

DR. GLOBENSKY'S PECTORAL SYRUP

FOR ALL KINDS OF

Coughs, Colds, Bronchitis, Asthma, Whooping Cough, Consumption and Vomiting of Blood.

Read what the Clergy say about it :

1st.—That the REV. CHARLES LENOIR, Priest of the Seminary of St. Sulpice and Director of the College of Montreal, three years ago suffered from a Disease of the Lungs and a constant Cough, so that his state of health was regarded by every one as very alarming.

2nd.—That the gentleman having been treated by Dr. Globensky and having taken the medicine which he prescribed at that period, felt better immediately; the illness disappeared little by little; the cough ceased, and although he has not a very strong constitution, he has been able for nearly two years regularly to engage in his ordinary avocations.

MONTREAL, January, 1860. A. MERCIER, *P.TRE.*

N.B.—This letter has been given with the sanction of the Rev. D. Granet, Superior of the Seminary of St. Sulpice.
