Big Broker's View of the Wheat Bulge.

Part Speculative but "Half of the Rise Is Solid Advance."

The Feeling in Toronto - Chicago Wheat Touches the Highest Point This Year.

London, Oct. 21 .- At the Baltic yesterday the wheat market opened 6d under Monday's closing figures, but prices stiffened later, holders demanding Monday's top price. There was little doing, however. A representative of the Associated Press had an interview with the broker who does the largest business in wheat on this side of the Atlantic, in regard to the situation. He said, in substance:

"In half, the natural half, of the speculative course, we have only fol-Leafs against the Asylum, the games lowed the lead set by the. United to be played, rain or shine, and any of the teams not showing up on the States, where speculators are very active. The year's scarcity, in spite field will lose the match by default, as in the case of last Saturday's of the fact that England had a 7,000,-000-bushel crop, has induced speculators to rush in. Russia is poor, and Austria is practically nil, but, what is of greater moment, consumers having large advance milling contracts, also rushed in to secure supplies. even at top' prices, which are 20 per cent higher than last week.

"The California wheat sent to India as yet is only a drop in the bucket, but the moral effect of this movement, and the coming famine in India, have been very great. Of course, if rain falls, quantities of California wheat will not be wanted; but I doubt this, and, coupled with the viceroy's grave telegrams, it naturalby affords speculators the real element of uncertainty they delight in Still, this does not account for more than half the rise; the balance is solid advance, owing to shortness of supplies. We shall follow the United States closely, however, and the speculators who force the market. A rise in freights has at all times been in advance of a rise in wheat, and the demand for steamers is most brisk. The closing of the Sea of Azov early in December will free numbers of ships to load elsewhere, though at present the Azov boats are loading

as rapidly as possible IN TORONTO.

Toronto, Oct. 21.-Notwithstanding early markets at Chicago, local wheat market was very firm yesterday. On the street 300 bushels of white wheat sold at 82c, an advance of 2 cents, and Mani- on to Granton, where he left his train, toba wheat was also higher and hard and taking with him Messrs. Robert to get. No. 1 hard sold, afloat, Fort and Hugh Radcliffe, and Wm. Brown, E KINCARDINE HIGH SCHOOL William, at 84c, and at Toronto and west at 93c. Sales were reported at Midland Monday night at 90c. Ontario wheat, north and west points, is tory were held at the Kincardine high school on Tuesday. The events and winners were as follows: worth about 80c, but buyers say they are unable to get any, as farmers have 100 yards race, boys (senior) over 115 It is expected that flour will go higher if prices even hold, and an advance 440 yards race-Peterson, Miller, in the price of bread is daily expected.

AT CHICAGO. Chicago, Oct. 21.-Wheat closed yesterday at the highest point thus far for the year. Early indications gave no intimation whatever of the boom which was seen in the closing halfhour. Some indifference abroad was disclosed by the cables, and especially those fi m Liverpool. America looks to Europe for direction in the present instance, and when a decline at the place mentioned was reported, then enthusiasm here underwent modification. Bradstreet's was expected to announce a big increase in the world's stocks, and on that prospect a few of those people who have not yet been convinced of the legitimacy of the advance were tempted to sell a little wheat short. When it was learned that the report would be made public at once there was a change of front, no one caring to remain short over night. Then when sales of 300,000 bushels at New York for export to Lisbon were reported, together with heavy gold importations, the sentiment rapidly assumed a bullish ap-pearance, and from that time until the close it was only a question of how Junior events—Wheelbarrow race— high prices would go. Berlin, Paris Collins and McKenzie, Darling and Antwerp all quoted advances corresponding with ours of yesterday.

Winnipeg, Oct. 21.—There was con-tinued excitement in the grain market here yesterday, and everywhere the greatest confidence was expressed that the price of wheat would go still higher. Several of the leading dealers have made small fortunes out of the rise in prices. It is estimated that about one-half of the Manitoba crop

is now in the elevator. At all points in the country the farmers have been selling moderately, as they always do at a rising market. The millers are still buying as actively as circumstances will permit of, for it is generally admitted that their requirements are large, as the present demand for Manitoba flour is unprecedented

Manager Thompson, of the Ogilvie Milling Company, interviewed, said: "Our opinion is unchanged. The advance has come to stay. The position of Oakland. Of the ship's crew the everywhere is very bullish, the con-sumptive demand from all parts being comparatively heavy. Europe is buy-ing freely and the demand from England specially astonishes everybody, Eggs, butter, cheese, and in fact products of all kinds are being bought up and prices are increasing to follow suit with the grain. Although the Chicago markets have eased off a little. still the undertone is particularly strong, and the bulk of the speculators are undoubtedly relying on \$1 per bushel wheat. When it is considered on the 17th inst. for Coo's Bay. She arrived Monday, discharged her cargo and sailed for San Francisco next that the world's supply is 200,000,000 also damage to European crops, there seems some ground for the belief.

THE NELSON COLUMN

Decerated in Memory of the Battle of Trafalgar.

London, Oct. 21.—A quiet celebration occurred on Trafalgar Square here today. It was the anniversary of the day. It was the anniversary of the battle of Trafalgar, fought on Oct. 21, 1805, when the British fleet, composed of 27 vessels, under Admiral Nelson, defeated the combined French and Spanish fleets, under Admiral Villeneuve, and two Spanish admirals, off Cape Trafalgar, south of Spanish

He disappeared on Oct. 10, and forgeries amounting to between \$200,000 and engaged upon the work of decorating the Nelson column, and today that smounting to between \$300,000 and the Nelson column, and today the \$500,000 are charged to him. The total amount of his alleged shortage is not pearance. The shaft was prettly en-

twined with garlands of laurel leaves, and the naturally grim appearance of the lions was considerably modified by the laurel leaves with which they were covered. In addition, the plinth of the monument was buried beneath beautiful floral wreaths, sent by the Navy League, a patriotic organization, formed to stir up public sentiment as to the needs of the British navy, from political clubs, ironclads. navy, from political clubs, ironclads, or other war vessels, veteran officers or patriotic associations, etc. One wreath attracted particular attention. It was inscribed:

"From the Daughters and Grandson of a Midshipman Aboard the Neptune at the Battle of Trafalgar." "While the celebration today is re-

garded by the newspapers of France as being in the line of a significant hint in connection with the Czar's visit to the French capital, it is looked upon in certain circles here as being more in the nature of a hint to Germany that Great Britain, in spite of the weakness of her army in early history, has been able to make herself cted in the past, for there is no doubt that the taunts of the German newspapers have aroused more real event or uttenances for years past.

Right Worshipful Bro. W. G. Mc-Millen, D.D.G.M., accompanied by several London brethren, paid Dela-ware Valley Lodge, A., F. and A. M., an official visit on Friday evening, and were well received. After the labors of the evening were over a social hour was spent in the library, where the time passed in recitations, songs and speeches.

His Lordship the Bishop of Huron administered the rite of confirmation to 20 candidates at the morning service, and conducted the thanksgiving at the evening service, at Christ Church, Delaware. In the afternoon service was also conducted by his lordship at Burwell Church, Caradoc. Both services were well attended.

GRANTON. Advertiser Agent, J. A. Grant. The Advertiser correspondent furrishes the following details of the terrible tragedy on the Grand Trunk Railway, between St. Marys and Granton, a brief telegraphic account of which appeared in these columns on Monday: Richard Hayes was a young, unmarried man, who, with his sister Anne, occupied a farm, on con. 10, Blanshard, near the St. Marys gravel road. They had driven to St. Marys on Saturday to do some business, and visit their mother and brother, who live there. They left their mother's house about 10:30 in the evening for their home. On reaching the Grand Trunk crossing, near what is known as Shotbotham's Corners, their rig was struck by a west-bound freight train, and both were instantly killed. The driver of the engine knew that he had struck something, and came

There they discovered a sight which made the stoutest heart quail. The body of the brother was found by that of his sister, over in a neighboring field, where they had been thrown by the force of the impact. The buggy, which was a closed-top one, was smashed to atoms. The horses, on becoming detached, ran on towards Thinking it advisable to notify a coroner before the bodies were remov-

ed, the driver ran his engine back to Stratford, and brought one up. A jury was immediately empaneled from those present, and after viewing the bodies and surroundings, the coroner adjourned the inquest until Thursday. In the meantime the friends of the deceased were notified, but it was not until 5 o'clock on Sunday morning that the bodies were removed to the house of their mother. The sad oc-currence has cast a deep gloom over the entire community. This crossing is an especially dangerous one, on account of the view being obstructed by banks on either side of the road. It is not many years ago since Mr. Willson Kennedy was killed at the same crossing. Also about the same time Mr. Powe, of Biddulph, had a valuable team killed, and had a very narrow escape him-self. It is time that some provision was made for the protection of life and property at this dangerous place.

In Regard to Use of City Water - The Commission Will Deal With the Matter,

Contractor Mills, of Hamilton, has not replied to the letter sent him by the secretary of the water commissioners relative to the use of city water at the car shops. Mr. Mills began work at the shops a few weeks ago, without notifying the board. His action with regard to the letter and his action in taking the water were reported at the meeting yesterday. "Maybe Mr. Mills doesn't intend to pay," said Chairman Cowan.

"But he will have to. All contractors pay," Mayor Little said. Mr. Cowan-What shall we do? The Mayor—Cut him off.

A Story of Alleged Wrong-Doing - The Bride Returns to Her Parents.

Toronto, Oct. 21 .- Mrs. Edward Sleman, who has been a bride but a few weeks, lies at the residence of her father, Mr. Thos. Reynolds, No. 816 Queen street west, suffering from shock and nervous prostration, the result of an experience that few young girls have been called upon to endure.

Mr. Reynolds and family formerly resided in Guelph, and in this way their young daughter Minnie, a highly cultured and beautiful girl, became acquainted with Edward Sleman, sor of Mr. George Sleman, the well-known proprietor of the Silver Creek Brewery. Young Sleman, who acts as book keeper for the firm, and is also president of the electric street railway company, of Guelph, courted Minnie when the family resided in the Royal City, and when they removed to Toronto he regularly visited her and wrote to her. She had visited the family several times, and was so beloved by Edward's parents that they were anxious that their son should

A few weeks ago she went to Guelph on a visit, and one afternoon, she states, she and young Sleman slipped quietly away to the residence of Rev. Mr. Belt, the Church of England clergyman, and were married, returning at once to his father's house. An hour later, in an outburst of confidence, Edward's sister, so Minnie states, told the young bride a story of alleged wrong-doing that shriveled up her love, destroyed her newly-found happiness, and drove her in despair from the man to whom she had so shortly before plighted her faith at The same afternoon she returned to Toronto, confessed her marriage and her reasons for having deserted her husband in an hour, and since then

has been in a condition of nervous collapse from which her parents have as yet found it impossible to arouse The story which Mrs. Sleman says she heard involves the character of

another young lady in Guelph, but Mr. Sleman claims that there is no truth whatever in the allegations.
