How Uncle Sam Will Dig Into Every Pocketbook

From the cradle to the grave most of man's activities will be taxed under the new U. S. Revenue Bill, points out an Associated Press correspondent, since "baby's first dash of talcum powder under the 2 per cent. tax on cosmetics will help the Government carry on the war, and after death, the Federal Collectors will be on hand to get the Inheritance Tax at advances on the present rate of from 1 per cent. on \$50,000.00 to 10 per cent. on \$1,000,000.00."

While Congressman Kitchen and Senator Simmons, respectively responsible for the Tax Revenue legislation in the House and Senate, express much satisfaction with it, the newspaper press in various sections of the country is commenting upon what it deems, to use the words of the New York Evening Sun, the law's serious "inequities," "obscurities," "incomprehensibilities," and "unworkabilities."

In THE LITERARY DIGEST for October 13th, a clear exposition of what the new taxation will cost individuals and corporations is given and the drift of public opinion upon it is shown. Other striking phases of the world's news are presented under these headings:
