JITNEY COLLIDED WITH FRUIT WAGON

Bus Owner Will be Called on to Pay Damage Done Yesterday Morning.

A serious accident was narrowly averted about 9:30 yesterday morning when a jitney bus ran into the rear end of one of the delivery carts of J. F. Estabrook & Son, Charles London, the driver of the fruit team, was driving his horse across Mill to North street when the jitney swooped down upon him. It was only by quick action that he jumped from his position beside the team and averted being hit. The jitney after passing him struck the rear of the cart, badly bending the axle.

As the wagon was on the car tracks at the time, the force of the blow caused it to slide on the wet rails, otherwise it would have been demolished.

Mr. London contends that the jitney driver was solely to blame for the accident, and he will therefore be called upon to make good the damage which resulted.

Busy Session In Police Court

Wm. O'Brien on Suspicion of Robbing Liquor Warehouse.

Yesterday and not Monday was "Labour Day" at the police court, for from two in the afternoon until well after five the police magistrate and clerk were kept busy attending to the scores of cases that presented themselves.

No session of the court was held in the morning pending the return of His Honor from a holiday visit spent out of town. On the opening of the court four drunks were charged and sent below. William O'Brien was then charged on suspicion of acting together with others, breaking into, entering and stealing from the warehouse of the Great West Wine Co., Water Street, 12 cases of Scotch whiskey to the value of \$600 on the night of Sept 5th.

G. H. V. Belyea appeared for the prosecution, and J. A. Barry for the defendant.

Orville Dubois, the local manager of the Great West Wine Co., was the only witness called. He stated that his firm were doing an export liquor business at 51 Water Street where they had liquors of all kinds stored.

That he left the warehouse at 9 Saturday night and noticed nothing wrong at the time. At 8 Sunday morning he was called up by phone by Sergeant Detective Power, and at his request accompanied him to the warehouse. Policeman Dykeman was there and witness found that 12 cases of Scotch whiskey, eleven of Dewars, and one of Black and White, was missing.

The warehouse room, he said, ran from Water Street to a wharf on the waterfront, and a broken pane of glass in a window opening from a toilet in one corner of the room on to an elevator shaft on the wharf, was the only clue to how an entrance had been obtained. The window measured 8 by 30 inches, all the other windows were closely barred, and the door leading to the wharf was locked from the inside.

O'Brien, the accused, was familiar with the place having been in the employ of the firm up to the 16th of July.

The case was allowed to stand until this morning at 10 o'clock.

William Nixon, Nick Shiban, William Truffen and Jack Kestuck, charged with stealing a tire from an automobile on the Golden Grove Road, were on application of L. A. Conlon, who appeared in their defense, allowed out on bail. They had been sent up for trial at a previous hearing, and entered into recognizances of \$400 each, with the addition of John O'Neil giving securities of \$200 each.

D. Michael Seabury was charged with assaulting his wife, and was remanded. Mrs. Seabury first took the stand and stated that every time her husband got drunk he threatened to kill her and to knock down the house with an axe, and on Friday last he told her if she did not give him 50 cents for rum he would "kick her in-side out." This request and threat had been made nine times since last January, and twice since July.

She asked the magistrate to see that her life, and that of her nine year old boy, were protected. She thought her husband bought his liquor on Prince William Street. The prisoner was remanded, and the wife was turned over to the liquor inspectors to swear out her information against the man she thought served her husband.

Missing Girl In Fredericton

Gerardine Mitchell, the fourteen year old daughter of Mr. and Mrs. Thomas Mitchell, 7 Mill Street, has been located in Fredericton, according to a phone message received by Sergeant Detective Power, from Chief of Police Finlay yesterday afternoon.

Up to when word was received by Sergeant Power, nothing had been heard of the young girl since the time she left her home at 4 o'clock Monday afternoon. She was then bound for the exhibition to meet her cousin, Eleanor McNamee and her sister Kathleen. Neither of the girls saw her at the fair and as the hour grew late the police were communicated with.

Nothing was learned of the girl's whereabouts however, until the Fredericton chief phoned that the girl had called at the police station there at an early hour Tuesday morning and requested assistance. She said she had been taken to the capital in a motor car by an elderly man.

In conversation with an aunt who phoned to her from this city later in the day, the young girl stated she had not been ill-treated. Police Marston Ross left for the capital last evening to bring the young girl home. The young girl will arrive in town sometime this morning.

The Mitchell girl was not the only one whose absence brought worry and alarm to her household, for the assistance of the police was also solicited in locating an 11 year old girl of Prospect Point. The girl was later found to be visiting an aunt on Albion street.

The case of the Mitchell girl called forth some pointed remarks from Police Magistrate Ritchie, who on Friday Honor took occasion to say that if they young girls' whereabouts and companions, as they were wont to do in years gone by, many of the ills of the present day would be avoided and the community would benefit thereby.

Identified By Finger Prints

Edgar Baram, Prisoner With Interesting Record, Will be Brought Here.

Edgar Baram, who attracted much attention two years ago by escaping from the county jail here, and later by fighting the extradition proceedings brought against him in Boston, whence he had fled, by the local authorities, has been located in Chatham, Ontario, and an officer will be sent to that place to bring him back to St. John to face his trial.

Baram's record is a rather interesting one. He was arrested for breaking, entering and stealing from the W. H. Thorne Co. a quantity of hardware, including several revolvers. While awaiting sentence in the local jail, he escaped. He was traced to Montreal and then to Ontario, where the St. John authorities took extradition proceedings against him. These were fought by Baram and led to a prolonged legal contest during which he was admitted to bail by the American officials. Baram skipped his bail and disappeared. Recently he was arrested in Ontario, on a vagrancy charge. His finger prints were taken by the police there and forwarded to the Central Finger Print Bureau at Ottawa where they were found to be similar to the ones of Baram sent from St. John along with his record, two years ago. The local authorities were immediately notified of the identification, and an officer will leave for Chatham this evening to bring the much travelled youth back to this city to face his trial after a postponement of two years.

Open Up Areas For Development

Com. Frink Gives Notice of Resolution for Development of Lands in Stanley Ward.

Commissioner Frink gave notice at the meeting of the common council yesterday of a resolution which will interest every citizen who wants to see the city expanded and who if the council adopts it, will mean the development of a large area for home building. The motion will come up for debate at the council meeting on Tuesday next, and the commissioner will then outline what he has in mind for this area.

The notice of motion follows:

Resolved, That it shall be the policy of the common council to open up such areas within the limits of the city which present opportunities for economic and profitable development.

That in the opinion of this council the area in Stanley ward, bounded by Millidge avenue north, New West and northeast of New West Bridge presents an exceptional opportunity for such development.

That the work begun this year for the widening, grading and paving of Millidge avenue be continued until such work extends to the river St. John; taking and possessing any lands which may be found necessary for the prosecution of this work, either by negotiation direct or by expropriation. The common council should determine by resolution in what extent work to be undertaken in any one year, and the measures to be taken to provide payment for the same.

That it shall be the policy of the common council to extend the water and sewerage services to the area previously cited in such manner and under such conditions as may seem desirable.
