successful, the Council have thought it advisable to engage a second Inspector for the shipping season.

The Council have considered the advisability of recommending the engagement of Mr. W. B. Simonsen, the cod oil expert from Norway, for a period of years to the Government, and after inquiry they have done so, offering at the same time to pay part of his expenses.

The inspection of Herring has been attended with marked success, and it is believed that in the future they will be packed in a much better way and more creditable manner than in the past.

The Council have drawn the attention of the Trade and of the Attorney General to the fact that a considerable number of men engaged in culling fish had not complied with the law, and they have reason to believe that this will lead to every culler being duly sworn according to the Act, with the result of ensuring, as far as possible, fair play to the fisherman and merchant alike.

Many complaints have been received of a serious delay in the receipt of their licenses and labels by Lobster Packers, which they are compelled to use according to law. The Council have taken the matter up with the Department of Marine and Fisheries and Post Office, and hope that their efforts will result in the prompt delivery in the future of both licenses and labels.

C.L.B. Ex-Members Hold Meeting.

About one hundred and twenty members were present at the meeting in the C. L. B. Armoury last night to finalize matters for the 20th anniversary. The chair was occupied by the Chairman, Mr. K. Ruby. The minutes of last meeting were read by the Secretary, Mr. T. Hallett. The following programme for the anniversary was then settled. On Sunday the anniversary parade will be held in St. Mary's church. Monday night a torchlight parade will be held around town, leaving the Armoury at 9.15. They will proceed down Long's Hill, Theatre Hill, New Gower Street, up Hamilton Street, down Patrick Street, Water Street, up McBride's Hill, along Duckworth Street, up Ordinance Street, down King's Bridge Road. The battalion will halt at ex-Colonel Outerbridge's house. From there they will proceed through the Government House grounds, up Military Road and Harvey Road to the Armoury. Tuesday night a concert and dance will be given to the members, ex-members and their friends. Admission will be by invitation, and on Thursday night there will be a tea and concert for the present and ex-members.

We believe MINARD'S LINIMENT is the best:

Thomas Wasson, Sheffield, N. B.

The Pretorian Arrives

The Allan liner Pretorian, Capt. Henry, arrived here from Philadelphia via Halifax at 2.30 p.m. yesterday. The run from Halifax was made in 52 hours, owing to a thick fog being met with a snow storm Thursday night. She left Philadelphia Friday morning early and had head winds and considerable sea on the run to Halifax. She brought 270 tons of cargo and took 600 passengers of oil, etc., outward. Her passengers inward were Mrs. Percie Johnson, from Halifax, and 7 intermediate. She sailed for Glasgow this morning, taking Gerald Harvey, Miss Power, Mr. Henry, A. Alexander, Mrs. Clarke, F. W. Senior, H. Jowett, Mrs. Pritchard, Mrs. Woolcombe, Sir Philip Brocklehurst, Sir Robert Harvey, R. R. Steward, Dr. A. Selwyn-Brown, 7 intermediate and 1 steerage.

Personal.

Mr. Gerald Harvey left to-day by the Pretorian on a trip to England. Rev. Fr. McNamara, P.P., Burin, left here by the Rosalind on a holiday abroad. Fr. McNamara will likely visit Ireland.

Rev. E. P. Curran, P. P., Pouch Cove, who had been in town staying at the Osborne since Thursday returned home to-day.

Const. Lee, who was on leave for a couple of weeks visiting relatives at St. Mary's, resumed duty yesterday, having returned here Thursday. Mr. P. Keele, brother of Const. R. Keele, who was here for a few days, returned home to Placentia by this morning's train. Mr. Keele built the new Savings Bank at Placentia, painted the Court House and repaired the Postal Department.

Cable News.

Special to Evening Telegram.

SHANGHAI, Nov. 2. The native constabulary of Chupen, a suburb of Shanghai, have mutined. They burned the police station, residence of the Chief of Police, and arsenal. The native city of Shanghai has been taken over by the revolutionists. No resistance was offered by the authorities. It is reported that the rebels at Kin Kiang have seized the British tug-boat Sampson.

Special to Evening Telegram.

LONDON, Nov. 3. The Peking correspondent of the Times says that the National Assembly will insist upon the removal of all Manchu prerogatives; the disbandment of all Manchu Corps through the Empire; the abolition of Eunuchs; and the discarding of the queue and distinctive Manchu dress. Finally, the Assembly aspires to abolish all Customs laws and regulations which are incompatible with re-constitution on the British model.

Special to Evening Telegram.

BERLIN, Nov. 3. The report that all the outer forts of Tripoli are in the hands of the Turks is confirmed. According to well-informed circles here, the Italians hold only the forts within the city proper.

Special to Evening Telegram.

English correspondents' letters from Tripoli confirm the statement that the Arabs are perpetrating the atrocities which made the Abyssinian campaign a by-word of horror. Arab women are far worse than the men in their treatment of the wounded, and of prisoners of any white race.

Special Evening Telegram.

LONDON, Nov. 3.

The Constantinople Correspondent of the Telegraph says that a sensation has been caused by the revelation that Haki Bey ex-Grand Vizier, if impeached for neglect in the defense of Tripoli, will declare that the German Ambassador repeatedly assured him that Italy would never send a regiment or a ship to Tripoli. For that reason, his Cabinet had not considered it necessary to despatch troops or war material to Tripoli.

Special to Evening Telegram.

PARIS, Nov. 3.

The Franco-German agreement officially announced to-day shows that Germany recognizes the right of France to establish a protectorate in Morocco while both nations engage to obtain the adhesion to this accord of the other signatories to the Algeiras agreement.

Building New Racer.

Some time ago a number of public spirited young men of the East End got together and determined to build a new raceboat for next year's Regatta. Since they have imported a lot of sawn cedar wood and every other requirement, and the boat is now in process of being built. The young man building her, though an excellent mechanic, has no pretensions to being an expert in the art of boat building, but consensuers who have seen what has already been done say that she will be a beauty and should make a good showing on Regatta day. This will increase the interest in our great annual Derby. The boat will be finished by the early spring and will be christened on St. Patrick's Day. Those who are building the boat are showing themselves to be true sports and deserve that she will succeed when placed on Quidi Vidi Lake.

STOPPED THE BLOOD AT ONCE SAVED THE HORSE

Mr. Geo. Lucas, who lives at Wilton, Ont., has a good horse now that he would not have had without Douglas' Egyptian Liniment. He says, "My horse ran away and was so severely injured on a barbed wire fence that I believe he would have bled to death had my son not procured Egyptian Liniment and syringed the contents of a bottle into the cuts which stopped the flow of blood at once. This happened in August and I expected if the horse lived he would be a cripple for life, but thanks to the Liniment, scarcely a scar can be seen."

"All the people about here know how badly he was cut."

This power of stopping bleeding at once, and healing a wound without proud flesh and almost without a scar, makes Douglas' Egyptian Liniment invaluable to the man who keeps horses, cattle or any live stock.

25c. at all dealers. Free sample on request. Douglas & Co., Napanee, Ont.

Not Salts, Oil or Pills, but Cascarets.

No odds how sick your Stomach; how hard your head aches or how Bilious—Cascarets make you feel great.

You men and women who somehow can't get feeling right—who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping clean inside with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets work while you sleep; cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gasses; take the excess bile from the liver and carry out of the system all the decomposed waste matter and poison in the intestines and bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children. They love Cascarets because they taste good—do good—never gripe or sicken.

Council Meeting.

Present at last night's meeting: Mayor Ellis, Councillors Martin, Mulhally, Myrick, Coaker and Ryan.

A letter was read from Mr. J. P. Blackwood acting for Cochrane St. Methodist Church trustees asking that claim for damage to property at Flavin Street be settled as the lease to the Council is now expired. Councillor Mulhally expressed the opinion that the rock crusher should not have been placed there, seeing that the lease was so near its limit. Further discussion was deferred.

Mr. C. Bowden asked that Moore Street be extended. Council will make improvements there next season.

Thos. Hallett again asked that the water service be extended to Walsh's Square. Mr. Hallett intimated that it was necessary to have a "pull" in order to get such work done. Councillor Mulhally warmly repudiated the suggestion in strong terms. Mayor Ellis said that the Council had arranged about the work but was, owing to unforeseen circumstances, obliged to postpone operations. It was ordered that Mr. Hallett be written to and his insinuations indignantly repudiated.

The Nfld. Produce Co. wrote of having started to erect an iron covered shed on their wharf. They sent in no plans and as it was against the law to build without doing so the work was stopped and the owners apologised. Councillor Mulhally said that he had seen the shed and was told it was to be shipped to the northward. He believed that this was the case, but it was certainly strange that plans were not sent in or asked for till the building was nearly completed. He thought that it was about time to put an end to this practice of allowing people to build without permission. Reid, Harvey and Crosbie had had to be stopped and asked for plans. But why should they have been allowed to start building at all without complying with the law? People living on the back streets are prevented from making small repairs to the galleries, porches and storm doors, while others seem to be able to do as they pleased. Council officials are now so plentiful that if a brick were thrown in the street one of them would be hit. Still the work was going on and nobody knew it. He himself had to report in Harvey's case while others were paid for doing the work. There is evidently negligence on the part of some of the officials. He suggested that a copy of the law be published. Mayor Ellis agreed with this idea and thought that a foot note should be added to the effect that a penalty of \$25 be enforced.

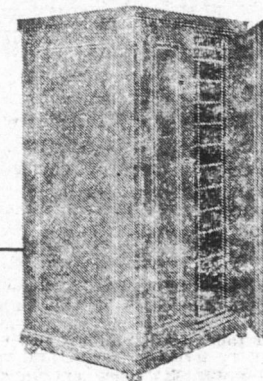

The request of W. F. Butler to build on the site east of the Museum was deferred. Staff-Capt. Cave was given leave to repair S. A. Barracks, Livingstone Street. Harvey & Co. will be sent a special vote of thanks for the use of their horse for watering vessels. The Engineer reported that it would cost from \$260 to \$300 to put a hydrant on Job's premises. Council will go on with the work if Mr. Job is willing.

The Engineer will report on cost of extending water pipes down Quidi Vidi Road. Monroe & Co. will erect a gate at waterside premises. Inspector Bambrick suggested that Mr. Prowse and Mr. Harvey who own dilapidated structures on the South Side be asked to make repairs thereto. The question of buying land on Hamilton Street was deferred. Plan of house for Geo. Day was approved. On motion of Councillor Ryan, \$30 was granted for repairs to Portugal Cove Road. After passing pay rolls the meeting adjourned.
