The new Markets Committee met to night, with Ald. Nicholson in the chair. The aldermen started out in an economic mood, as is the custom of new aldermen. They decided, among other things, to appoint Ald. The Rossia and Novosti alone touch the political chord. The Rossia says: "England's prestige is largely due to the Queen. To spare Queen Victoria must have been forgiven her Minister. With her departs Britannia's good gentus."

The Novosti says: "England is diffantented with the situation, and the dissatisfaction possibly will be expressed more plainly if Queen Victoria shall die. Her stecessor probably will entertain different views on many questions. He is credited with strong French sympathies. The power of an English sovereign is greater than commonly stated, therefore the change may produce a revolution in international politics."

Hamilton, Ont., Jan. 21.—(Special.)—A meeting of the Board of Cemetery Managers was held to-night. No business was transacted. J. J. Mason presented a three-thousand-word report of the board's work, and an excuse for its existence for another year. At the suggestion of Mayor Hendrie the report, was simply received. Another meeting will be held shortly. The general opinion is that the board will be abolished and a new superintendent of the cemetery installed.

Minor Matters.

At the Police Court this morning disgusting testimony was given in the case of John H. Blackburn, Herkimer-street, who was given in the case of John H. Blackburn designs of committing an unnatural offence. A married sister, Mrs. A. Borden, swore she saw Blackburn commit acts of indecency with another sister. Letitia, who is weak minded.

Blackburn denied the charge, and a cused his sister, the complainant, of being guilty of immoral conduct. The magistrate declined to commit the prisoner for trial, but soid the Crown Attorney could, of course, have Blackburn indicted before the grand jury if the detectives got any further evidence against him.
