W. C. GILLESPIE KILLED IN WAR; F. S. JOHNSTON WOUNDED

After fighting for four years in Mexico with the United States army and seeing much service there, William C. Gillespie, Jr., of this city and only son of William C. Gillespie, Sr., of 167 Charlotte street, has been killed on the western front, according to news which was conveyed officially to his parents yesterday.

The young man, after the Mexican trouble had ceased, went from the United States to Winnipeg where he joined the American Legion, then in formation there, and crossed to England in June of last year. Being a veteran he was shortly transferred to the firing line and has been there ever since until he was killed on July 27.

He was twenty-seven years of age and is survived by his wife and one child, also two sisters, one of whom, Margaret E., recently crossed to France with a draft of American nurses and the second, Alva, who resides in Rockland (Mass.).

He left St. John some years ago but was remembered by a large circle of friends who will deeply regret to learn that he has been killed in action but will be proud of his splendid record as a soldier in defence of the land of his nativity. The deepest sympathy goes out to his sorrowing family in the hour of their trial.

F. S. Johnston Wounded.

Mrs. Fred Johnston, of 88 Harrison street, received a telegram yesterday morning notifying her that her son, Gunner F. S. Johnston, of the 7th Siege Battery, had been admitted to No. 55 General hospital at Boulogne, July 27, 1918, suffering from a gunshot wound in the right foot and buttock. The many friends of the wounded soldier in the city of St. John will learn with deep regret that he has been wounded in action.

Pte. P. L. Myers.

Mrs. E. Hatfield Myers of Norton has been advised from Ottawa that her son, Private Percy Lawrence Myers, has been killed in action. He was reported missing on Nov. 4, 1917, at the battle of Passchendaele and since that time no information concerning him has been received. He was a member of the N. B. battalion.

Private cables from France announce the death in action of Lieut.-Colonel Bartlett McLennan, D. S. O., O. C. the 42nd Royal Highlanders of Canada. Prior to going overseas he was president of the Montreal Transportation Company. He was also director of the Williams' Manufacturing Company, the Royal Trust, the Bell Telephone and other important concerns.

At Camp Petawawa on Aug. 1 the artillery division was inspected by the Lieutenant-governor of Ontario, Sir John Hendrie. In the afternoon the 68th Battery of Woodstock was selected by the camp commandant to fire a series

ACIDS IN STOMACH CAUSE INDIGESTION
Create Gas, Sourness and Pain How to Treat.

Medical authorities state that nearly nine-tenths of the cases of stomach trouble, indigestion, sourness, burning, gas, bloating, nausea, etc., are due to an excess of hydrochloric acid in the stomach and not as some believe to a lack of digestive juices. The delicate stomach lining is irritated, digestion is delayed and food sour, causing the disagreeable symptoms which every stomach sufferer knows so well.

Artificial digestants are not needed in such cases and may do real harm. Try laying aside all digestive aids and instead get from any drugist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This sweetens the stomach, prevents the formation of excess acid and there is no sourness, gas or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and is the most efficient form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

Is Your Blood Starving For Iron?

Iron Is Red Blood Food—It Helps to Put Strength And Energy Into The Veins Of Men And Women Into The Cheeks Of Women

Many a man and woman who ought still to be young in feeling is losing the old time vim and energy that make life worth living simply because their blood is starving for iron. Iron is absolutely necessary to enable your blood to change food into living tissue, muscle and brain.

When too much indoor work, lack of sleep, improper food and impure air makes you nervous and irritable, your digestion troubles and you feel your strength is waning, it is time for you to get more iron in your blood.

A prominent New York Surgeon and former Adjunct Professor of the New York Post Graduate Medical School and Hospital, Dr. Kenneth K. McAlpine, says: "If people would only realize that iron is just as indispensable to the blood as is air to the lungs and be just as particular about keeping up a sufficient supply at all times there would, in my opinion, be far less disease resulting from anemic, weakened conditions. In my opinion, Nuxated Iron is the most valuable tonic, strength, and blood builder at all times recommended by physicians and which is used by over three million people annually is not a secret remedy, but one which is well-known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money."

Manufacturers' Note:—Nuxated Iron, which has been prescribed and recommended by physicians and which is used by over three million people annually is not a secret remedy, but one which is well-known to druggists everywhere. Unlike the older inorganic iron products, it is easily assimilated and does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money.
