

Canadian business of the complex issues with which Canada is faced will confirm that the Government's stand is reasonable and responsible.

We shall continue to make every effort to improve opportunities for Canadian trade abroad - our record will show that we have this policy very much at heart. Our vigorous export promotion campaign is opening new markets abroad. Canadian exports have increased by 12 percent of our legitimate interests and aspirations. We in our turn shall be prepared to play our part in whatever changes may lie ahead.
