Increased receipts by Water, N. S. Coal Montreal 1908 over 1906.....

" " " Am. Bit. " " 1908 over 1906..... 66 715 tons

" " " N. S. " " Sorel 1908 over 1906..... 127 000 tons

" " " " " " Quebec 1908 over 1906..... 7 500 tons

" " " " " " Quebec 1908 over 1906..... 105 000 tons

Total N. S. increase to Province of Quebec 218,000. Am. total bituminous by Canal, 167,000. For the 12 months of 1908 probably 180,000 tons of Am. Bit. coal came in by rail. Assuming these figures to be correct the increase of Am. Bit. coal into Quebec, far exceeds that in the N. S. receipts. This may well cause, not only the operators, but the miners—in C. B. especially—to do some strong thinking.
