

## PUBLISHER OF DONOHUE'S.

## What the Great American Catholic Publisher Owes to Paine's Celery Compound.

The name of Donohoe's Magazine, founded by Mr. Donohoe, of Boston, in 1879, is known and respected throughout the English-speaking world.

Within the past year it has achieved almost marvellous success, and stands to-day peerless in its field, doing splendid work for greater religious tolerance and better economic conditions. This success has been won under the direction of its new publisher, Hon. Daniel P. Toomey, who in addition, is at the head of one of Boston's book publishing companies and is a representative from that city in the legislature of Massachusetts.

Mr. Toomey writes as follows in a candid and interesting letter:

"I believe in Paine's Celery Compound. If I tell you why, you may, perhaps, wish to publish my words. But even that does not deter me from writing you the truth. I have on sympathy with the man who helps tear down 'the bridge that carried him over.' Neither

do I sympathize with the man who hides facts just because their publication may promote the success of others. Paine's Celery Compound helped me. That's the fact of the case.

"Finding myself run down and getting into a state of nervousness, recently, I took the advice of a medical friend, and bought Paine's Celery Compound. Its use gave me strength, energy and buoyancy. Business cares were made lighter than before.

"I believe in the efficacy of Paine's Celery Compound."

Mr. Toomey's experience is like that of thousands of others.

Brain workers, those who suffer from debility, exhaustion, mental depression, sleeplessness, find Paine's Celery Compound a certain rejuvenator of the vital portions. Hard study among students is a direct cause of debility. Energetic action cannot be kept up in the brain

and stomach at the same time. If the mind be intently occupied with profound thought the nervous power will be concentrated in the brain, and the stomach being deprived of it, indigestion and disease ensue. Hence the weak digestion and sallow complexion of literary men and their constant complaint of ill health.

It is also true that a hopeful man or woman can do more work and get well faster than one in despair. From the first taking of Paine's Celery Compound a feeling of confidence in recovery comes over the invalid. New blood and fresh nerves energy give a hopeful outlook. Paine's Celery Compound hastens convalescence wonderfully.

In the spring and early summer, if ever, there is need of food for the nerves and brain. Paine's Celery Compound makes the weak strong; makes people well. Try it.

## COMING BACK.

About a hundred and fifty French-Canadian men, women and children arrived from Massachusetts and neighboring states last week. They intend to work in the bush till the factories in New England fully resume operations, but have left all their effects behind.

## SIR. CHARLES RUSSELL.

A London cable despatch has the following comment:

Sir Charles Russell's acceptance as the poet of Lord of Appeal with only a life peerage and a salary of \$25,000, which is a quarter of what he can earn at the Bar, would create surprise if it were not understood that it is the stepping stone to the Lord Chief Justiceship, with a real peerage if he wants it, and an added

10,000. Coleridge has till fifteen months to serve before he can retire on a full pension, and with the thrifty views of his family he will not do so then unless his son Bernard is made a judge. This will be done, and Russell will get promotion if the Liberals are then in power.

The malleability of gold is so great that a sheet of foil, it is said, can be beaten as thin as a slice of ham in a railway sandwich.
