ALLIED CONFERENCE CONCLUDED

PARIS, July 27. The Allied Powers yesterday concluded their conference after announcing a decision to continue the war until the object for which they are fighting is attained. Their declaration, which was made unanimously before separating, reads: The Allied Powers, more closely united than ever for the defence of the people's rights, particularly in the Balkan peninsula, are resolved not to lay down arms until they have attained the end, which in their eyes dominates all others, to render impossible a return of the criminal aggression such as that whereof the Central Empire bears the responsibility. Their unanimous agreement on all decisions was reached during the meetings. The Ministers of the Departments affected will meet in London to draw up the executive measures.

RUSSIA'S POSITION.

PETROGRAD, July 27. The gravity of the country's position in the front and rear impels Premier Kerensky to take the exceptional decision, without waiting for the constituent assembly, to convoke on July 31 at Moscow, the extraordinary National Council. All the members of the Duma, prominent men from the chief centres of the Empire, representatives of the Zemstvos, municipalities, labour unions and universities will participate therein. The Council will hold two sessions, at which the Government will be asked to make an exhaustive report on the condition of the country, answer questions and ask opinions of authoritative persons on how best to save the Fatherland from ruin. Explaining the scheme to-day, Kerensky declared that attempts to move the revolution backwards were impossible, and conspiracies to restore monarchial government will be suppressed "in a most determined and merciless way." As an indication of the new policy and firm measures to be taken, Kronstadt received an ultimatum to hand over three of the chief Bolshevik agitators, including the notorious Roschall. In case of a refusal the island will be declared blockaded. The evening newspapers declared the position on the front is somewhat improved, as the evacuation of Tarnopol is considered to have been premature. Russian Generals have been ordered to recapture the town.

PETTYCOAT SAILORS.

LONDON, July 27. A despatch to the Daily Mail from Petrograd says that Russian women have offered to train themselves as crews for battleships, and the Minister of the Navy has accepted that offer.

HUN SPIES GIVING TROUBLE.

COPENHAGEN, July 27. Information obtained here shows that more effective measures than are now in force for the supervision of the Scandinavian liners plying to the United States must be put into effect if the passage of members of German agents and couriers and the transmission of intelligence by German spies in America are to be checked. It is said authoritatively that German pass forging bureaus are equipping German agents in Scandinavia with fraudulent Scandinavian passports. There is little to prevent the Intelligence Department of the German Admiralty now under the clever leadership of Capt. Karl Boy-Ed, former Naval Attaché at Washington, from planting any desired number of agents equipped apparently with genuine Scandinavian passports among the passengers. There is reason to believe this is being done.

SAYS OUTBREAK QUELLED.

LONDON, July 27. Fresh and violent fighting occurred in the streets of Petrograd in the last two days, according to a despatch from Petrograd to the Copenhagen Berlin Tidende. The extreme Socialists organised a great revolt, the despatch adds, but the Government troops immediately interfered and the riot was completely suppressed after lively fighting. No details were received.

STRIKE OVER.

RIO JANEIRO, July 27. The strike of fifty thousand workmen, which has been in progress for several days in protest against the steady increasing cost of living and the refusal of employers to raise wages, is virtually ended. A complete understanding between employers and workmen is expected shortly.

KILLED BY LIGHTNING.

ST. LOUIS, July 27. Three members of the first regiment of the Missouri National Guard were killed and a dozen others injured by bolt lightning during a storm which swept camp Maxwell early to-day.

FIGHTING IN CHINA.

SHANGHAI, July 27. A correspondent of the North China Daily News reports that serious fighting has broken out again at Cheng Tu, where Kwel Chow and Yuan Nan troops have resumed their quarrel for the mastery of the province. The city is in flames and the people are fleeing in panic.

GERMANY WANTS GOLD.

AMSTERDAM, July 27. The daily recurring public notices printed in conspicuous type in the German newspapers entreating citizens to aid the Fatherland by giving it their gold, evidently are insufficient of productive results. The Weser Zeitung, of Bremen, publishes a renewed appeal complaining that the well-to-do public still fails to realise the situation, and that all the gold must be handed in.

Summer School Notes.

Thursday, July 26. Morning Session. St. Bonaventure's College, 9 to 11.45.

When the classes assembled at 9 group A attended Dr. Brunt's lecture on teaching English Grammar, while Mr. Moorhouse lectured to group B on Nature Study.

During the second period 9.45 to 10.30, Dr. Brunt repeated his lecture to group B on teaching English Grammar, and Mr. Moorhouse took a group in Nature Study.

After recess Mr. Moorhouse continued his series of lectures on teaching Arithmetic in the lower standards, and Dr. Brunt gave a lecture to a group on Psychology.

The teacher-students then went to the Methodist College Hall (11.45-12.30) when Dr. Campbell gave a most timely lecture on best methods of preventing the spread of common infectious diseases. He read figures from the official mortality statistics showing that tuberculosis and measles resulted in 689 and 448 deaths, respectively in 1916. This is really appalling and measures should be taken to have cases of measles placarded and it should be viewed not as a toy-disease, but as a real menace to the race.

Afternoon Session. St. Bon's College. The three periods of this session were given to lectures on Psychology, Arithmetic, Physical Culture, Art and Nature Study.

Evening Session. Synod Building, 7.30-9. Special instruction was given in the following subjects: Navigation by Mr. Doyle; Latin by Miss Mansfield, History and Geography by Mr. Whiteaway, and Arithmetic by Messrs. Goodman and House.—Cor.

Hr. Grace Notes.

Miss Blanche Noseworthy, daughter of Capt. and Mrs. Thomas Noseworthy, left this morning for Montreal.

Miss Marguerite Coffin, of St. John's, is in town spending her holidays as usual, and is a guest of her aunt, Mrs. (Capt.) Noseworthy.

Several unclipped dogs are roaming the streets daily and several others are sporting collars that are very slight, and "are apparently more for ornament than use." It sheep are to be protected the law must be enforced.

Capt. G. W. Soper, late of the bargt. Clementine, passed away at Carbon-ear on Tuesday forenoon after a few weeks' illness. Capt. Soper was 64 years of age and leaves a widow, one son and one daughter to mourn his death.

Wednesday holiday was very much enjoyed. A number of citizens left on the morning train for Tilton where they spent the day berry picking, troutling, etc., and returned with Conductor Lee on the night train which came in on time.

A young lad who spent his first day troutling on Wednesday, and whose catch far exceeded his anticipations, reached home good and tired and shortly after retired to bed. Scarcely had sleep taken possession of him when he began in his dreams to fish again, and several times during the night he found himself with all the bed clothes on the floor, while he endeavored to take the tangle out of his line. He thinks he must have lured several dozen beauties during the night.

Pte. Edward Taylor, son of Mr. E. Taylor, Southside, who is a prisoner of war in Germany, captured on April 14th, writing to a friend says: "I was shot through the left leg and left

German Vessels Will be used by the U.S.

Washington, July 19.—Information is obtained from an official source that the German crews on the great merchant fleet, including the Vaterland, which was interned in American ports, failed to cripple a single ship so that it could not be repaired.

It was stated that \$10,000,000 had been set aside as the sum which would be required to repair the ships. Of this sum \$850,000 was fixed as the sum for the repair of the Vaterland, which will be used as a transport. It is said it will carry at least 6,000 soldiers to France on a single trip.

The facts permitted to get out show that the German crews believed that they had put the great fleet, out of commission for war purposes. They failed. They thought that they had wrecked the turbine engines on the big ships beyond repair, but American ingenuity, facing a mammoth task, met the test.

It can be stated that the work is being rushed on all ships. As yet few have been made seaworthy, but before another six months every one will be ready to aid America in fighting Germany. It will be largely the ships which German interests built which will carry American troops abroad to fight Prussian autocracy. The interior of the Vaterland is being torn to pieces to make it over as a transport, and this is true of most of the other vessels. Unnecessary sections are being demolished. They will emerge from the docks not vessels of pleasure but vessels of war.

The "Sunshine" Entertainment.

AUGUST 2ND.
To be held at Victoria, King's Bridge Road, in aid of the Jeusen Camp will open at three o'clock. The dancing on the green and open air concert will be special afternoon features, also the exhibition of beautiful sketches by Miss Marion Jack. Teas and ice cream will be served and there will be a sale of fancy things, jams, pickles, candies, etc., with a grab-bag for the children.

Any small donations sent to Mrs. Charles Harvey, 5 Musgrave Terrace, Gower Street, from those interested, will be very welcome.

In the evening the grounds will be lighted by electric light and there will be a large number of open air tableaux, also dancing.

Another special gift which all will appreciate is the music by the C. C. C. Band.
