AYER'S PILLS.

FOR ALL THE PURPOSES OF A

## FAMILY PHYSIC.

Theme has long existed a public demand for an effective purpative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill; but not easy to make a physical pill; but not easy to make a physical pill; but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purpative medicine is acrimonious and irritating to the bowds. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These pills produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowde. Being purely regetable, no harm can arise from their use in any quantity; but it is batter that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been specify carred by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appelias, Listlessaces, Errisability, Ellious Headache, Ellious Fover, Fever and Ague, Pain in the Side and Lonis; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient, they afford prompt and sure relief in Contiveness, Piles, Colic, Dysentery, Humons, Scrottula and Secury, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have nise produced some singularly suecessful curves in Rheumation, Gout, Dropay, Gravel, Erysipelas, Palpitation of the Heart, Pains in when taken to excess. The thousand owier in many a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will be the confidently believed this pill which has
