FOR CIVIC WORK

IMPERATIVE TO KEEP AHEAD OF PAVING WORK

Breaking All Records

(From Friday's Daily.)

Since the Canadian Mineral Rubber Company started out upon its great paving contract it has become apparent that the city staff, whose duty it was to keep so far ahead with the sewers as to enable the paving company to extend itself to the limit, is not equal to the task, and therefore it has been decided, in view of the urgency of both the sewers and the pavements, to increase the staff so that the margin will be maintained and the paving company will be able to forge ahead with all the speed at its com

For some time past there have been no less than 600 men employed on sever construction work in the city, but it has been found that that number is not adequate for the requirements of the paving company, and an effort will now be made to increase the number of men employed on this class of work to 1,000. It is not anticipated that there will be Their investigation also has been is estimated that in a very short time

> At the present time the city is employing more men than it ever employed before, but with this prospective increase all records will be completely forgotten; and of course the co-incidental payroll will reach proportions never before attained.
