

Therapeutic Notes.

WE CANNOT BE TOO OFTEN REMINDED.—In treating diseases of women, particularly those due to Menstrual Irregularities, Hayden's Viburnum Compound, enjoys an enviable reputation.

Young girls arriving at womanhood are relieved of many of those agonizing sensations incidental at this critical period by the administration of "H. V. C." In painful or delayed menstruation it affords relief and the genuine "H. V. C." can be prescribed with an assurance of satisfactory results.

THE STAGE OF EXHAUSTION.—In the treatment of alcoholism and dipsomania, the physician is called to the case at the stage of exhaustion or prostration and the general derangement of nearly every function. Neurosis, cerebral congestion, cardiac acceleration, gastric and mesenteric disturbance, nausea, retching, intolerance of food, intense irritation, insomnia and an endless variety of morbid sequelæ, require prompt attention.

It will be found that antikamnia in combination with codeia will give a most prompt and satisfactory response in relieving all the array of symptoms so distressing and usually so obstinate as to defy all ordinary therapeutical interference. The best method is to administer one Antikamnia and Codeine Tablet (antikamnia gr $4\frac{3}{4}$, codeine gr. $\frac{1}{4}$) every fifteen minutes to a half hour, until three are taken, then widen the interval to one and a half to two hours, according to the urgency of the symptoms. Under this treatment the circulation will modify, the cardiac pains subside, the tremor, anxiety and morbid vigilance will give away to rest, quiet, calm and peaceful sleep. The nausea and vomiting, together with the irritable coughs which so frequently characterize these cases, will all disappear.

The superior results obtained with "Antikamnia and Codeine Tablets" are due in a great measure, to the fact that the manufacturers refine and purify all of the codeia which enters into these tablets, and this prevents the constipation, depression and habit which frequently follow the administration of preparations containing ordinary commercial codeia.

SANMETTO A SOOTHING REMEDY TO THE IRRITABLE OR INFLAMED GENITO-URINARY TRACT.—I am well pleased with Sanmetto. It seems to divest the urine of its morbid or irritating properties, and has a soothing tendency in case of irritable or inflamed urethra.
