SOCIETY FOR PROMUTING CHRISTIAN RECOVEROR.

We have published in another part of our paper "A Plea for the Society for Promoting Christian Knowledge," copied from the Colonial Church Chronicle. The gratalitous expenditure of this Society for Bibles, Testaments on Pooks of Common Prayer, &c. &c. will be noticed with admiration .-Without meaning at all to contrast the exertions of other Institutions that make themselves useful in disseminating the pure Word of God, we may yet point to the great number of Bibles, Testaments, Prayer Books and other Books and Tracts Issued in 1854, to the number of over four millions, as the proof of what this headmaid of the Church has been doing; and of its Christian liberality, no other proof can be required than the fact that its gratul-tous outlay for the last year has been £14,081. In view of the interesting facts detailed in this Ples, and of the want of additional means, may we not nek of the Churchmen of Nova Scotia, who have tioen benefitted to a large extent by its operations, to do something in the way of contributions towards its support? There is a large Stock of its Bibles, Testamonts and Books of Common Prayer in hand at the Depository in this City, as will be seen by an Advertisement in this day's paper, and these being of quite a superior order in general correctness, beauty of typography, and strength of binding, and so very cheap withal, should they not, having experienced so much of the bounty of the Society in prosents of service books to their Churches and grants to their Schools, in common gratitude give them the preference above all others. This would be one way of manifesting an interest in the Society's operations. The people in the Country to the Westward, will shortly have an opportunity of purchasing from the Depository Stock, which will be offered at their doors, during the present month for Sale. They can also study the Advertisement for various descriptions of Bibles, &c. just received. Of these we criptions of Bibles, &c. just received. can say, and we profess to be a good judge, that of their style, we have never seen better mechanical execution, and for their correctness the Presses which are responsible for their publication, are all umple guarantees.

The socular papers give a florid description of the Ball to the Officers of the 62nd and 63rd Regiments, on Wednesday evening last. It seems to have been a grand affair, and if it be true, as is stated, that it cost £000, it will offined some also of the wealth of our City, and how little the money is regarded when the occasion is one which touches the patriotism of the people, or the credit of the country.

We understand that within the last ten days our Banks have either contracted their discounts, or stopped discounting altogether. The cause is said to be a pressure upon them for gold, on the part of the Managers of the new Bank. The Money may ket is quite tight in consequence. The inconvenience however, can only be temperary.

The baptism of the Imperial Prince, son of Napoleon III. and Eugenie, was celebrated with great pomp and ceromony, in the ancient Church of Notre Dame at Paris, on Saturday the 14th ult. by the Cardinal Legate of Rome. There are now three hopes of France abroad upon the theatre of events, besides a whole host of expectants, who hope for a chance in their favor, royal or republican, in the mutation of the affairs of that fickle nation. The papers generally, and somewhat unaccountably, omit the given name of the Prince. What is your name mon enfant-N. or M.?
