

PRESENTATIONS ARE MADE TO MONCTON PUPILS

Aberdeen School Receives Cup for Superior Physical Training

Special to The Times-Star.
MONCTON, June 26.—The Moncton city schools held their annual closing exercises yesterday. At Aberdeen school Principal W. McE. Barker presided, and he, together with Miss Hattie Tweedie, Agnes, A. H. Granger and H. G. Pope gave short addresses. Mr. Granger presented the T. Eaton cup, emblematic of first place for physical training in the city schools, and Mr. Pope presented the Aberdeen mile relay team, which won the 100 pounds class, in the recent common school track meet with ribbons. He also presented Leonard Trites with a medal for having the highest number of points in his class and Kenneth Chandler, who won the broad jump, with a ribbon.

Beatrice Lutz and Sadie Saville won the prizes in the ungraded room. These prizes were donated by Lt.-Col. Boyd Anderson, Chapter, I. O. O. E. At King George school, Principal Chester Eagles presented the prizes and certificates and A. H. Granger presented the Rotary shield to the school, emblematic of the common school championships in the athletic meet. H. G. Pope presented the individual medals and ribbons to the various boys making the best showing.

ST. MARY'S HOME SCHOOL
At Mary's Home School the principal, Sister Immaculata, presided and the prizes and certificates were presented by Reid McManus. He also addressed the pupils, as did Rev. Father Laliberte, C. S. C. of St. Joseph's, 147 Edith Cavell school, Principal A. S. Robinson presided and Trustee J. Fred Edgett presented the prizes and certificates and addressed the pupils. At Victoria school, Principal R. G. Warman addressed the pupils. He also presented the prizes and merit cards. At Queen street school the prizes were presented by Reid McManus, who together with F. P. Murphy and Dr. F. E. Burden, delivered addresses. The principal, Sister Mercedes, presided at the Sacred Heart school the prizes and certificates were presented by Rev. Father Lemanager and Pellerin. Both priests also addressed the pupils. The principal, Sister Marguerite, presided.

AT SUMMER SCHOOL
The speakers at the summer school of the Church of England, held at Rothsay, yesterday were Rev. Canon Vernon, Rev. Canon Savers, Rev. Dr. J. Cooper Robinson and Rev. A. H. Crowfoot. Rev. J. H. A. Holmes conducted Bible study in the afternoon. Rev. Canon Vernon paid a high tribute to the work of the Women's Institutes in the rural parts of New Brunswick.

That Is Different.

REMAINS BURIED IN SACKVILLE, N. B.

SACKVILLE, June 26.—The body of Ivan Hodder, the 4-year-old son of Mr. and Mrs. Hodder, of Middleboro, Mass., formerly of Sackville, N. B., whose tragic death occurred in an automobile accident in the States Sunday last, was brought here for burial, the funeral being held yesterday at Middle Sackville. Mr. Hodder was formerly employed as a barber in Sackville, and his wife was formerly Miss Jennie Cook, of Upper Sackville.

Letters to the Editor

BRAVO, MR. OATES.

To the Editor of The Times-Star:
On reading Mr. L. R. Oates' letter in The Times, it struck me as a good one. What a fine thing it would be for Saint John if a lot of the citizens would take his advice. It is what we want in the worst way. There is a lot of money laying idle in our good old city, if we could only get some of our good citizens to see things as he does. What we want are factories; we have the men here that can run them, if they only had the capital to work with. Why can't we trust one another enough to invest a little cash and try them out? I have often thought myself if we could only get more factories in town what a fine thing it would be; if we could get every merchant in town to take some share in the same, so that we would all work together, I feel quite sure we could soon build up our town and make it a Florida of our own; all we want is a start.

Another piece of advice of Mr. Oates I thought good is buy at home, not because I am in business here, but because I had a U. S. A. customs officer tell me a story that I always remembered. It was that his wife wanted to send to England for a coat. He advised her to buy at home. His excuse was that if she bought a coat in England she would have the coat, but the Englishman would have the money; but if she bought at home they would have the coat and the money. I thought it was a good one. That is what is wrong with every citizen that sends their money out of town; they forget that they are taking the bits out of their own mouths; that is why I would like to see more factories in town.

I for one would like to buy all I sell of made in Saint John goods; all we want is someone to make a start. Mr. Oates might ask when he reads this letter, if he does, why don't I make a start? I only wish I had the means. I would start one tomorrow, for I

think what I have seen so far of the factories in town that there is no better place to have one.

We have had quite a number of small factories start in town with very little capital and make good, then left town to get to a larger city, but most of them failed to do better elsewhere. I have had some of the same people tell me that they wished they had stayed in Saint John. If we only had a few more like Mr. Oates come to our town and stay here to give us a push along I think we would get there all right; all we want is a start.

Thanking Mr. Oates for his good advice and hoping he will have a good time while here,
Yours truly,
J. T. WILCOX.
Saint John, N. B., June 24.

SIXTEEN YEARS USE OF BABY'S OWN TABLETS

Has Shown One Mother There Is Nothing to Equal Them.

A constant use of Baby's Own Tablets for their children has proven to thousands of mothers that they are without an equal for babyhood and childhood ailments. One mother, Mrs. C. W. Jackson, R. R. 1, Gifford, Ont., writes:—"We have used Baby's Own Tablets ever since our first baby was born sixteen years ago. We have seven fine healthy children and the Tablets are the only medicine they received in their early years. Our baby is one and a half years old, is walking and talking and weighs 25 pounds. Baby's Own Tablets is the only medicine he has ever had."

Baby's Own Tablets are guaranteed to be absolutely safe for even the newest-born babe. They are free from opiates and narcotics; act as a gentle laxative on bowels and stomach, and thus relieve constipation and indigestion; break up colds and simple fevers and make baby healthy and strong. You can get Baby's Own Tablets from your druggist or direct by mail at 25 cents a box from The Dr. Williams Medicine Co., Brockville, Ont.

SILVER SERVICE GIFT.
Miss Emma Conlogue was the guest of honor at a reunion of the cast of "Plate's Daughter," last evening at the home of Mrs. S. J. Richey, Kennedy street. Miss Conlogue, who is to be married on Monday, Tuesday, was made recipient of a silver service. Cards were enjoyed and delicious refreshments were served. On last Tuesday evening Miss Conlogue was the guest at a linen shower at the home of Miss K. Ryan, Clarendon street.

A CREED

The word "overhaul" has a very specific meaning in our business. Applied to a used car, we define it as follows: "To replace or repair every part necessary to put the car in good running order." And that is not simply a definition. It is a creed.

MAN LOADS 45 TONS OF COAL PER DAY

Bethlehem Steel Corporation Awards Gold Medal For One of Employees

PHILADELPHIA, June 6.—Paul Doble, a coal loader employed by the Bethlehem Steel Corporation, has just been awarded a gold medal by the company for loading 45 tons of coal in twelve working days. The coal was loaded with a hand shovel in the Dakota Mine of the Bethlehem Mines Corporation in West Virginia. Doble's average daily loading of 45 tons was the equivalent of the amount of coal carried in a full-sized railroad car.

In France, Doble's native country, the average production per miner is 150 tons of coal a year. In Germany and the United Kingdom, the average output of coal is 225 tons per year. The average output in the United States is 700 tons. Doble thus loaded in 12 days almost a year's production of an American miner, more than two years' production of a British or German miner, and over three years' production of a French miner.

AWAY CAMPING.
Twelve girls from Stone church left this morning to go camping at Bellefleur. Miss deForest was in charge of the party and she has as her assistants Miss Elizabeth Armstrong and Miss Jean Angus. The girls making the trip are: Lillian Davidson, Margaret and Florence Verge, Christine Irons, Mildred Haynes, Gwendolyn Martin, Dorothy McVane, Blanche VanWart, Gwendolyn McVane, Marion Mealy, Edna Douglas and Margaret Martin.

LIQUOR INSPECTOR TO MAKE CONTEST

Moncton Man Engages Mayor of Shediac to Defend Him in Speed Case

SHEDIAC, June 26.—The case of Sub-Inspector Keiver, charged with driving his car at excessive speed on Main street here on June 19, will be heard next Tuesday before Magistrate Avar White. Sub-Inspector Keiver, who was accompanied at the time by Chief Inspector Goodwin, Sub-Inspectors Bourgeois and Sullivan, were on official business, and maintain that the car was slowed up at the town limits so as to keep within the prescribed speed limit and that their journey through the town was at a moderate rate of speed. Mayor E. R. McDonald of Shediac has been retained by the inspectors to represent them when the case is called.

TWO WOMEN SHOT IN BOOTLEGGERS' WAR

Boston Social Worker and Another Pedestrian Innocent Victims

BOSTON, June 26.—Miss Mary Costello, of 45 Roseclair street, Dorchester, and Mrs. Theresa Tandi, of 65 Charter street, are at the Haymarket square relief station with their names on the danger list as a result of a shoot-

INDIGESTION

Rules For Autos In Fernhill Announced

The directors of Fernhill Cemetery Company, having had many requests to allow motor cars to enter from Rothsay avenue, have acceded to the demand and have had a number of signs placed on the different avenues.

The following are the new regulations governing this entrance: Motor cars and other vehicles may enter Fernhill cemetery from Rothsay avenue by way of Willow avenue, which is the first avenue to the right, and follow the white arrows through the cemetery to the only exit at Rothsay avenue.

Drivers must carefully observe the different signs that have been placed by Fernhill Cemetery Company for their convenience and guidance. The speed limit is six miles per hour. Members of the cemetery staff have been instructed to report any violations.

Touchy Corns!

Lift Right Off with Fingers—No Pain!

Magic! Instantly that old, bothersome corn stops hurting, then shortly you lift that corn right off with your fingers—root and all—without a bit of pain or soreness.

A few cents buys a tiny bottle of "Freezone" at any drug store. Drop a little on any hard corn, soft corn or corn between the toes or calluses—that's all—Corns gone!

Don't Let Your Money Go up in Smoke!

A Large Canadian Bank is Eliminating This Waste. Read Their Letter as a Proof That Your Money Can Also Be Saved!

THIS Big Canadian Coal Question has been solved by the new Gurney "250" Boiler. Ordinary heating apparatus has failed to get from cheap, easily-obtained, free-burning soft coal anything like the total heat that it contains. The Gurney "250" Boiler, however, extracts the maximum of heat units from soft coal—and does this with the minimum of attention!

Heretofore one disadvantage of soft coal burning has been that much of the heat value has literally "gone up in smoke." Another disadvantage of burning soft coal for heating has been the abnormal amount of tending necessary to maintain adequate fires.

You Can Now Heat Cheaply With Soft Coal

For years Gurney heating experts have been working to produce a Boiler that solves both problems. The Gurney "250" gives unprecedented results from free-burning soft coal. As most of the Canadian coals and much of the imported soft coal are of this non-caking type, the long-standing and vexatious fuel problem is solved for owners of the new Gurney "250" Series Boiler.

This is How the Gurney "250" Performs

Last winter we asked one of the great Canadian banks to place a Gurney "250" Boiler in one of its branch buildings under the observation of the bank's own engineers. This is what they

say after months of experience with this new Boiler:

The Gurney Foundry Company, Limited, 600 King Street West, Toronto.

Dear Sirs: We have been using your new type of soft coal boiler, the "250" Series, in our branch at the corner of _____ streets, since the beginning of February last.

We are now able to report that we have secured better heating results than with the boiler which was replaced, and with less attention on the part of the janitor.

The coal consumed has been of the free-burning, soft coal type. About the same quantities have been used as was formerly the case with anthracite. It would appear, therefore, that we are saving the difference in price between anthracite coal and free-burning, soft coal.

Because of these facts we are prepared to recommend the boiler.

Faithfully yours,
We'll gladly furnish you with the name of the bank if you so desire. At any rate, why not find out all about this remarkable new Boiler? Besides being the most economical boiler, it's the most convenient to install and the easiest to tend. Its principle is radically different from all the other heating plants on the market, and we are prepared to guarantee the results claimed for the Gurney "250" where the Boiler is installed and used under suitable conditions.

We've prepared a Book that gives full details about the "250" Boiler. Won't you write for a free copy? Use the coupon.
