COUNTY AND SUBURBAN

Toronto Junction, July 29.—(Special).—The engineers and firemen of the Canadian Pacific Railway played a game of baseball with the coaches and brakemen in the Town Park this afternoon. McInerney and Maxwell were the batteries for the locomotive section, and Wilson and Etzle handled the ball for the trainmen. The trainmen made a big score in the first innings and kept the lead till the close, winning by 42 to 23. Bolduc was manager for the trainmen and O'Connell for the engine-men.

The Daughters of England will hold their annual excursion to Lambton Park to-morrow afternoon.

A strange dog which followed Mr. George from High Park this evening, bit his 2-year-old daughter very severely about the neck. Dr. Perfect attended the child and the dog was shot on Goswami Goodall.

East Toronto. James N. Langridge appeared before G. W. Ormerod, J. P., in East Toronto yesterday morning, charged with obtaining a suit of clothes from A. C. Coburn. From the evidence produced, the prisoner represented that he was about to inherit a fortune from his father who had lately died, and he must have a suit of clothes so that his appearance would be respectable when he went to get his money. The prisoner had been passing as a single man, but his brother says that he is a married man and left his wife and family of eight children in England some 12 years ago, and that his father has been keeping them ever since. His father is still alive. The magistrate committed him for trial at the next court of competent jurisdiction, with the alternative of appearing before the judge next Wednesday. It is likely that he will elect to be tried by the judge.

The Justice of the Peace had five small boys before the same magistrate, charged with stealing fruit from Mrs. Muller of Church-street. Four of them were dismissed and the other one was let out on a suspended sentence.

J. C. Jordan hires on Lee-avenue, just north of Queen-street, and when he moved in he put some plans leading up to the house on Tuesday night last, a number of young men of the St. Stephen's Church class, who are camping at New Beach, went out to look for firewood and on their way took Jordan's planks. Jordan soon missed his walk and had the boys summoned to appear before Magistrate Ellis yesterday afternoon, charged with unlawful taking of the wood. Andrew Campbell, William Hewitt, George Wood, Frank Horton and William McConachie were fined \$1 and costs. The remainder, William Partridge, Fred and William Jones, Harry Birmingham, Fred and Harry Jones, were allowed to go.

Sudden Death in the East End. About 3 o'clock yesterday afternoon Mrs. Charles Sheppard left her home on Berkeley-avenue to go into the city, as far as far as the waiting room at the junction of the Kingston-road and Queen-street east, where she sat down to wait for her husband. She was seated only a moment when Mr. James Lomas noticed her fall to the sidewalk. He hurried to her assistance and lifted her on the platform of the waiting room, thinking that she had been overcome by the excessive heat. He was surprised when her face and hands with water when he noticed her give a slight gasp and, much to his amazement, he found that she was dead.

Dr. Fraser happened along shortly afterwards and after an examination, he pronounced it a case of heart failure, accelerated by the extreme heat of the past few weeks.

The deceased, who was in her sixty-first year, has been subject to heart trouble for a number of years.

Coroner Atkins was notified, but did not deem an inquest necessary.

The funeral will be on Sunday to St. John's, Norway.

Weston. Weston, July 29.—(Special).—A grand opportunity missed appears to be the opinion of the school board on the result of the High School Board meeting. The Board decided some time ago to make various improvements to the school during the holidays, but half of the members on the Board realized, after the resolution was passed, that the improvements would be the principal without rooms for himself and family, and that the Board must either provide him with a house or his salary of \$1,150 a year would be diminished. The remaining members of the Board would not consent to the school without any improvements, and in dealing with the salary question at the proper time. The result has been that at the meeting last month some of the members broke up in a storm, and last night the secretary was instructed to notify the tenders that the improvements would not go on at present.

The Department of Education grant \$15 towards the teacher's residence, which they give when in connection with the building of a new school. The improvements contemplated would bring in a further grant of about \$40, the Department giving \$100.

A farmer near Aurora, whose peas had blossomed when the frost came, has a good crop of pods, but the peas inside are jet black.

Mrs. James Fitzhugh of Weston, while riding her horse, fell off a log and broke her arm above the wrist.

A lawn social will be held at "Fair Oaks," Oak Ridge, in aid of St. John's Church, this afternoon.

The American Christian Convention, known as the Quadrennial, is to be held in Newmarket next October. Between 250 and 300 American delegates are expected.

NO HYPNOTIC INFLUENCE

Physician Accused of Obtaining \$175,000 by That Means Exonerated.

London, Eng., July 29.—The celebrated case in which hypnotists were alleged to have been obtained by Dr. George Chaigry Kingsbury of Blackpool by means of hypnotic influence has come to a close, the verdict being in favor of the doctor and making him richer by \$175,000. The suit arose out of the will of Mrs. Harlette Howard, a rich widow residing in Blackpool, who died leaving \$400,000, of which the above sum was left to her medical attendant, Dr. Kingsbury, who had obtained some notoriety as a hypnotist. The will was opposed by the son of Mrs. Howard on the ground that undue influence had been exercised by means of hypnotism. The jury, however, found that no such means had been employed.

LIGHTNING KILLS THREE.

A Number of Houses and a Church Destroyed in Nebraska.

Red Oak, Neb., July 29.—Lightning killed three persons near here last night. Three farm houses were destroyed, and 25 head of cattle belonging to William Shapcott were killed. The Swedish Lutheran Church at Walnut street and the east of the town, Barstow lost his barn and 30 tons of hay. Nine horses in a pasture were killed. Serious damage to the corn crop was done by wind.

FLORENCE, WHO FOR YEARS TERRORIZED MOLDAVIA, KILLED BY GERMANES.

Braia, July 29.—The celebrated brigand Florence, who for years terrorized the district of Neamtz, in Moldavia, a Balkan state, committing numerous murders and robberies, was surprised by a crowd of gendarmes. Refusing to surrender, he fired at the gendarmes, who replied with a volley and killed him. The rest of the band escaped, though several were wounded.

A Seasonable Idea.

The average city folk who can afford to retire to some nearby summer resort and leave the appliances which they take a humble cottage on the beach or lake front will put up with any kind of inconvenience when they are in the room and take an article for saving room is the "radiant table," which can be used as a dining table, or as a table for the use of a parlor or dressing. It is furnished with cutlery, and can be wheeled back against the wall, leaving the centre of the floor perfectly clear. They are just what you require for your summer home, and are highly spoken of by all who have used them, and may be seen in all first-class business houses. Call at the agents, Messrs. Boswell, Dew & Company, 80 York-street, and see them.

A New Portfolio.

During the late election in South Essex for the Legislative Assembly, John A. Auld, M. L. A., was twitted upon the platform by the opponents that he was a member of a Government job. It was stated that the Pelee Island voters should stay at home, if ever they saw the Minister was made a member of the Ontario Cabinet, Mr. Auld would get the job. The Pelee Island voters, however, in the fisheries case this matter has become a live portfolio to deal with the fisheries. John A. Auld, M. L. A., South Essex, is the son of T. L. Pardo, M. L. A., Kent, and all after the plum, with the gathering of the clan on Aug. 5 some rich lobbying may be expected along this line.

Special From the Piggery.

Inspector Noxon reports that the piggery was never in a more solid condition, financially, ethically or physically. The place is thoroughly sanitary, and not a single one of the 200 pigs has a kick coming either against the Government or Mr. Isaac Warner, their keeper, of whose abilities in the study of porkology the inspector seems to have a high opinion. For a period of from two to three months Mr. Warner made a test, and reported that in a certain drove they had gained a pound and a quarter a day, and under his care no pig liver oil was used, attention being paid to the most elementary of the rules of the health. This is a fine showing if we were all as healthy as Mr. Warner's pigs we would be all right.

Cooler With Showers.

Yesterday was a day in which people felt warm. Mr. Stupart admits 93 degrees, the lowest being 70 degrees, and this made it warm. The western cool wave, however, is coming. It is en route, at the special request of Mr. Stupart, in answer to numerous complaints from citizens.
