From Hon H. S. Randall,

Messrs. Hugh Miller & Co.

DEAR SIR, I have had no opportunity of testing your "Tick Destroyer" in my own flock—there being no ticks on my sheep—but I placed some of the preparation in the hands of my friend and neighbor, F. H. Hibbard, Esq., on the accuracy of whose experiments I can fully rely, and after testing it in several cases, he informed me that it thoroughly exterminated ticks. I have, therefore, no doubt that it will do so.

Yours truly,

HENRY S. RANDALL.

OAKVILLE, March 3rd, 1886.

DEAR SIR, In regard to the 13-foot Geared Wind Mill, I will say it does good work. I use it for pumping, running a grain crusher, cutting box and root pulper. The cutting box used to take six horses to run it all day, but the wind mill does the work now, and does not get tired either. I expect to run a cider mill with it next fall, and purpose attaching my grindstone as soon as I can get a pulley. The mill is perfectly self-regulating. The No. 21 X L Grinder works like a charm. We can grind ten bushels an hour easily. I might also add the Four-Wheel Carrier and Four-Tined Grapple Fork I got from you are giving the best of satisfaction. The Fork is far ahead of anything I have seen.

Respectfully yours,

R. G. MOORE.
