27th Annual Report

Confederation Life Association.

GRATIFYING INDICATIONS CF PROGRESS.

Increase in New Business, Decrease in Death Claims, Decrease in Expense Ratio.

The twenty-seventh annual meeting Loans on policies and stocks 804,224 52 of the Confederation Life Association was held at the head office of the com-

There was a large attendance of those interested in the affairs of the

Hon. Sir W. P. Howland, president, was appointed to act as chairman, and Mr. J. K. Macdonald, managing director, as secretary.

After the usual formalities the following report and statements of the affairs of the association for the year 1898 were presented:

REPORT.

The directors herewith lay before the policyholders and shareholders the re-port of the business for the year 1898, and in doing so they feel that both policyholders and shareholders will find ground for congratulation with the results of the operations for the year. The business generally has been well maintained, and a satisfactory volume of new business has been secured on the lines which have gu. led your directors in the past.

There were received during the year There were received during the year 2,381 applications for a total new insurance of \$3,383,393; of these 2,251 for \$3,164,443 were approved; 118 for \$205,450 were declined, not coming up to the company's standard, and 12 for \$13,500 were deferred for further information. Including bonus additions, the new business for the year was \$3,186,450. The total business in force at the close of the year was \$29,677,418, under

19,950 policies on 17,106 lives. The claims arising from death among the insured were very favorable, and considerably under those for the pre-vious year. There were 99 deaths, call-ing for the sum of \$183,931 under 112

The valuation of the policy and annuity obligations of the association has been made on the conservative basis used for the two previous years, namely, a rate of interest at 31/2 per cent. for all business written since 1895, and 4½ per cent for business written prior to that date. The usual financial statements are

herewith submitted, and they will be found to exhibit the position of the company at the close of the year. The auditors have continued to make their audit each month, and their re-

port will be found appended to the financial statements. By reference to the financial statements, it will be noticed that substanpolicyholders in the way of profits, the sum of \$85,390 22 having been paid during the year. Taking the last four years, a total sum of \$345,276 has been paid to policyholders in this way, giving an average of \$86,319. During the same four years the net interest and rents received have been sufficient to pay the net claims arising from deaths, and leave a surplus of \$153,840; and, during the same period, the expense ratio has been gradually brought down, a result, in view of the volume of new

business maintained and the existing conditions, your directors believe will bear most favorable comparison. Your directors, after careful consideration, concluded that the improvement in business generally would warrant them building on the vacant land on Queen street, which forms part of the head office block, and they have accordingly erected a three-story brick building containing eight stores and two flats, the latter used as showrooms. All were occupied as soon as finished. The balance of the vacant land south of the stores has been ground-rented, and the lessee has erected a brick building thereon for warehouse purposes, so that what was nonp ductive is now yielding a very fair

return, in addition to paying taxes and all other charges. Your directors also, though receiving a good rental for the Yonge street shops in the head office building, deemed it wise, when the corner store became vacant some time ago, to make changes in the construction of the fronts on Yonge street and part of Richmond street, by which the heavy piers, which were undesirable from a commercial standpoint, will give place to a construction that will admit of more window space, and by that means be more suitable for the purposes for which the space is likely to be used. These changes are now being made, and will shortly be finished, and the whole space has been let at satisfactory rentals, and will be occupied as soon as the changes are completed. It will also be satisfactory to learn that the head office building is filling up with good tenants at fair rentals and with good prospects.

Reference was made in the last annual report to the returns from the properties taken over in the city of To-ronto, and your directors are now able to report a still further improvement the returns, with better prospects for the present year both as to rents and sales.

The directors are pleased to report continued diligent and faithful services on the part of our field staff, and also of the employes generally. All the directors retire, but are eligible for re-election.

AUDITORS' REPORT.

We beg to report that we have complete the audit of the books of the association for the year ending Dec. 31, 1898, and have examined the vouchers

the financial statements agree with the books and are correct. The securities represented in the assets (with the exception of those lodged with the Dominion Government, amounting to \$84,500, and those deposited with the Government of Newfound-land, amounting to \$25,000) have been examined and compared with the books of the association, and are correct and correspond with the schedules and

The bank balances and cash are certified as correct.

W. R. HARRIS, R. F. SPENCE,

Toronto, March 4, 1899. Sir W. P. Howland, president, in moving the adoption of the report and

financial statement, said: "It affords us sincere pleasure, gentlemen, to be able to present you with on Friday. the report and statements in regard to the business and position of the ecmpany which you have just read. They afford evidences of satisfactory progress and success in every department of the company's business. The new business secured during the year, notwithstanding the increased competition, was somewhat in excess of that obtained in the previous year, and at the end of the year we had insurances in force, aggregating \$29,677,418, an increase of \$1,345,413 over the amount in force at the end of 1897. This large satisfactory and has all been obtained while the expense ratio of the company has been less than that of any previous year, which proves that the business of the association continues to be of a permanent and reliable character. The death claims for the year aggregated \$183,931, which were \$59,893 less than those of the previous year. Our financial statements show an increase in income for the year of \$46,670. There

was paid to policyholders during the year the large sum of \$455,973, and our eash surplus over all liabilities, accordvaluation, is \$416,206, an increase over the previous year of \$50,367. 'We consider that these facts fully justify us in the belief that they will will insure the continuance of the gen-

erous support which the company has other property. Loss estimated at received from the public." Mr. W. H. Beatty, vice-president, in seconding the adoption of the report,

"I will just make one remark, which

I am sure you will be delighted to hear, and I think it will be particularly gratifying to the gentlemen of the country. field staff, namely, that this year down The inc to the present time the business secured is largely in excess of that for the corresponding period of last year, and greater than that of any previous year.'

Mr. W. Macdonald, in moving the resolution thanking the president and directors of the association for their faithful attention to the affairs of the company during the past year, said: 'I do not think, in view of the report which we have just heard read, and the remarks of the president and the one remark made by the vice-president, that a resolution of this kind ought to be considered of a formal character. As a policyholder I have had a great deal of satisfaction in substantial reductions made upon my premiums out of the profits, and I have been a shareholder with very considerable satisfaction to myself; and while it is true that the president, vice-president and directors are in one sense doing no more than their duty in looking carefully after the affairs of the association, as has been done last year, yet I think that it is due to them that there should be an earnest word of appreciative thanks, seeing that the duty has been so well discharged as in the present case. I therefore have much pleasure in moving this resolution."

Rev. Mr. McGillivray, in seconding this resolution, said: "I share very fully with the pleasure of the mover of this resolution in rising to second My pleasure does not reach quite as far as that of the mover. He is both a policyholder and a stockholder. I only have the privilege of being a policyholder in the Confederation Life Association, but I feel in that particular I have, in common with all policyholders, a very good and a very safe investment, and if it does not yield any very immediate returns, it is sure to yield very satisfactory returns in due time, if not to myself, to others." "No one can read the statement or hear it read without being fully satisfied with the very satisfactory way in which the business of the association has been conducted and prosecuted dur-

455,9/3 78 ing the year. "It is interesting to notice that the income from premiums is very near the million mark and that the income from interest and rents has been more than sufficient to pay all the death

claims during the year.
"Speaking for the policyholders, and as one who has now been a policy-

great pleasure in expressing my entire satisfaction with the way in which the business of the company is conducted, and the splendid exhibit which has been presented to us of the past year assures one that the greatest possible tare has been bestowed upon our affairs by the directors and officers of the association, and with very great

satisfaction I second the resolution proposed by Mr. Macdonald."

A resolution thanking the officers, the members of the agency and office staffs, for their faithful service in the interests of the association during the past year, was proposed by Mr. W. H. Gibbs and seconded by Hon. James Young, and replied to by many of those present, the members of the field staff generally expressing themselves as nighly gratified with the very encouraging report of the operations of the as-sociation for the past year which has been presented to the meeting.

All the retiring board of directors were unanimously re-elected, and at the meeting of the new board, held immediately after the adjournment of the annual meeting, Sir W. P. How-land, C.B., K.C.M.G., was re-elected president, and Messrs. Edward Hooper and W. H. Beatty vice-presidents. Mr. Fred H. Heath, general agent, and Mr. George Pritchard, local agent, are the representatives of the company

FOOT CUT OFF

Express and Freight Trains Collide at Shakespeare-Bad Accident to the Fireman.

[G. N. W. Special to The Advertiser.] Shakespeare, Ont., March 18.-The morning eastbound fast express collided with a westbound freight train at this station this morning. Both engines and several cars were smashed.

The fireman of the freight had a foot cut off. So far as known no one else Both firemen are seriously injured, but may recover. The passengers es-

caped uninjured. connected therewith, and certify that
