And how kind it was you and Ina to keep my rooms for but tell me! It gives me such a restful, peace-ful feeling to be here once more. She is, indeed, in both form and spirit; she has done everything since you went away to fill your place; she learned from the servants all that you were accustomed to do for me, and it been really touching to see how faithful she has been in the performance of every duty."

I am so glad; if she had been disagreeable or unlovely I am afraid I should have found it hard to forgive her for stepping so unceremoniously into my place," Arley said, with a little flash of her old spirit.

But," she added, a moment later. "I believe I am very impatient, I can hardly wait for morning to come, I am so anxious to learn the mysterious secret of my identity. Where is Elaine

At the Langham. Sir Anthony came to London intending to remain only a short time, or until his business was completed; but Lady Hamilton has enjoyed the excitement of the city and eems to dread going back to Hazel- I mere, where she misses her son so much, so they have remained here until now. I will send William to tell Lady Elaine of your arrival the first thing in the morning, for you shall not be kept in suspense a moment longer than is absolutely necessary." Thank you, auntie. Poor Elaine! what trouble she has had since I went

away," Arley sighed, "how much sorrow there is in the world." "That is true, dear," gravely returned Miss McAllister, "but sometimes cur greatest blessings grow out of our heaviest sorrows."

CHAPTER XXXVI.

True to her promise, Miss McAllister sent a messenger early the next morning to inform Lady Elaine of Arley's return; but to the great disap-pointment of the whole family, he brough back word that Lady Hamilton, accompanied by Lady Elaine, had gone to Hazelmere for a couple of days, to give directions regarding the refurnishing of the rooms.

But Sir Anthony was delighted to hear of her arrival, and sent a message, saying that he should come to see her as soon as he had finished his breakfast, and he was as good as his word, for in less than an hour he was face betrayed genuine pleasure as he greeted Arley, for she had been quite a favorite with him at Hazelmere.

She had grown hot and cold by turns as Sir Anthony rattled off his long speech, and she was thankful enough that he was inclined to do a'l talking, for if he had asked her a direct question she could not have answered it to save her life. This warned her that she must make some effort to reply to Sir Anthony, er he would see that something was amiss, and be making uncomfortable inquiries, which would necessitate disagree-

Pandora Range

Does its Work while You do Yours

You do not have to constantly watch the Pandora range when cooking or baking. Arrange the fire, put on your pots and set the damper—the range does the rest.

While dinner is cooking you can do your other work, just the same as the woman in the picture, and know positively that your cooking is being done right. The Pandora range is entirely new and has many new features and

devices for regulating the fire, extracting all the heat possible from the fuel consumed and using it to the best advantage.

Special flue construction forces all the heat around the oven twice and directly under every pot-hole—only the smoke goes up the chimney. Oven is roomy, vent ated, fitted with thermometer, lined with sheet steel, and is a perfect baker and a perfect cooker at the same time.
