LARGER OFFERINGS SEND CORN LOWER

Argentine Shipments at Cut Rates Expected to Arrive in Forty Days.

Chicago, Feb. 1 .- Corn averaged

Stons off 32c to 60c.

Somewhat greater willingness that rural owners displayed to part with holdings appeared to be connected with a renewal of work by shellers in East Buffalo, Feb. 1.—Cattle, re- important sections, especially of Illinois and Indiana. Prospects of colder weather seemed likely also perhaps to stimulate the corn movement. Bearish heavy and mixed, \$17.80 to \$17.90; b elanded in the United States at less ers, \$17 to \$17.50; upon \$2.50 to \$17.80; the york-than \$1 to bushel within the united States at less ers, \$17 to \$17.50; upon \$2.50 to \$17.80; the york-than \$1 to bushel within \$1.50; upon \$2.50 to \$17.50; upon than \$1 'a bushel. Wolldrawal of government buyers from the rye and barley markets was viewed likewise by many traders as an element of deend, but no lasting gain was scored

except by the February delivery, Oats were without snap. Slowness of shipping demand seemed to be chiefly responsible.

Abundance of hogs and the weak-

ness of grain curtailed enquiry for provisions. The fact that a temporary embargo had been placed on hog arri

BRANTFORD CUSTOMS RECEIPTS. Brantford, Ont., Feb. 2.—Customs collected at Brantford during January, 1919, totaled \$64,947. It is a considerable increase over the first month of 1918. Practically all export and import licenses have been rescind-

pony crate, \$7 per crate. The Story of the World's Greatest Gold Mine

In our discussions heretofore of the favorable developments on veins 14 and 15 of the Hollinger Consolidated, we have dealt only with the values at a depth of 425 feet in the coarse-grained lava. The fifth report on the property, from which our figures were taken, declares that "outcrops of quartz corresponding to these veins in location had been noted, but, like many other showings of similar nature, had received no special investigation."

The fact is that on the surface there was little to be seen, except the favorable formation, and the highest assay was only \$5.60. But development made these veins of "great importance." even to the big mine.

As our constant desire is to be absolutely fair to all buyers of stock, we must say that the propof Canada, Which Sells erties of the Sovereign Porcupine Gold Mines are as yet only prospects. Even on the 40 acres adjoining the Hollinger Consolidated there has been nothing which can be properly described as development, though an advance has been made towards the producing stage. There has been 5000 feet of trenching and stripping and a shaft has reached a depth of 60 feet. It shows values up to Montreal, Feb. 1.—A substantial \$9, and in the trenches tenors run from \$4 to \$8. But all we ask you to note here is that these volume of trading in the war loans results are fully on a par with, if not better than, those on our great neighbor at the same stage.

With the funds now being raised it is intended to continue the shaft to a depth of 400 feet, Wool—Unwashed fleece wool as to quality, fine, 50c to 55c. Washed wool, fine, 75c to 80c.

Stock Exchange on Saturday. The 1933 Victory issue continued to lead the bond list, ruling firm to strong at 101% to 101%. The 1922 and the 1923

We have the right formation, and this is the great desideratum, and in fact a pre-requisite to success. Nuggets, or even pin points of gold, dazzle the eyes of the inexperienced, but the clear-headthe former to 100% and the latter to ed mining expert places his money on the character of the formation. There must be ore in quantity sufficient to pay all costs of extraction and reduction, with a comfortable overplus for profit, and big ore bodies are found only in coarse-grained friable rocks.

A "tight" or close-grained terrain is now taboo in all parts of the north. A hard, fine-grained Canada was responsible for more than a third of the trading, and sagged back ½ to 58, its low of movement. Dominion held dull and without this, the miner is chasing a mere will-o'-the-wisp.

A "tight" or close-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north. A hard, fine-grained terrain is now taboo in all parts of the north.

In all our statements as to the Sovereign Porcupine we have exercised the greatest care. We transaction of interest was a lot of have been animated by a desire to place all the facts, and nothing but the facts, fully and fairly before Nova Scotia Steel at 47, against the local minimum of 66.

We are conversant with the conditions necessary to success in gold mining, and we confidently appeal for support in the development of the "Sovereign." There will be no disappointment market other than its dragging tone in this very favorable formation. When the original owners of the 160 acres, now the absolute property reflected, the unwillingness of im- of the Sovereign Porcupine Gold Mines, agreed to take 300,000 shares for their properties they commitments so long as New York certainly expected that these shares would go to par, because the 700,000 shares left in the treasury would fully develop the property. Now we want to call attention to the fact that this is the smallest capitalization in Porcupine. When the present offering of 100,000 shares is distributed there will be only 400,000 shares outstanding, and for every later issue of 100,000 shares full value will be obtained. In fact, development will be steadily adding to the value and price of the shares. We are giving you all the facts and figures as to the Sovereign Porcupine so that you can see the end from the beginning. Montreal, Feb. 1.—After the meeting of the directors of the Molsons Bank to day, it was announced that E. J. Chamberlin had resigned from the board of directors, and that J. W. Ross was elected to fill the vacancy, Mr. Chamberlin is in California, where he intends staying for some time, and it is understood that he is resigning all his Canadian duties.

All the facts and figures as to the Sovereign Porcupine so that you can see the end from the beginning. We believe in full information, fair dealing and absolute honesty. Moreover, we believe in giving others a chance, and we have tangible evidence that the public are now seeing the great opportunity which this offering presents.
