

LINCOLN—Superintendent reports very little work done. A library has been placed in the jail for the prisoners; the county council giving an annual grant of \$10.00.

MIDDLESEX—Superintendent reports 35 visits during the past year, and distributed 335 papers and leaflets.

OXFORD—The Superintendent reports having visited the prisoners, distributing literature and clothing. The House of Refuge has also been visited; the Superintendent was given free access to all departments; the house is well and comfortably furnished and the inmates seem happy and contented.

PETERBORO—Mrs. Paton, Superintendent—Reports good work still being done, having established a library of forty books.

TORONTO—The Superintendent reports the prisoners being visited every week, and the work satisfactory in many ways; visits have also been made to the police station.

WELLAND—No report sent, owing to the death of Superintendent, but we know good work has been done among the prisoners; two or three have received the gold cure treatment.

#### SUGGESTIONS.

We still urge upon the Unions the appointment of a Superintendent where jails or other institutions of a reformatory character are situated.

That Local Unions donate a collection each year to help the County Superintendents in obtaining literature.

Believing that local or branch Prisoners' Aid Associations will be of service in the work of reformation, we would ask our Superintendents and members to join in the movement.

Would recommend the books published by Mr. Moody's Bible Institute Colportage Association, in Chicago, as being most helpful to prisoners. They can be procured free of cost, simply by paying duty, and that is very light.
