JOINT COUNCILS IN SESSION HERE

Important Meeting held here last Friday relative to proposed Bridge.

A STEP FORWARD

On Friday evening last a joint meeting of the Town Council, the Council of the Board of Trade, together with representatives of the Bonaventure County Council was held in the Council Chambers. This meeting was called for the purpose of considering ways and means of bringing to a successful close the construction of a bridge across the Restigouche River at Campbellton. Mayor Murray was elected chairman of the meeting and made a few remarks explaining the object of the meeting. He called upon Mr. Thos. Bastedo, Mayor of the township of Mann, who made a stirring address upon the subject. He first dealt with the steps that had been taken by the Bonaventure Council, the first resolution being passed about ten years ago. For some years afterwards the matter was left in abeyance, but finally the agitation was renewed and at the last session of the Council a resolution was passed endorsing the project and a memorial authorized to be forwarded to the Minister of Public Works. A petition is now being circulated throughout the entire County and is being largely signed. There will probably be about ten thousand signatures to the petition when it goes before the Minister. Mr. Bastedo then spoke of the advantages of the proposed bridge and stated that if all the people on both sides of the river would get together on the question the bridge would most assuredly be built. He spoke very appreciatively of the progress and development of Campbellton and pointed out that if the bridge was built the town of Campbellton would become the second largest town in the province.

MONCTON VISITED BY HEAVY STORM

Many Places Struck by Lightning

Moncton experienced one of the worst storms that has visited this city for many years Tuesday afternoon and evening, which was accompanied by sharp lightning. The rain flooded the different streets and the gutters were unable to carry off the flood and sections of the streets were flooded in a few minutes. The Main street was the worst flooded, and the water flooded the sidewalks and entered a great number of stores, but no damage was done. It about three o'clock the rain had amounted to one and three-quarter inches. Accompanying the rain was severe lightning and it was the worst that has visited this city this season. The storm passed over the city from north to south three times, each time the thunder being very heavy. As reported in The Transcript, the lightning struck the Price building on Main street, doing little damage, and also struck a street car, but fortunately little damage was done and the car, after being towed to a car barn, was soon repaired and running again. Lightning also struck a building in the west end of the city, being built by Edward Horton but little damage was reported. A box car in the I. C. R. yard was struck with no damage being done. The lightning entered the I. C. R. power house at the new shops and ran along the wires to the I. C. R. general offices and put the lights out of commission. No further damage, however, was done. A post in front of the planing mill at the I. C. R. new shops was struck and completely demolished. A large tree on Dominion Street was struck and badly shattered. He was an idle Irish boy, but he had the Celtic wit. He had shipped on board a man-of-war, where he annoyed the boatwain by his laziness. Sending him on the mainmast one morning, getting shy out to sea, the boatwain called out to him: "Come down out of that, you rascal! Come down out of that, and give your dinner shanks and his rope!" "Aha, well, replied the boy, "the wind was so strong, I couldn't get down."

KING ALFONSO'S BRAVE DEED

Pamplona, Spain, July 16—King Alfonso this afternoon prevented what might have been a fatal accident. As he was leaving the Cathedral after a ceremony, a general's horse bolted, throwing the rider and dragging him along the ground. While the spectators hesitated as to what to do, the King with great presence of mind sprang from his carriage, caught the horse and extricated the fallen general. He was roundly cheered by the populace. Father (to one of his laborers, who had come home after his first training in the militia) "When would you rather be, a soldier or a farm-hand, Paddy?" "Paddy—" "A soldier, of course." Farmer—"And why say Paddy?" "Pat—" "Well, you see, you'd be a long time working for a farmer before he'd tell you to stand at ease."
