

“ Two years ago, I was attacked with heart disease. The Physicians pronounced my case hopeless. None of their remedies would cure me. I grew weaker day by day. On March 21 my eighteenth child was born. The last Sacraments were administered to me, and watchers were employed nearly three weeks. In the midst of all these trials, I never ceased to invoke the Precious Blood, praying the divine Jesus to help me, and to cure me if it were God's will, or else, to grant me resignation. I had promised, if restored to health, to publish my cure in *The Voice of the Precious Blood*. To-day, I am perfectly well, and able to attend to my family occupations.

I come, therefore, to fulfill my obligations, and would say to all the subscribers : Have hope and confidence in the merciful Blood of Jesus ! Gratitude for a remedy so efficacious ! ”

\*\*\*

“ Glory to the Precious Blood ! By your good prayers in honor of the Blood of Jesus, I have obtained an increase of fervor. I was negligent and indifferent. But now, I seem to find all my happiness in loving God, and in teaching my children to love Him.”

“ It is now some months since I made a Novena to SAINT MICHAEL THE ARCHANGEL, hoping to obtain a grace long time desired. On the ninth day of the Novena, I obtained the favor solicited. Encouraged by my success, I began a second Novena, and saw plainly that I was heard anew.

Grateful thanks to the glorious Archangel Michael ! ”

Several other persons devoutly thank the Precious Blood, the Blessed Virgin, Saint Anthony of Padua and Saint Expeditus for graces obtained.
