BEATEN.

LONDON. Nov. 13.-It seems that Hou. Harrold Finch and Archdeacon Dentson have roused whatever satanic there is among the Liberals in Notingham and at Tauaton. Ac these places the first blood of the campaign was shed. In the former town, an open air meeting was announced to be held in the market place When the candidate, Mr Hatton, attempted to speak, he failed to make himself heard during a hall hour of offert, write stones were freely thrown at the gentiemen on the pistform. Me. Coarayne, Mr. Haron's agent, and his eye out, and two representatives of the press were and injured. Finally the candidate left under poster escore At Timoton a mass meeting in detence of the union of courch and state was also beld. Indignation has been aroused by the assertion made by Archdeacon Denison, that audiences might as well cheer for the devil as for Glulsons. Consequently, when the venerable architecton made his appearance, he was greeted with a storm of disapprobation, and the assembly refused to hear him Great confusion and violence prevaind. Chairs were smashed, heads were hurt, and the meeting termmated abruptly

GLADSTONE ON SCOTTISH PEERS. EDINBURGH, Nov. 13 - I'he Scottish Liberal clue gave a hanquet here to night in honor of the Earl of Roseberry. Mr. Gladstone, who was a guest, in proposing a toast to the prosperity of the club, deplored the fact that the bulk of the Scottish peers and squires belonged to the Conservative party. That fact, however, he said, emphasized the courage of the few Scott's Liberal prees, who, within the walls of the flouse of Lords, but the course to advent a liberal principal. had the courage to advocate Liberal princi ples and to maintain the cause of their nation against whatever odds and whatever disadvantages they might encounter.

The east of the city secreely contains a con n brick dwellings. If we more is few a house had caught it would be wrapped in one mighty flome, and the conve the burning pile would give out white cost while the flows on the edges were fitfully spitting high and far on every sate. The alleyways and streets for ten quares on either side of the burning out were filled with blanceed faces of women, crying children and great strong helpless men, who could do nothing in such a gair but crouch down for shelter from the piercing norther and watch the flones lick up the fruits of a lifetime. Although the victims number many of the wealthiest residents of the city, the great majority of those burned out lose the better portion of their fortunes, others their little all. Some families saved good deal of furniture, others barely scaped with the clothes or their back. The loss in personal apparel and household property can a ver be estimated and as not included in the previous estimate. The hotels are filled with nouscless people, and a citizens' committee is now at work apportioning the families to rooms and premises vacated for their use. Every dray and vehicle in the city is at work carrying strewn furniture, bedding and pictures to secure places. Thousands of people haunt the burnt district looking among the smoking ruins for valuable keepsakes or jewellery, as desert. Even the huge wooden water tanks and fences, sidewalks and telephone poles are all burned to white asnes. Here and is so improved since using it, ' 'I am like a twisted from and millions of carled nath our rich pended.

THE CALAMITY IS SO GREAT

that men cheke with tears in speaking of it. Some score of sick people were hurriedly removed current the conflagration, and mony tadies are reported prostrated to-day with the remible excitement of flesing from their comfortable homes. Galveston will probably make no appeal to the generouty of the outside world. Following close on the heels of the great strike, which inflicted a monied loss on the business men of Galveston of fully \$400 000, this commity is a climax to the ages and sore affliction of the Oleander city. The total area of the burned district is one

hundred acres and forty and one half blocks were swept clear of everything combustible. Four hundred houses were burned, and it is estimated by the relief committee that about one thousand families were remered homeless, the great majority of whom, especially the poorer ones, having lost everything.
As the fire started in the poor district, the people had little or no time in which to move their furniture, while the wealthier victims moved their valuable pic-tures and effects. Several of the finest houses, however, were burned without a single article of their contents being saved, so confident were the occupants that the fire would pass them by. The meeting at the Cotton Exchange this afternoon was largely attended by business men who immediately set about

providing RELIEF FOR THE HOMELESS AND SUFFERING.

A general relief committee, consisting of twenty-seven prominent citizens, was organized and a finance committee of five named. Besides these committees there are subcommittees for various sections of the burned district Contributions are pouring in. At the crizens' meeting at the Cotton Exchange S16,500 was subscribed. Capt. Jas. B. Eads, the well-known engineer, telegraphs \$1,000 from St. Louis. K'naman & Co., cotton huyers, of Houston, T-x., send \$500. Jay Gould, New York, \$5,000.

A. A. Fowle, general manager of the Boston Globe, telegraphs Mayor Fulton as follows: "What can the people of Boston do for the homeless in Galveston? Please answer. We will collect for publication, and do our best." Ford's "Mikado" company gave a benefit which netted \$500 for the sufferers to night. The City Council met in special ression this evening and voted a donation of \$15,000 for the sufferers. This makes \$31,500 already donated by the citizens of Calveston, which, together with outside donations, foots up a total of \$38,000. The loss is generally estimated at \$2,000,000 to to \$2,500,000. The total amount of insurance thus far ascertained is \$980,730.
