

ARMAMENT END OF CONFERENCE NEARS ITS COMPLETION

Only Details of Technical Phraseology Remain to be Worked Out on Limitation of Arms Before It is Ready for Signatures—Conference Will Make No Attempt to Limit Aerial Warfare at This Time; Question Goes to Future Conference.

Washington, Jan. 9.—Only details of technical phraseology remain to be worked out for the treaty on limitation of armament before it is ready for signature by the plenipotentiaries of the five great powers.

Passing today on its last question of policy, the armament committee of the Washington conference decided against any present attempt to limit or regulate aerial warfare, and voted to refer the problem to a continuing commission for future study.

Each of the five delegations, meeting separately, began an examination of the tentative treaty draft prepared by the sub-committee of experts. The delegation heads are to come together late tomorrow to compare opinions and it is expected that the complete text will be ready for publication to the world at a preliminary session of the conference on Thursday or Friday.

Questions of definition, particularly with reference to the status of merchant vessels in wartime, are understood to be the chief concern of the delegates in their efforts to agree on a wording acceptable to every one. Some features of the merchandise problem already have been closed away, however, and there is no indication that a prolonged discussion will result.

With the armament end of the conference approaching final disposition, the delegates are preparing to give the Far Eastern discussion also an early conclusion. The Shanghai question still is in deadlock, but fresh hope of a settlement was expressed of tonight when it became apparent that the negotiations on that subject were turning into new channels.

The other remaining elements of discussion in the Far East are not generally considered of a character to lead to extended debate. Some delegates took an optimistic view of the outlook that they were predicting a plenary session for Saturday or Monday to announce completion of the Far Eastern treaty.

FOUND STARVING AND FREEZING IN PORTLAND HAY MOW

Samuel Graham, Said to be Native of Houlton, Me., in Pitiful Plight.

Portland, Me., Jan. 9.—Samuel Graham, 44, who told the police that for a month he had shared the food thrown to the pigs and for the last ten days had subsisted almost entirely on frozen apples, has just been found in a starving condition and with both feet frozen on a hay mow in the barn of John J. Frye, 350 Ocean Ave. He was taken to the city hospital and Dr. John R. Hamel, city physician, said that it would be necessary to amputate his feet. Mr. Frye was picking hay from the mow to the floor when he heard someone moaning, and after throwing a few more forksful he discovered Graham, who was a former employe of his. Graham was too weak to say anything at the time, but after he arrived at the hospital he covered sufficiently to tell police officials and the superintendent of the city home that he had been hiding in the barn for a month. He is said to be a native of Houlton, and has several relatives in that town.

Trapped by Flames Three Women Jump

Thrilling Incident in Connection With Burning Building in New Bedford.

New Bedford, Mass., Jan. 9.—The quarters of the Washington Club, a three-story wooden structure in the South End, was destroyed by fire early today, entailing loss estimated at \$60,000. Three women were injured in jumping from the top floor of the building to fire nets and were removed to a hospital. One fireman and the club janitor were slightly injured.

Mrs. Margaret Gelder, invalid wife of the janitor, and her two daughters were trapped in their quarters on the third floor and forced to jump. Mrs. Gelder, in landing, struck a fireman, rendering him unconscious. The two daughters were bruised by striking the net. Mr. Gelder, in attempting to locate the source of the blaze, fell down a flight of stairs and sustained minor injuries.

The cause of the fire is undetermined. For Colds, Grip or influenza and as a Preventive, take Laxative Bismol Quinine Tablets. The genuine bears the signature of E. W. Grove. (See how you get BISMOL.)

Amalgamation With City Is Proposed

East St. John Coyly Making Advances Along That Line—Tenders Were Opened.

Overtures from East St. John toward amalgamation with the city, tenders for timber and a Rand drill and a schedule of wages asked by the employees of the city for the year 1922 were among the matters discussed at the city council committee meeting yesterday morning.

In the schedule of wages received from the Public Service Employer's Union there was practically no change in the rates asked from those of last year. The price of general labor remains at \$3.50 a day of nine hours. The highest wage asked was for asphalt construction workers at \$2.75 to \$4 a day of nine hours and \$4.50 a day of eight hours for carpenters.

Mr. Frink read a list showing increases made in 1921. It was moved and carried that the schedule lay on the table and that the departments affected make a list of wages now paid.

A letter was read from representatives of East St. John asking on what terms and conditions that village could be amalgamated with the city. It asked that no increase be made in assessed valuations for five years from date of amalgamation. If amalgamation is effected, it was expected that various sanitary services would be installed at once, also lights and other services.

The letter was signed by W. P. Burditt, J. E. Quinn, Alexander Magee and J. W. Flewelling, and was ordered laid on the table.

A communication was received from D. J. Purly in regard to conducting his wharf twenty-five feet into the Inlandtown harbor. The letter was referred to the commissioner of harbors and services.

Tenders for the supplying of fifty pieces of common Douglas fir, 12 x 12 inches x 20 feet, for what purposes were opened and were as follows: United Lumber Company, \$37.75 per foot; J. Roderick & Son, Douglas fir \$62.50, western hemlock \$52; R. H. Williamson, \$45 pieces of spruce, \$31.50 for the lot; Joseph A. Likely & Co., immediate delivery, \$49; Roderick, Douglas fir, \$54.75; B. E. & Co. bid only on the base, \$54.75.

The tenders were referred to the road engineer for a report on the matter. Mr. Frink read a report on the hearing of a note signed window at 110-112 Prince Edward street and owned by Louis Stevens. A claim had been put in by B. and H. B. Reynolds, insurance agents, as it was alleged that the window had been broken by a city workman. Mr. Frink read the opinion of the city solicitor.

He announced that a stone from the pick of a city workman had done the damage. It was decided that Messrs. T. E. and J. B. Reynolds be notified that the city had been advised that the claim should not be paid.

Mr. Frink said that a meeting of the finance committee of the municipal council, to be held on Wednesday and that the estimates would have to be passed through the council on January 17. He thought that the council officers were being rushed. The city estimates ought to be brought down before those of the county, he declared. He wanted more information before voting on the estimates.

The mayor said that some of the city estimates would be passed by January 17. It had not been for the unemployment situation, they would not have had to spend much money till the tax had been collected.

The mayor said that the city had \$109,673 in the bank on December 27, after paying all bills. He said that he would ask the council to consider the tax that was in the near future. He also said that he expected to get much of the hydro electric matter cleaned up by Wednesday. Among other matters to be considered by the council would be the proposed bridge at the falls.

Mr. Frink suggested that the stone crusher be started to help fill in the Newmarket brook before the snow deepens.

Down in the house and in the house at 123 West Street street.

The noise of the explosion was heard for several blocks, and this, together with the crash of the glass falling into the street, caused a large crowd to gather. The house is occupied mostly by Italians and Greeks, and the rumor spread that a bomb had exploded. Patrolman Birmingham of the West Sixty-eighth street station dispersed the crowd and arrested Mrs. Bevous, taking her and her three weeks' old baby to the West Thirtieth street station.

The woman could speak nothing but Greek and would not talk about the still. Through an interpreter she told the police that she was in her bedroom nursing the baby when the explosion occurred. The blast ripped the plaster from the walls of the kitchen and smashed every window in the Bevous apartment, besides smearing the furniture, walls and floor with blood from the still. Mrs. Anna Thomas, 111 in the apartment on the fourth floor, was thrown from her bed by the force of the explosion.

Mrs. Bevous was charged with violation of the State prohibition enforcement laws. The police say that when they searched the apartment they found four bottles of alcohol as well as a large barrel into which the liquor manufactured by the still was dripping and making more than a dozen wine.

Explosion of Still In New York Caused Bomb Plot Scare

New York, Jan. 8.—A still in the kitchen of Mrs. Alice Brown's apartment on the third floor of the house at 123 West Street street, near Amsterdam avenue, exploded last evening about 4 o'clock, wrecking the kitchen and making more than a dozen wine.

Cases Dealt With In Police Court

East St. John Coyly Making Advances Along That Line—Tenders Were Opened.

The case against Ernest Frink, charged with obstructing an officer in the discharge of his duties, was resumed in the police court, yesterday afternoon. Mr. Frink's defense, giving evidence, said he was sitting at the head of the stairs in the Empress House, on the day inspectors Henderson and Killen came to the place. He pulled the door open and the door for the two men and Henderson rushed upstairs, knocking the witness down as he passed. The officer did not announce his business, and the witness said, it was not his intention to interfere with the inspector in any way.

To Mr. Ryan, he said he was talking to Gabriel when the officers arrived and after they had gone. There was another man present at the time and they were carrying on an ordinary conversation.

The witnesses held that there was sufficient evidence to warrant his giving judgment against the defendant, who was fined \$50. W. M. Ryan appears for the prosecution and E. S. Ritchie for the defendant.

Ernest Northrop, charged with the theft of clothing from Murray Jarvis, was brought before the magistrate again for the prosecution, and remanded, no further evidence being taken.

The case against Harold Steeves, charged with obstructing a street car on Main street, was continued, and after the evidence of two more witnesses was taken, the matter was set over for judgment.

The preliminary hearing in the case of William Parr, charged with attempting to smother N. J. Jacobson, was continued yesterday morning. Police Constable McElroy, who gave evidence regarding the accused's giving himself up at the location and the conversation he had with him at the time Joseph Gillard testified that he purchased a revolver on January 2, to his father's store on Mill street, from a man, giving his name and address as William Parry, 140 Duke street, W. E. He identified the revolver produced in court and the prisoner as the man who had sold it to him. The case was postponed until Friday at 10.30 o'clock.

Frank Hoffman, charged with having liquor in his possession illegally pleaded not guilty.

Inspectors Johnson, Henderson and Killen were sworn when J. A. Barry, charged with having liquor in his possession, was brought before the court. He was fined \$100, and his license was suspended for six months in jail was imposed.

The case against John Parry, arrested on suspicion of acting together with others in the theft of automobile, No. 1210, the property of J. A. Pugsley, from an alley off Prince William street, came up before the magistrate, and the defendant pleaded guilty. He was remanded until his confederates can be apprehended.

Nova Scotia S.S. Company Petitioned Into Bankruptcy

Creditors in United States Take Initiative Against Halifax Concern.

New York, Jan. 9.—An involuntary petition in bankruptcy was filed in New York today against the Nova Scotia Steamship Company by three creditors. The largest is the Federal Line, in claiming about \$300,000. The principal place of business of the company is in Halifax, N. S., but the petition claims there is property in this district.

Obituary

PATERSON WILLISTON
Newcastle, Jan. 9.—The death occurred at Bay St. John, at 2 o'clock on Sunday afternoon, of Paterston Williston, a well known and respected resident of that place after an illness of several months. He died at the age of 67 years. He was injured in an explosion of dynamite at Moose Head Lake, Maine, about seven years ago which caused him to lose the sight of both eyes. After a course in the Halifax School for the Blind, he, about a year ago, started a factory at Bay St. John, for manufacturing mattresses, brooms, etc., which he conducted until the time of his death. He is survived by one sister, Katherine, (Mrs. Brown) Portland, Maine, and three brothers, James, George and Barber Williston, all of Bay St. John. The funeral will take place at 3 o'clock on Tuesday afternoon, interment in the Anglican cemetery, Bay St. John.

U. S. SUPREME COURT TO GIVE ATTENTION TO CHARLES PONZI

Boston's Exponent of High Finance Has Rough Road to Travel.

Washington, Jan. 9.—The case of Charles Ponzi, whose financial exploits in Boston brought him in November 1920 a plea of guilty in the Federal Court to one of two indictments found against him, and who is now serving imprisonment of five years, will receive attention from the Supreme Court on March 6, under an announcement made today by Chief Justice Taft.

The State of Massachusetts has twenty-two indictments charging him with certain offenses, with being an accessory in others, and with conspiracy to commit larceny and destroy public property. He is now in the Federal Court at Boston, last May, deposed his petition for a writ of habeas corpus, and the case is now on appeal in the Circuit Court of Appeals. That Court has asked the Supreme Court for instructions as to whether Ponzi can be tried by the state before serving his term of imprisonment.

NEW FEATURES GIVEN TO DRAFT OF NAVAL TREATY

Scrapping of Capital Ships Is to be by Sinking, Targets or Conversion.

Washington, Jan. 9.—The draft treaty prepared by naval and legal experts covering the "Five-Power" contract for reduction and limitation of naval armament, was in the hands of the five delegations tonight, and though the text was jealously guarded, enough information leaked through the barriers of silence to show numerous new features are included in the draft copy.

New features include: "A proposal that the duration of the pact be until 1937; a proposal to limit the size of guns on merchant ships to six-inch caliber; authority for the construction of warships on foreign account within the jurisdiction of the Five Powers provided the size limitations laid down for the five nations in the treaty are not exceeded.

The specific understanding as to the "4-5-6" capital ship ratio between Great Britain, the United States and Japan with its application to France and Italy, is understood to be in the treaty itself, the agreed future tonnage being set out at \$25,000,000, 30,000—315,000—176,000—178,000. Then follows the agreement to limit size of future capital ships to 35,000 tons and their main batteries to guns of not more than 16-inch caliber.

Agreement tonnage in airplanes carriers is limited to Great Britain and United States 135,000 each; Japan \$1,000; France and Italy, 60,000 each. Scrapping of capital ships is to be by sinking, breaking up, conversion into commercial craft, harbor craft, or supply and repair ships, or by use as targets.

Duration of the agreement will be until 1937. The anti-submarine formula is understood to be also a part of the treaty.

HOW TO DARKEN GRAY HAIR

A well known resident of Chelmsford, Ohio, who has been a barber for more than forty years, recently made a discovery which has attracted the attention of the Reparations Commission.

"Anyone can prepare a simple mixture at home, at very little cost, that will darken gray hair, and make it soft and glossy. To a half-pint of water add 1 ounce bay rum, a small box of Orlex Compound and 1-4 ounce glycerine. These ingredients can be bought at any drug store at very little cost. Apply to the hair twice a week until the desired shade is obtained. This will make a gray-haired person look twenty years younger. It is easy to use, does not color the most delicate scalp, is not sticky or greasy and does not rub off."

Germany declares she is in a condition to pay and we know her what artifices and deceptions have come to this condition, if in fact she has not done so in the past. The Reparations Commission should first decide whether it is true, really too convenient for a debtor to declare himself insolvent, and it is no credit to our country in an affair who would patently accept a declaration. If it is true, it is a shame the Government has been so financially, who have known and used have grown rich. Germany not levied the necessary taxes consequently we have this scandalous, the conquerors who were obliged to make up arrears by consuming the now crushed under tax burdens, who vanquished and responsible man's escape them. They allow Germany banks to carry by their credits abroad. Manufacturers and traders accumulate profits for their exports in pounds and dollars which they take on their way into Germany. It is as if a private affair the director of a company ruined it financially, but resorted for himself the right to live a happy and sumptuous life without giving himself with responsibilities protests.

Germany Calm and Resolute.

What will be done if Germany finally declares she is not a debtor to pay and does not pay? France is calm and resolute and not she who will take up the mantle of the future tranquility of the world? She does not pretend to be harassed permanently to a passive attitude, but with a clear vision of the future she will be asked, what she probably will be asked whether, if Germany cannot pay in money, cause she has precipitated the drop of the mark which means the world's peace will be again be troubled.
