Annual Meeting of Shareholders

The Eleventh Annual General Meeting of the Shareholders of the National Trust Company, Limited, was held in the Company's Board Room, 20 King Street east, Toronto, on Wednesday, the Twenty-seventh day of January, 1909. The President, Mr. J. W. Flavelle, was in the chair, and Mr. W. T. White, the General Manager, acted as Secretary to the meeting.

The Secretary read the Eleventh Annual Report of the Directors, and the Financial Statement, as follows:

The Directors have pleasure in submitting herewith their Eleventh Annual Report, showing Statement of the Assets and Liabilities of the Company as at 31st December, 1908, together with the Profit and Loss Account for the year ending on that date. The Net Profits, after providing for all cost of Management, Salaries, Ad-

vertising, Auditors' Fees, and other expenses, amount to \$138,522.02. The sum of \$13,515.11, brought forward from 1907, makes the total at credit of Profit and Loss Account \$152,037.13, which has been appropriated as follows: (a) To pay four quarterly dividends at the rate of eight per cent. per an num, amounting to \$80,000.00.

(b) To increase Reserve Fund \$50,000.00. (c) To carry forward in Profit and Loss Account, \$22,087.13. The Reserve Fund now stands at \$550,000.00.

Respectfully submitted, J. W. FLAVELLE,

The President, in moving the adoption of the report, said:

It is with more than usual pleasure that I present to you the Report of the Directors for the year 1908. We are just emerging from a period of world-wide financial stringency and business depression and yet, so fortunate are we in this wonderful country of ours, with its great-extent of territory and marvelous material resources, that practically all our financial institutions are showing net earnings, but slightly, if at all, diminished from those of what was a deemed the period of almost abnormal prosperity immediately preceding. This condition must, in large measure, be attributed to the continuation of our agricultural prosperity by reason of a bountiful harvest and good prices for farm products, the progressive economic development of the country through railway construction and increased immigration, and the great production of wealth in the new mineral region of Northern Ontario. It also reflects unmistakably the confidence of the public in the strength and stability of our banks, insurance, trust, and loan companies, and in the character of their management. Nor should we overlook the immense advantage accruing to the country by the steady influx of British capital, without which great material texpansion would be impossible. It is most gratifying to note the general realization of this fact not only by financial institutions and those railway and other companies which must find a market for their securities abroad, but by the public as a body. As a result there has grown up among us an earnest conviction and appreciation of the benefits which we enjoy as a borrowing in ation, and a determination to conserve and expand such a relationship by observing to the utmost the principles of fair dealing and the strict fulfilment of all obligations. It is gratifying to reflect that on the whole the class of securities offered by Canadian enterprise to the British investor during recent years has been of a very high and satisfactory charactef.

Turning n The President, in moving the adoption of the report, said :

1901 \$78.097 91 1902 \$3,206 05 1903 \$9,359 94 1904 92,620 90 1905\$112,819 78 1906 122,442 44 1907 133,828 87 1908 138,522 02 During the year, your Directors, feeling that the earnings of the Company were such as to abundantly justify their action, increased the dividend to eight per cent. After payment of this dividend they have been able to add \$50,000.00 to the Reserve and carry forward in Profit and Loss Account the sum of \$22,037.13, inclusive of \$13,515.11 from the preceding year. The Reserve now stands at \$550,000.00, of which \$300,000.00 has been contributed out of earnings, the balance representing the premium at which the Company's Capital Stock was originally subscribed.

It will be gratifying to the Shareholders to note that the total assets under administration by the Company amount to \$17,021,994.72, an increase of \$2,703,784.66 over the previous year. The figures since 1904 are as follows:

1904 \$ 7,818,538 54

With regard to this aggregate amount, the sum of \$8.511,265.74 represents the value as entered upon the books of the Company of the assets under our care as Trustee, Executor, Administrator, Guardian or Agent. The increase of \$1,594,442.84 over the previous year attests the confidence increasingly felt by the public in the Company acting in these capacities. There is no branch of the Company's business at any of its offices which re-There is no branch of the Company's business at any of its offices which requires or receives more diligent attention and painstaing care than the Estates Department, and our officers again desire to draw attention to the excellent organization we have provided for the realization of trust estates and safe investment of trust funds, in cases where the Company acts as Executor and Trustee under Will. The Real Estate Departments at our several offices have been able to render excellent service to clients and contribute substantially to the earnings of the Company from commissions derived from sales and contribute substantially to the earnings of the Company from commissions derived from sales and contribute substantially to the earnings of the Company from commissions derived from sales and contributes.

Trust Account, I am able to assure the Shareholders that our bonds, stocks and municipal debentures are a very carefully selected body of high-class securities, entered on the books of the Company at a figure well within their present market value. As to our call loans it will suffice to say that they are well limited as to individual amount and upon a very liquid class of security. Our office premises in the several cities in which we are represented have naturally increased in value with the growth of our population and prosperity, and represent a very substantial asset, not only having regard to their use by the Company for its own purposes, but intrinsically, quite apart from such use, as well-situated business property. As to mortgages, which constitute the major portion of our investments, our experience has been of the most satisfactory kind. Our loans, made with great care upon residential city property of the better class, and cultivated farms in Ontario and the Western Provinces, have proven excellent securities. Notwithstanding the unsatisfactory crop of 1307. I am glad to be able to say that interest payments curing 1908 in the Provinces of Manitoba. Saskatchewan and Alberta were exceedingly well met. As to Ontario mortgages, the record has been the same as always in our Company's experience, namely, interest promptly paid on maturity, indicating in the most conclusive way the prosperity of the borrower and the sound nature of the security.

In conclusion, I desire, on behalf of the Board, to gratefully acknowledge the services during the year of the Resident Directors of Montreal, the Advisory Board at Winnipeg and Messrs. Thomson, Dickson and Shaw, the Company's Agents at Edinburgh. It gives me great pleasure to once more refer to the excellent character of the services rendered by the officers and staff in the performance of their duties at the several offices of the Company.

The report was unanimously adopted.

A vote of thanks to the General Manager and staff of the Company was passed, after which the following were elected Directors of the Company for the ensuing year:—
