This Association was organized in May, 1871. Its objects and plan of operations are similar to those of the Alumni Society of the Male Academy and College. All former students of the Ladies Academy may become members by paying to the Treasurer the sum of One Dollar annually. Life-membership may be secured by paying Twenty Dollars at one payment. The regular annual meeting of the Association will be held during the Anniversary Exercises of the Institution in May.

At the recent annual meeting it was unanimously resolved to appropriate the Interest of the Life-membership Fund for a prize to the student who may make the greatest proficiency in Natural Science during the coming year. A Mathematical Scholarship of the minimum value of Twenty-five Dollars per annum was also established.

All Alumnæ are cordially invited to join the Association.
