ANY HANDS make light work" is an old saying that is quite true, but in these days of scarcity of help, such aids in housekeeping as are mentioned on this page are almost a necessity in many homes—certainly a great convenience in all. The day's work can be accomplished with little effort and allow time to enjoy such a scene as pictured in the heading, the

Victrola being also offered as a suggestion of a handsome gift for the bride.

#### Merits of the

Durable, Efficient and Moderately Priced at \$27.50.

Electro-Vac

ND THIS LAST is a very strong argument in its favor, for it is marked at the same figure as the usual price in the United States, the place of its manufacture. Its remarkable efficiency is assured by these special features :--

A graded scale bar, making it possible to adjust the suction regulator for rugs of either very short or very long pile.

A motor that is fully guaranteed by its maker (independent of the guarantee of the Electro-Vac) -placed horizontally and so assembled that it cannot come out of position.

machine can be raised when necessary to run from one rug to an-Two auto roller bearing wheels

which do not need oiling. Oil reservoirs which insure a constant

supply of oil, prevent overheated bearings and need filling only once a year. A self-adjusting brush located in the

nozzle, and so arranged that it cannot get An encasement of nickelled pressed steel, which is extremely durable.

The price of the machine ready for use is \$27.50.

Attachments for cleaning upholstery, stairs, etc., can be supplied. A small set, \$4.75; complete set, \$8.50. -Fourth Floor, Yonge St.

#### -Fifth Floor The Thor Electric Home Washing Machine Banishes the Drudgery of Wash Day

The Illustration Explains in a Practical Way Many of the Features of This Remarkable Convenience.

The Victrola XI. This is a great favorite in the list of Victrola machines. It is

an instrument that will bring

you an excellent rendition of almost any music you want to

It can be obtained in ma-

hogany or oak cabinet, with record shelves. It is 44 1-8

inches high, 20 5-8 inches wide, 28 3-4 inches deep, and has 12-

inch turntable, nickel-plated ex-

hibition sound box, Victor tapering tone arm and "goose

neck" sound box tube, automa-

neck' sound box tube, dutomatic brake and speed regulator
(nickel-plated), extra heavy
double spring and spiral motor
drive (can be wound while
playing), all metal parts nickelplated. Beautifully finished.
Price, \$187.00.

THOR ELECTRIC WASHER will do your wash- PUSH BUTTOMS' ing quickly and silently. Attach the plug on cord to electric socket, open table top as shown in illustration, insert clothes in wooden cylinder, the top of which can be seen, fill the tub with water, close the top and PARTS ENCLOSED push the button. The cylinder revolves a number of revolutions one way, then reverses. This motion sends billows of bubbling suds THE ATALOG through the clothes, driving out every speck of dirt without rubbing.

The Thor will not only wash the clothes, but wring them either way by the push of the lever.

Notice the plates over the wringer rolls. They let the clothes go through the rollers, but stop your fingers. Each side of the wringer has the guard. No matter which way you run the clothes through-from suds to rinse water, or from rinse to bluing water -your fingers are protected.

The Atalog is a controlling device which makes it impossible for anyone to damage the machine through carelegeness. It will disconnect the motor if an overload is put upon it, and prevent the burning out of the motor.

THOR PAT. SAFETY GUARD REYERSIBLE WRINGER STEEL PUSH BUTTON, CYLINDER OF HARB PLACED. ONLY ALL MOVING-ARGE SWIVELCASTERS WHICH MAKE

> All moving parts, wheels cogs, etc., on tub or wringer are enclosed.

IT EASY TO MOVE THE MACHINE

The Thor washing machine has galvanized iron body, painted white, and can be operated on about two cents an hour for current.

It is claimed that there are about 125,000 Thor washing machines now used, many by women who did not believe a machine could wash clothes as well as hand rubbing. See this electric washing machine in operation in the basement. Price, complete, \$120.00.

### For System and Convenience in the Kitchen

The Kitchen Cabinet Illustrated is of a Most Modern Design, and is Priced at \$34.50.

HIS KITCHEN CABINET saves time by the convenience of its equipment. If you use an ordinary table, even though it is placed conveniently, you must carry to it and from it all your utensils, tools and supplies. This takes time and many steps. The kitchen cabinet saves this time and energy, because it is a food supply pantry, and a tool and utensil cupboard around a sanitary kitchen table. The table itself is covered with nickeloid, and as it slides out 16 inches beyond front of base, you can sit down at nearly all

The pantry part is arranged so that you can store many packages of groceries within convenient reach. In addition to cupboard for dishes, the flour, sugar, spices, salt, flavoring extracts, coffee, tea and other supplies needed frequently are all in handy compartments, and

All the tools you need are provided for in same way-can-opener, egg-beater, rolling-pin, etc., are where you can reach them most handily. Lids and pie pans are in a pocket in the door at your left hand. A sliding shelf in the base brings the back part of the pan cupboard to you easily. Under the top compartment is a drawer for

table cutlery, string, etc. There are three drawers on the right of lower section, the bottom one containing a mouse-proof and ventilated bread and cake box. Cooking utensils, such as kettles and saucepans, are stored in the bottom of the cabinet, which has a galvanized lining, and which is easily

There is a simple and ingenious food guide of economical menus on the upper left door-this gives relief from the daily worry of "what to have for dinner." Another door contains a want list, order sheets, hook for bills, and tray for small change, milk and bread tickets. This cabinet is made of oak, in golden finish, and should last a

lifetime. Price, each, \$34.50. -Second Floor, Furniture Building.
