APPROPRIATION STOCK.—Subscribed Capital \$3,000,000
PERMANENT STOCK—\$100,000—Open for Subscription Shares \$100 00 payable ten per cent quarterly.—Dividends of nine or ten per cent can be expected by Permanent Shareholders; the demand for money at high rates equivalent by compound interest to 14 or 16 per cent, has been so great that up to this the Society has been unable to supply all applicants and that the Directors, in order to procure more funds, have deemed it profitable to establish the following rates in the SAVINGS DEPARTMENT:
For sums under \$500 00 lent at short notice..... 6 per cent
For sums over \$500 00 lent at short notice..... 5 " "
For sums over \$25 00 up to \$5,000 00 lent for fixed periods of over three months..... 7 " "
As the Society lends only on Real Estate of the very best description, it offers the best security to Investors at short or long dates.
In the Appropriation Department, Books are now selling at \$10 premium.
In the Permanent Department Shares are now at par; the dividends, judging from the business done up to date, shall send the Stock up to a premium, thus giving to Investors more profit than if they invested in Bank Stock.

Ayer's Cherry Pectoral,

For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping-Cough, Bronchitis, Asthma, and Consumption.

Among the great discoveries of modern science, few are of more real value to mankind than this effective remedy for all diseases of the Throat and Lungs. A vast trial of its virtues, throughout this and other countries, has shown that it does surely and effectually control them. The testimony of our best citizens, of all classes, establishes the fact, that Cherry Pectoral will and does relieve and cure the afflicting disorders of the Throat and Lungs beyond any other medicine. The most dangerous affections of the Pulmonary Organs yield to its power; and cases of Consumption, cured by this preparation, are publicly known, so remarkable as hardly to be believed, were they not proven beyond dispute. As a remedy, it is adequate, on which the public may rely for full protection. By curing Coughs, the forerunners of more serious disease, it saves unnumbered lives, and an amount of suffering not to be computed. It challenges trial, and convinces the most sceptical. Every family should keep it on hand as a protection against the early and unperceived attack of Pulmonary Affections, which are easily met at first, but which become incurable, and too often fatal, if neglected. Tender lungs need this defence; and it is unwise to be without it. As a safeguard to children, amid the distressing diseases which beset the Throat and Chest of childhood, Cherry Pectoral is invaluable; for, by its timely use, multitudes are rescued from premature graves, and saved to the love and affection centred on them. It acts speedily and surely against ordinary colds, securing sound and health-restoring sleep. No one will suffer troublesome Influenza and painful Bronchitis, when they know how easily they can be cured.

Originally the product of long, laborious, and successful chemical investigation, no cost or toil is spared in making every bottle in the utmost possible perfection. It may be confidently relied upon as possessing all the virtues it has ever exhibited, and capable of producing cures of mammoth as the greatest it has ever effected.
