

Miles from
Quebec

turning out some of the largest fresh water passenger vessels in the world, as well as some of the largest grain carriers. It is the centre of a large farming area and of the fishing industry on the Canadian side of the lake.

The city owns and operates all public utilities. Built on a hillside rising in three natural terraces to a height of 250 feet, with wide streets permanently paved and electric lighted and with many handsome residences surrounded by well kept lawns and luxuriant foliage, Port Arthur is an attractive city.
